

# INFINITY PRO START SYSTEM

## The ideal entry-level swimming start system for all pools

### Key Features:

Economical and easy to use

#### Easy portability

This lightweight unit is easily moved with its molded handle.

#### Strobe and speaker

The highly visible strobe automatically flashes as the horn sounds; providing fair starts to all athletes. The strobe intensity and horn start volume are adjustable to meet the needs of your facility and athletes. The Infinity Pro can be used with the standard CTS start tone, or an alternate start tone.

#### False start recall feature

The Infinity Pro has a false start recall feature that enables the starter to signal a false start and immediately alert the competitors.

#### Optimized battery operation

Our new technology allows for 12+ hours of race start operation, a fast recharge of the internal battery (within a few hours), and an automatic shut off feature that powers down after the device is not in use for 60 minutes.

# INFINITY PRO START SYSTEM

## Specification:

The Infinity Pro Start System consists of a start module with handle for easy portability, 40-watt corrosion resistant speaker, wired microphone with two start buttons (L/R), internal gel-cell battery, and 115V charging capability (230V available). The system allows for normally open/normally closed start signaling to the timer.

**Mounting:** integrated attachment points for tripod or flagpole mount (sold separately)

**Enclosure:** corrosion resistant IP56

**Speaker:** internal moisture- and corrosion-resistant 40-watt horn speaker provides up to 120dB of loudness at 1m

**Strobe light:** bright, eye-catching strobe light automatically flashes simultaneously as horn sounds

**Battery power:** reliable internal gel-cell battery with built-in charging indicator and charger can be charged up to 90% in 4 hours, 100% in 6 1/2 hours. For safety purposes, the unit will not operate while charging

**Warranty:** two-year limited warranty

**Safety:** UL listed
