Aquabot Series Robotic Pool Cleaners by BWT

Aquabot Series cleaners are equipped with the Aqua Smart System, an intelligent program for robotic pool cleaners that aids the unit to fully cover and efficiently clean any commercial swimming pool. A mathematical algorithm installed in the brain of the machine enables the robot to clean the pool in a systemized fashion without wasting time.

- Fine mesh filter bag can trap extremely small particles and microscopic algae with only a few microns diameter.
- Gyro Navigation System is the new intelligent algorithm developed to improve navigation of the robot. Using systematic turning patterns, it prevents cable tangling and maximizes cleaning coverage efficiency.

DOLPHIN AUTOMATIC POOL CLEANERS

wave

Dolphin™ | by **maytronics**

Dolphin W20

Ideal for children's pools and fountains.

The low profile of the W20 makes this cleaner the perfect solution for shallow water pools such as fountains, reflection pool, and wading pools reaching a minimum depth of 8 inches.

- Durable tracks and dual scrubbing brushes
- Swivel cable prevents tangling and improves pool coverage

Item Number	Description
CCW02028	Dolphin W20

Dolphin Wave 60

Ideal for small commercial pools up to 50 feet long.

A hard working commercial grade cleaner designed to deliver performance and reliability at an affordable price.

- Features quick and easy top-access to filter cartridges
- Large debris clean-up filters and fine porosity filter cartridges come standard

Item Number	Description
CCW06028	Dolphin Wave 60

Dolphin Wave 80

Ideal for mid-size commercial pools up to 68 feet long.

An advanced robotic cleaner designed to deliver superior performance and reliability with a must-have feature set.

- Features quick and easy top-access to filter cartridges
- Includes powerful pro remote control for manual navigation and feature selection
- Split brush technology for maneuverability and cleaning performance
- Large debris clean-up filters and fine porosity filter cartridges come standard

Item Number	Description
CCW08028	Dolphin Wave 80

Dolphin Wave 90i

Intelligent Technology, Optimized Performance

The Dolphin Wave 90i is a consistently connected robot featuring MyDolphin™ Plus app control. With dual-drive brushes, superior filtration, and side brushes, it covers every corner. Boasting strong suction and versatile debris collection, it fulfills all requirements for an ideal cleaner in HMAC pools. Elevate your pool standards with the Wave 90i – intelligent, potent, and crafted for superior cleanliness.

- Wi-Fi connectivity
- Easy access top load filter
- Powerful active scrubbing, for an unmatched clean
- Fine and Ultra-Fine filtration with interchangeable filters to tackle all levels of dirt and debris

Item Number	Description
CCW09028	Dolphin Wave 90i

Dolphin Wave 100

Ideal for mid-size commercial pools up to 88 feet long.

The Wave 100 is best suited for mid-sized pools in schools, health clubs, resorts, and water parks. This cleaner ensures complete pool coverage with floor, walls and waterline scrubbing plus superior filtration for all types of dirt and debris.

- Includes powerful pro remote control for manual navigation and feature selection
- Split brushes and drive motors for maneuverability and cleaning performance
- Multiple cycle choices with delayed start option
- Internal gyroscope ensures precise navigation over longer distances

DOLPHIN AUTOMATIC POOL CLEANERS & PARTS

Dolphin Wave 120

This heavy-duty robust performer does it all! It boasts double filtration and scrubbing power with adjustable pool parameters and choice of cycles. Filters 8,466 gallons per hour while scrubbing pool surfaces.

- Includes powerful pro remote control for manual navigation and feature selection
- Multiple cycle choices with delayed start option
- Internal gyroscope ensures precise navigation over longer distances

Item Number	Description
CCW12028	Dolphin Wave 120

Dolphin Wave 140

Designed for pools up to 127 feet, the Wave 140 is a perfect solution for large universities, health clubs, municipal pools, and resort pools, including those with beach entry. With a wide cleaning path of 22 inches and a top-access filter, the Wave 140 excels at floor scrubbing and heavy-duty dirt collection.

- CleverClean™ Technology paired with a unique gyroscope system delivers accurate and effective scanning for systematic cleaning
- Extra-wide for maximum efficiency
- Filter thousands of gallons of water per hour, improving water circulation, leaving the pool water polished and exceptionally clean

Item Number	Description
CCW14028	Dolphin Wave 140

Dolphin Wave 200 XL

The Dolphin Wave 200XL is the superior solution for large community, fitness or resort pools up to 127 feet. Ideal for heavy traffic pools, its heavy-duty scrubbing, and dirt collecting capabilities will ensure a spotless experience for every visitor, every time.

- Easy access top load filter
- Cycle Selector allows you to customize the cleaning cycle to fit your pool
- Fine and Ultra-Fine filtration with interchangeable filters to tackle all levels of dirt and debris

Item Number	Description
CCW20028	Dolphin Wave 200 XL

Dolphin Wave 300 XL

The Dolphin Wave 300 XL delivers unparalleled performance capabilities and a spotless clean every time. This highly durable robot is ideal for large institutional pools, Olympic facilities and water parks up to 165 feet.

- Easy access top load filter
- Customize the cleaning cycle to fit your pool
- Multi-layer filtration – patented integrated fine and ultra-fine filtration system for a spotless pool

VACUUM HOSES, VACUUM HEADS, & ACCESSORIES

Commercial Vacuum Hose

Our I-Helix Pool Vacuum Hose is recognized as the finest professional grade spiral wound vacuum hose in the industry. It is flexible, abrasion resistant and resistant to UV radiation. Our hose, with its unique I-beam construction, has revolutionized hose design and flexibility. The point of flex is protected from punctures and cuts by an abrasion-resistant outer shell 30 times harder than conventional hose, without sacrificing flexibility. Flow characteristics are unrestricted, even if the hose is tightly coiled. The smooth exterior assures maximum external resistance to abrasion and eliminates hang-ups as well, making for long life and easy maneuverability. Swivel cuff prevents twisting, kinking or tangling. Backed by a **five year warranty**, you can't go wrong choosing our I-Helix Vacuum Hose.

Item Number	Size	Ship Weight

Dually Heavy-Duty Professional Poles

Our Dually Heavy-Duty Professional Poles are made of the heaviest drawn aluminum tubing we offer. The Dually was created when we realized there was a demand to make a hybrid out of the 5000 series internal/external locking mechanisms. With this pole you can lock both external and internal locks for more locking power on jobs that demand the most. You also have the option to only use one of the locks for quicker and lighter jobs. These poles have larger drain holes for faster draining. These are three-piece poles with dual lock assemblies. Lock assemblies have replaceable parts when worn and are easily repaired.

Item Number	Description	Ships Via
CC901850	Three-Piece Dually Pole, 6'-18'	FedEx Ground
CC902499	Three-Piece Dually Pole Approx. * 8'-24'	FedEx Ground
CC961850	Three-Piece Dually Pole, 6-1/2'-18'	FedEx Ground

*This pole is trimmed by a few inches to allow it to ship at under 96"

Heavy-Duty SnapLite Poles

The SnapLite™ series is quickly becoming one of Skimlite's most popular poles. The lock is similar to what has been utilized as the primary locking mechanism in the painting industry for years. With a simple push of a button you can slide and lock your pole to your desired length. All Snaplite™ poles have a unique decagon shape to them which keeps the pole from rotating and provides ultra-smooth sliding. Skimlite's newest lock design that allows you to slide and lock the pole at your desired length with a simple push of a button.

Item Number	Description	Ships Via
CC631750	Three-Piece SnapLite Pole, 6'-17'	FedEx Ground

Carbonlite Poles

Made for extreme jobs and serious pool cleaning! The proprietary manufacturing process used for this Carbon Fiber pole warrants it as the strongest pole in the industry. When fully extended with heavy weight on the end this pole still has virtually no bend. This pole is ideal for anyone who uses heavy vac systems, or is looking for a stronger AND lighter pole than the industry standards. A pole made for the dedicated service professional who is willing to pay for the best.

Item Number	Description	Ships Via
CCCL81699	8'-16' telescoping carbon fiber pole	FedEx Ground

Fiberglass Poles by Rainbow/Pentair

E-Z Lock compression locks are manufactured to withstand abuse. Required for service pros in areas where protection from electrical shock is mandatory. UV protective coating helps prevent splintering with age.

Item Number	Description	Ships Via
CC8081604	8'-16' telescoping fiberglass pole	FedEx Oversize

LEAF SKIMMERS & RAKES

Economy Leaf Skimmer

Constructed of 3/8" solid anodized aluminum rod. Deep net is molded into ABS frame and snaps onto aluminum frame for easy replacement. Includes snap adapt handle for easy attachment to a standard pool pole.

Item Number	Description
CC12604	Economy Leaf Skimmer

Economy Leaf Rake

Designed to easily remove leaves and debris. Constructed of 3/8" solid anodized aluminum rod with heavy duty fiberglass screen. Screen and frame completely covered with squeegee for scraping fine, loose debris on bottom of pool. Includes snap adapt handle for easy attachment to a standard pool pole.

Item Number	Leaf Rake Bag Dimensions
CC12204	19" x 8" x 12"

Rainbow #185 Leaf Eater

Venturi action top skimmer or bottom cleaner. Works with a garden hose and standard telescopic pole or automatic pool cleaner hose. Collector bag slips on and off easily. Comes with brushes for vinyl liner pools and wheels for ease of turning on hard bottomed pools.

Item Number	Description
CC1104604	#185 Leaf Eater
CC2128603	Sand/Silt Fine Mesh Bag

Skimmi™ 300 Pro Solar-Powered Robotic Pool Skimmer

Experience effortless pool maintenance with the improved Skimmi 300 – the advanced yet user-friendly robotic pool skimmer. Place the Skimmi 300 in your pool, and let it handle the cleaning hassle-free, 24/7. The MyDolphin Skimmi mobile app, allows you to monitor and manage cleaning modes, temperature data, solar charging status and manual control, for a clean and crystal-clear pool water. The Skimmi 300 has a larger fine mesh basket and now features an off/switch and charge indicator light. The Skimmi 300 is designed to seek sunlight to maintain its charge but now features a charging port for wall-charging on cloudy days or in shaded areas.

Item Number	Description
CC9700328	Skimmi 300 Pro Solar-Powered Robotic Pool Skimmer

Durapro SS8 Leaf Rake

This patented design uses a pure original plated spring steel frame which won't rust, corrode or break under normal use. The net is adhered to the frame with Skimlite's patented method and has a protective vinyl tubing around the frame that can be replaced when worn. The square 8" SS8 comes with a replaceable leafing edge.

Item Number	Description
CCSS850	Durapro SS8 Leaf Rake

Maxi Series M-16 Leaf Rake

Pocket 'stays' keep the pocket open moving forward and closed coming back, allowing debris to enter and empty effortlessly. They also keep the net off of surfaces, protecting it from wear and tear. Newly designed leafing edge rotates to make leaves and debris glide into the 16" pocket. Leafing edge, net and protective tubing are replaceable. No sewn seams across the back. Sewn seams are at the sides, allowing the M-16 to flow with less resistance. Plated steel spring frame provides greater strength with less weight. It will not rust, corrode or break.

Item Number	Description
CCM1650	Maxi Series M-16 Leaf Rake

Pool Maintenance Brushes

All brushes this section feature nylon bristles and Kwik-fit handle bracket for easy pole attachment. Order pole separately.

Item Number	Description	Bristle Rows
CC400050	18" Straight	5
CC301050	18" Curved	4
CC402050	24" Straight	2
CC302050	24" Curved	5
CC303050	36" Curved	5

Algae Brushes

One piece design. All algae brushes are equipped with 1" stainless steel bristles and a Kwik-change handle bracket for easy pole attachment. Order pole separately.

Item Number	Description
CC501050	9" Straight
CC502050	12" Straight
CC503050	18" Straight
CC504050	18" Curved End

Acid Wash Brushes

Crimped nylon bristles are long lasting, impervious to most solvents and will not rot. Order handles separately.

Item Number	Description
CC960050	Dual Sided w/ Polypropylene Block and threaded handle hole
CC602350	10" x 3" Wooden Block with two tapered handle holes

Corner Cleaning Brush

Round shaped brush makes it easy to clean all those hard to scrub places. Designed for use with a pool pole, purchased separately.

Item Number	Description
CC650050	Corner Cleaning Brush

Combination Wall Brushes

These innovative wall brushes combine stainless steel and synthetic bristles. The result is a brush that is softer and easier to push than stainless steel brushes, yet longer lasting with better scrubbing action than synthetic bristle brushes. Each combination wall brush features an aluminum back with 5 rows of mixed stainless steel and synthetic bristles.

Item Number	Description
CC300450	18" Curved
CC302450	24" Curved

Wall Whale

Wall Whale makes wall scrubbing easier by working like a spoiler on a car. The tail creates more than 10 times the force against the pool surface. It holds the brush firmly against the pool surface anywhere you can make the brush move.

Item Number	Description
CCW302050	Wall Whale with Nylon Bristles - 24"
CCW303050	Wall Whale with Nylon Bristles - 36"

CLEANING SUPPLIES & EQUIPMENT

Boeshield T-9 Corrosion Shield and Waterproof Lubricant

This state-of-the-art formula applies thinly for maximum penetration, displacing moisture while attacking existing corrosion. It dries to a light, waxy film lubricating and protecting all metals for months. Excellent for deck equipment maintenance and swimming pool pump, filter, fittings and valve housing protection.

Item Number	Size
CCT100050	Gallon Liquid

Boeshield Rust Free

Rust Free is a heavy-duty rust and stain remover that works on stainless steel, iron, galvanized steel, chrome and fiberglass. Spray the affected area and allow to penetrate for 3 to 5 minutes, rinse with soapy water. For heavy rust, repeat using a Scotch-Brite pad.

Item Number	Size
CCT900G50	Gallon Liquid

Rust Rescue 200

Rust Rescue 200 is a high quality blend of chemicals formulated for the protection of stainless steel and other metal surfaces in conjunction with CitriSurf passivation, especially in environments where moisture and harsh atmospheric chemicals are expected to or have lead to corrosion.

Item Number	Description	Size
CCR120050	Rust Rescue 200	Gallon

Spectra Clean™ Systems

Although stainless steel is corrosion resistant, it may display rusting characteristics under certain conditions. Minimize the potential for corrosion with routine use of our Spectra-Clean System 1. Simply wipe down rail surfaces with ready-to-use Spectra-Clean and rinse with non-chlorinated water. For stubborn rust stains or heavy deposit build up, Spectra-Clean Systems 2 or 3 can bring back the original finish.

Item Number	Description
CC4790647	Spectra Clean System 1 – Daily Use (four 22 oz bottles)
CC4790547	Spectra Clean System 2 – Severe Use (one gallon)
CC4790447	Spectra Clean System 3 – Extreme Use (one gallon)

E-Z Clor Tile & Waterline Cleaner

This cleaner quickly removes dirt, grime, oils, grease, cosmetics, suntan lotions and scale commonly found on pool surfaces and accessories

Item Number	Description
AA5009698	E-Z Clor Tile & Waterline Cleaner

TLC®

TLC removes oil, grime, and mineral scale from common pool surfaces such as tile, vinyl, and concrete. Its thick, concentrated formula clings to upright surfaces longer for more effective cleaning power.

Item Number	Description
AA7102805	TLC Quart
AA7102805PK12	TLC Quart – case of 12

Clean and Prep Solution

Clean & Prep Solution is used to clean and degrease while simultaneously dissolving mineral deposits, increasing porosity for good adhesion on surfaces prior to painting. 1 gallon prepares approximately 400 sq ft of bare concrete, marcite, gunite and plaster surface or 700 sq ft of bare fiberglass and painted surface.

Item Number	Size
KK930655	Gallon

Ramuc Thinner

For Type A and EP paints.

Item Number	Description
KK0922155	Ramuc Thinner – Gallon

Surface Preparation Instructions

Surface preparation is extremely important. Whatever coating you use will adhere best to a solid and clean surface.

Inspect the surface condition of your empty pool. Repair minor cracks or chips and sand down all peeling or flaking areas. Follow this by power washing the entire surface to remove loose paint and other debris. Let it dry, then sweep away loose impediments.

Cleaning the surface:

Your pool surface must be completely clean and free of loose paint, dirt, oils, or solutions before you apply your new coating system. We recommend using **Ramuc's Clean & Prep Solution** for this process, which replaces the traditional three-step pool cleaning process with one step.

1. Power wash the entire pool surface using a **minimum** 3500 PSI power washer.
2. Once dry, sweep or use a blower to clear away any leftover paint chips or debris.
3. Use a garden sprayer to evenly apply **Ramuc's Clean & Prep Solution** to the entire surface, following the mixing instructions outlined on the label.
4. Scrub the solution, which will begin to foam and etch. Continue scrubbing until the foaming stops, paying extra attention to areas where heavy soil accumulates, such as the waterline and steps.
5. Flush the surface three times with a strong stream of clean water from a garden hose. **Do not flush using a power washer.** A power washer lacks the volume of water to effectively flush the surface. It is important that you remove all residual **Clean and Prep Solution**.

A clean, bare concrete or plaster surface that is ready for paint should have the texture of medium-grade sandpaper.

Let the surface dry!

The type of coating you will be using dictates how dry the surface must be before you begin. Acrylic paint can be applied to a damp surface, but epoxy must be applied to a completely dry surface. Check the instructions on your product label to determine dryness requirements.

1. Use painter's tape to affix 2'x2' sheets of clear plastic to three different areas of the pool:
 - The shallow end floor
 - The deep end floor
 - The shady side of the deep end wall
2. Wait 4-5 hours.
3. Check beneath the plastic for any signs of moisture from condensation.
4. If moisture is present, remove all three areas of plastic, let the surface dry another 24 hours, and repeat this test.

Application Tips

Start by painting with a brush on small or hard to reach areas such as drains, ladders, and filters. Then, using a 3/8" nap roller, begin painting the walls, then the deep end floor, and work toward the shallow end, exiting at the stairs or ladder.

Be sure to apply the paint according to the recommendations on the product label. Paint applied too thin, or too thick, may cause undesirable results.

Once painted, **you may be eager to re-fill your pool**, but allowing for adequate drying time is your last step in proper application. After waiting the recommended drying time specified on the product label, repeat the dryness test described previously. When no condensation is evident, fill the pool using a constant, steady stream of water.

RAMUC POOL COATINGS

Ramuc Specialty Aquatic Coatings

Ramuc products are formulated to be the most advanced aquatic installation and deck coatings in North America. Ramuc products are formulated to match your every pool painting need. They are self-priming, exceptionally durable and most are VOC compliant.

RAMUC EPOXY COATINGS

Type EP High Gloss Epoxy

Ramuc Type EP is a high solids, high gloss, epoxy pool paint formulated to provide a tile-like, abrasion resistant, durable, easy to clean film for the protection of concrete, plaster and fiberglass swimming pools, spas, reflecting pools, water park wave pools, and rivers. Type EP is compatible with other epoxy pool paints. Coverage is 175–200 sq. ft. per gallon on bare, sandblasted, or rough surfaces. 400–450 sq. ft. per gallon on recoats.

Eco-Choice Commercial Premium Semi-Gloss Natural Rubber

A premium quality natural rubber pool coating for painting new, sandblasted or older unpainted plaster-finish pools. Also for use on pools previously painted with rubber base coatings. The semigloss finish provides your pool with long-term protection from the damaging effects of extreme weather, constant submersion and all pool water treatment chemical usage. The semi-gloss finish provides an economical, attractive finish that is both desirable and budget-friendly. VOC-Compliant. Coverage: 350 sq. ft.

Deck-O-Seal Joint Filler

Polyurethane sealant for cracks and behind pool coping. Available in pre-mixed cartridges for vertical surfaces and 2-part pourable grade for horizontal surfaces. Colors: white, gray, or tan.

Item Number	Description
KK5309W98	11 oz. Cartridge, White
KK5309G98	11 oz. Cartridge, Gray
KK5309T98	11 oz. Cartridge, Tan
KK5310W98	96 oz. Kit (Pourable), White
KK5310G98	96 oz. Kit (Pourable), Gray
KK5310T98	96 oz. Kit (Pourable), Tan
KK5308898	Empty Applicator Bottle

Deck-O-Seal HS-1 SL Sealant

A one-part, self-leveling hybrid sealant, developed with silyl-modified polymer (SMP) technology. It cures under the influence of atmospheric moisture to form a medium modulus sealant with excellent adhesive properties and resistance to aging and weathering.

Item Number	Color
KK5319G98	Gray
KK5319T98	Tan

Deck-O-Seal 125

2-part pourable, self leveling sealing compound. For high traffic areas and submerged pool floor locations. 25% firmer than regular Deck-O-Seal. Colors: white, gray or tan.

Item Number	Description
KK5850W98	96 oz. Kit (Pourable), White
KK5850G98	96 oz. Kit (Pourable), Gray
KK5850T98	96 oz. Kit (Pourable), Tan

Deck-O-Shield Sealer

Deck-O-Shield is a ready to use, water-based sealer/water repellent for natural stone, concrete, and masonry surfaces. It is designed for use on waterfalls, as the product will limit the penetration of water into structurally sound, crack-free surfaces. The product can also be used on natural stone decks, walkways, coping stones, or patios.

Item Number	Description
KK5310098	1 Gallon
KK5315898	5 Gallon

Ramuc Epoxy Patching Compound

- User friendly packaging
- Extremely easy to use
- Zero waste

Epoxy Patching Compound is a two-part epoxy resin that does not sag, run, or shrink. Its thick formula allows it to fill large cavities in a single application. When cured, it remains flexible making it ideal for environments that require flex.

Item Number	Description
KK9223055	Epoxy Patching Compound, Cartridge

Ramuc PSL Nitrile Rubber Caulking Material

Ramuc PSL is a highly versatile nitrile rubber caulking material specifically engineered for use in demanding pool environments. It is particularly well-suited for sealing expansion joints around the perimeter of pools, where it accommodates the natural movement of pool structures due to temperature changes and water pressure, providing a durable, watertight seal.

Item Number	Description
KK9221055	PSL Nitrile Rubber Caulk, Cartridge

BOSS® 801 Pool & Spa Silicone Adhesive

- A one-part, low odor, non-corrosive, neutral cure adhesive and sealant
- It provides excellent adhesion to ceramic tile, spa jets, skimmers, lighting fixtures, plumbing and fiber optic lighting
- Adheres well to fiberglass, ABS, acrylic, PVC, wood and masonry

10.3 oz cartridge

Item Number	Color
KK0101B50	White

A+B Epoxy Putty

- Fill and repair cracks in plaster, concrete, fiberglass and acrylic.
- Repair cracks in skimmers, main drains and fittings.

Two part hand moldable epoxy putty cures in 40-60 minutes to a variety of colors. Craftsman quality formulation smooths and feathers nicely underwater without excessive clouding, making A+B Putty the perfect choice where appearance is important. 14 oz. kit.

Item Number	Description
KK9904K50	14 oz. Kit, White

Leakmaster Pool Repair Putty

Hand-moldable epoxy putty in a convenient "one-stick" format hardens above or below the water to a white color. Aggressive adhesiveness and a fast, 20-60 minute cure time make Leakmaster Pool Repair Putty the logical choice for a multitude of cosmetic repairs.

Item Number	Description
KKPP70150	4 oz. Stick

AQUATIC MATTING & FLOOR TILES

Sikagard Aquatic Matting

Applications:

- Pool and Spa Decks
- Locker Rooms
- Restrooms
- Concession Areas
- Waterpark Bridges, Steps and Walkways

Aquatic facilities present unique challenges to facility operators. Traditional pool decks often utilize tile or concrete flooring that can withstand wet conditions and be cleaned easily. Unfortunately, when wet, these surfaces often become very slippery and dangerous. Sikagard slip-resistant aquatic flooring and pool deck matting addresses these concerns and provides a safe, slip-resistant surface for pools and other aquatic areas.

It is a leading wet area flooring used by pool operators throughout the country and used extensively by USA Swimming, the National Governing Body for the sport of swimming in the United States, at its events.

Sikagard wet area flooring is specifically designed to combat against slips and falls around pools, decks and patios, the soft textured surface provides both stability and comfort while the permeable, vinyl mesh mat design drains quickly and eliminates puddling.

For aggressive applications that involve standing or flowing water or for underwater applications, Surebond 190 adhesive is recommended. One 36" x 25' piece of Sikagard Matting requires 6 tubes of adhesive.

Approximate Thickness:

- Lightweight – ¼"
- High Traffic – ⅜"

Dri-Dek Floor System

Dri-Dek is a multipurpose safety surfacing material that is specially formulated from flame resistant polyvinyl chloride. Contains OXY-BI, an EPA approved fungicide for fighting mold, mildew, and bacteria. UV stabilizers. Dri-Dek will not burn, rot, splinter, flake, soil, discolor, tear or unravel in hot or cold, humid or arid climates.

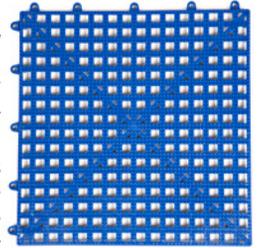

This modular system is comprised of 12" x 12" x ⅝" tiles or 3' x 12' rolls with anti-skid surface. The tiles lock together to form a portable surface of any length, width, or shape. The roll is a solid piece that may also be connected with other rolls or tiles. You can add, subtract, rearrange, or relocate all or part of your surface to fit anywhere, at anytime.

Dri-Dek is ideal for use around pools, walkways, locker rooms, showers, saunas, spas, weight rooms... virtually anywhere that safety is as important as comfort.

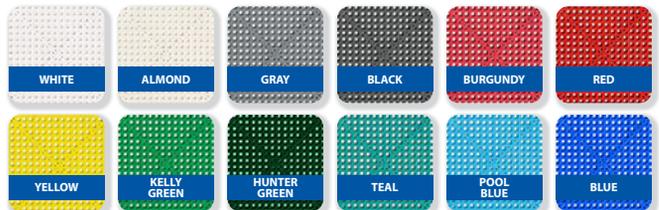

The Edge Piece is 12" x 2" and snaps to the tile to provide a smooth access ramp.

The Corner Piece is 2" x 2" and fits between the adjacent edges to complete the border.

Minimum order: 12 tiles. Typically ships within 1 business day.

Heronrib

Heronrib is the ultimate sports and leisure matting system for use in wet areas where barefoot traffic is extensive. Exceptionally warm and comfortable to stand on, Heronrib has a specially embossed slip-resistant surface and contains SteriTouch additives to prevent fungal and microbial growth. Made from strong, non-porous PVC sections with channeled underbars, Heronrib will automatically self-drain even the largest amounts of water. It is therefore not only perfect for preventing a splash, but also for making a splash of color around swimming pools, saunas, and spas using one or more of Heronrib's eye-catching colors. ***Mulberry Red not colorfast in direct sunlight.**

Features

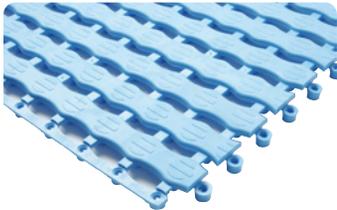

- UV Resistance
- Effective inside and out
- Barefoot comfort & safety
- Loose lay open grid vinyl construction
- Anti-bacterial and anti-fungal additives
- Certified slip resistance DIN 51097 Classification C

Item Number	Description
LLK2X3350	2' x 33'
LLK3X3350	3' x 33'
LLK4X3350	4' x 33'
LLEDGE2BK	Low Profile Edging Roll 2' x 33' (2 rolls), Black

LLSTLP50	Joining Strip, 2-Part Snap Track 8'-2" length
LLCCDP50	Connector Clips Dual Purpose, Pack of 10

Herontile

The Herontile system has a simple click together joining mechanism designed to cover large floor areas seamlessly and easily. Tested under DIN 51097 for slip resistance, it also contains SteriTouch additives to prevent fungal and microbial growth. Herontile is made from an Ethylene Vinyl Acetate (EVA) composition to guarantee softness and comfort. It also has a circular surface embossing for enhanced slip resistance and stands 15mm high on strong support legs so that water disperses well underneath. Four bright, stable, and appealing color options are complementary to interior schemes.

Features

- UV Resistance
- Effective inside and out
- Open grid roll format
- Cushioned surface – lightweight construction
- Economical alternative
- Certified high slip resistance DIN 51130 R11

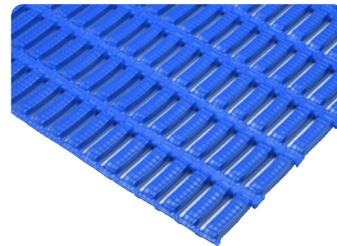

Item Number	Description
LLHRT2750	13" x 13" x 5/8" (27 tiles per box)
LLEDGE3BL	Snap-on Edge (ramping) 13" x 2-3/4" x 5/8", Ocean Blue
LLEDGE3GY	Snap-on Edge (ramping) 13" x 2-3/4" x 5/8", Dark Gray

Floorline

Floorline provides an economical alternative for lighter duty applications where slip resistance is required outdoors or in. The matting's slip-resistant surface allows effective safety underfoot in light-traffic changing areas and swimming pool surrounds and is resistant to UV degradation. Supplied in roll format, Floorline is loose laid and a great formula that not only enhances, but provides a safer and cooler footing. ***Red not colorfast in direct sunlight.**

Features

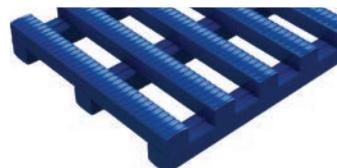

- UV Resistance
- Effective inside and out
- Open grid roll format
- Cushioned surface – lightweight construction
- Economical alternative
- Certified high slip resistance DIN 51130 R11

Heron Walk

Heron Walk works in any environment with a sloped barefoot walkway, from waterpark rides and wave machines to beaches and hydrotherapy pools. This self-draining mat makes these spaces accessible for both wheelchair users and pedestrians, with cross-directional top ribs for extra traction and an embossed surface for comfort underfoot. Its one-piece construction means Heron Walk is easy to clean and maintain, and can be quickly rolled out where needed or cut to fit on site. Its two-tier construction provides a thermal barrier by elevating bare feet off of hot surfaces.

Features

- UV Resistance
- Effective inside and out
- Barefoot comfort & safety
- Loose lay open grid vinyl construction
- Anti-bacterial and anti-fungal additives
- Certified slip resistance DIN 51097 Classification C

DALDORADO

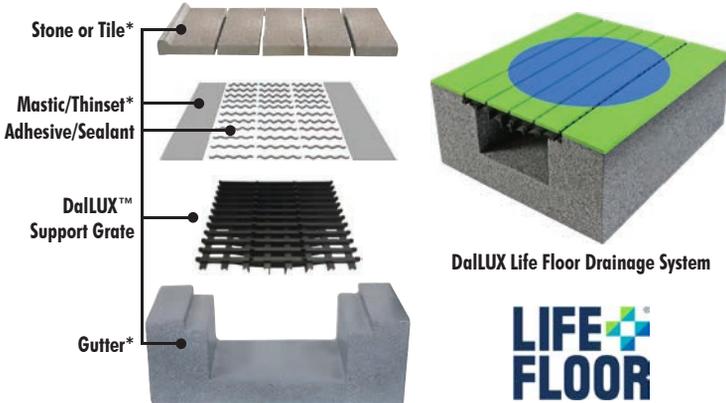

Daldorado DalLUX™ Stone & Tile Support System

Stone and tile add natural beauty and timeless elegance and is prized for its strength and durability. With the Daldorado DalLUX Stone and Tile Support Grate System, designers can take their decking to the next level by bringing the deck to the water's edge for superior aesthetics and functionality. Grate color: black. **10 Year Warranty.**

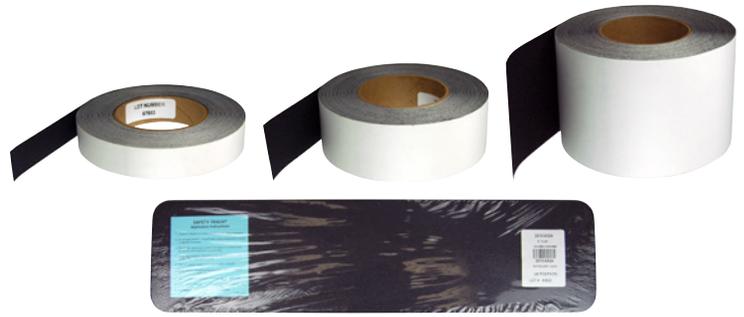

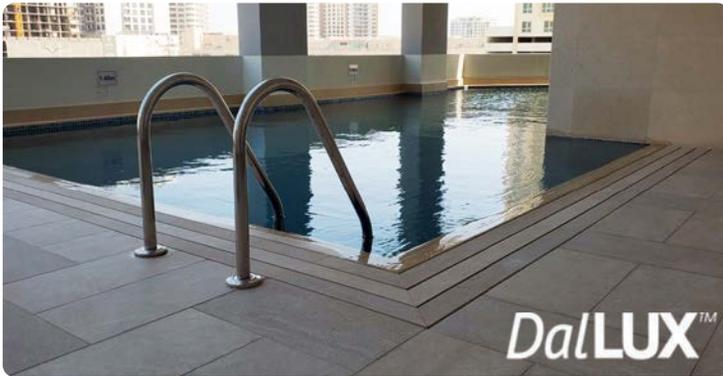

Features:

- 12" x 12" grates w/ mitered corners and 2" supports
- Stone and tile are cut to size and adhered by a qualified tile installer to the flat surfaces of the support grate — they are also held in place horizontally by spacer lugs
- Adhesive supplied
- Slot openings per IBC finger/toe entrapment guidelines max (8 mm openings)
- Two parallel water fall-in options – either 4 slots or 5 for both tile & stone that feature 8 mm openings
- Material selection for slip resistance qualities and colors specified by design professional
- Design engineered load capacity at over 5,000 lbs
- Available DalLUX™ Life Floor Drainage System is the perfect combination of the drainage support system and Life Floor foam-rubber flooring - promotes drainage while providing traction and cushion to protect against falls

*Not included with DalLUX Support System

Safety Track® Resilient

This rubberized, textured non-slip tape was designed for heavy shoe traffic, yet is comfortable enough for bare feet. Coated with an aggressive adhesive designed with industrial and commercial applications in mind, this product is easily cleaned and mop-friendly. The best choice for swimming pool areas.

Item Number	Description	Color	Rolls per Case
KK5100150	1" x 60' roll	Black	12
KK5100250	2" x 60' roll	Black	6
KK5100450	4" x 60' roll	Black	3
KK5162450	6" x 24', 50 pieces	Black	N/A

Safety Track

Safety Track is a durable adhesive-backed grit surface which provides long-lasting protection even when exposed to heavy traffic, water, or grease. Safety Track can be used indoors or outdoors. It is easily installed in seconds to most clean, dry, oil-free surfaces, including metal, primed concrete, and wood. Just peel off the paper backing and press in place. Excellent for recreational areas, stairways and hazardous floor areas. Standard stock Safety Track is black and available in four convenient sizes to accommodate hundreds of applications. Contact us for a price quote on alternate sizes and colors.

Lumiso Pooltest Expert

Lumiso Pooltest Expert is a multi-parameter bench top photometer designed as an all-round solution for pool and spa water testing needs. From pool managers through to professional engineers, this photometer is suitable for testing multiple times daily, quickly and accurately across key and troubleshooting parameters.

- Large, Touchscreen Interface with easy-to-follow on-screen instructions meaning minimal training
- Cloud Connectivity: Upload via USB or QR to store results, set limits, and trigger compliance alerts
- Rugged Durable Design: IP67-rated construction for use in any environment, even with wet hand
- Over 30 tests included for routine monitoring and troubleshooting, delivering fast and accurate results
- Precision Optics: Advanced LED and detector ensures reliable, repeatable results

Lumiso Pooltest 9

The Lumiso Pooltest 9 is the perfect solution for monitoring water quality in leisure centres and municipal swimming pools. It includes all the essential chemical parameter tests required for accurate water balance calculations along with key troubleshooting parameters, adding copper, iron, and phosphate tests. Kit includes hard case, 5 test tubes, 10 of each test (8 phosphate), 4 crushing rods, test tube brush, lint-free cloth, 10 mL syringe, and USB lead. NSF Certified.

Test Ranges:

- Free/Total Chlorine: 0 to 10 ppm
- Bromine: 0 to 20 ppm
- Alkalinity: 10 to 500 ppm
- Calcium Hardness: 10 - 500 ppm
- Cyanuric Acid: 2 - 150 ppm
- pH: 6.5 to 8.4
- Iron MR: 0 to 5 ppm
- Copper: 0 to 5 ppm

Taylor 2000™ Series

Maintaining safe pool/spa water for the public is an important responsibility. Therefore, precise test results are essential when checking the water quality of commercial pools and spas. Taylor's 2000 Series is designed for the kind of comprehensive, routine testing performed by service technicians, public and semi-public pool operators, and other professionals. Taylor's 2000 Series uses printed color standards to achieve a reliable and accurate color match, making frequent test comparisons even easier.

† NSF Certified

2000 Series kits in this column feature six different chlorine (High Range: 1–10 ppm, Low Range: 0.25–2.5 ppm), bromine (HR: 2–20 ppm, LR: .5–5 ppm) and pH (7.0–8.0) standards.

Some kits are now available with an optional salt test (1 drop = 200 ppm)

Complete™ Test Kit

The Complete kit includes nine tests for thorough testing: Total Chlorine, Free Chlorine, Bromine, pH, Acid Demand, Base Demand, Total Alkalinity, Calcium Hardness, and Cyanuric Acid. Includes ¾ oz reagent bottles.

Item Number	Description
BB200501	K-2005 High Range†
BB2005SP	K-2005 High Range, Spanish†
BB2005SA	K-2005 High Range, plus salt test
BB210501	K-2105 Low Range

Service Complete™ Test Kit

This kit includes the same tests as the Taylor Complete Test Kit, but with **2 oz** reagent bottles, providing 150% more tests than the Taylor Complete.

Item Number	Description
BB2005C01	K-2005C High Range†
BB2005CSP	K-2005C High Range, Spanish†

Complete FAS-DPD Test Kit

Same as **BB200501** except: uses **BP905801** comparator, the sanitizer tests are titrations to eliminate color matching problems, and Free & Combined Chlorine 1 drop = 0.2 or 0.5 ppm/Bromine 1 drop = 0.5 or 1.25 ppm.

Taylor Complete comes with ¾ oz reagents. Taylor Service Complete is furnished with **2 oz** reagent bottles and comes with a larger carrying case.

Item Number	Description	Kit Type
BB200601	K-2006 Complete FAS-DPD Kit†	Chlorine
BB2006SP	K-2006 Complete FAS-DPD Kit, Spanish†	Chlorine
BB2006SA	K-2006 Complete FAS-DPD Kit + salt test†	Chlorine
BB210601	K-2106 Complete FAS-DPD Kit	Bromine
BB2006C01	K-2006C Service Complete FAS-DPD Kit†	Chlorine
BB2006CSA	K-2006C Service Complete FAS-DPD Kit + salt test†	Chlorine

Starter™ Test Kit (DPD)

The Starter kit features six tests: Total Chlorine, Free Chlorine, Bromine, pH, Acid Demand and Base Demand. It may be upgraded to include all tests in the Complete kits by adding replacement packs. Please call for details. Starter kits include ¾ oz reagent bottles.

Item Number	Description
BB200001	K-2000 High Range†

Pool Inspector™ Test Kits

Test kits designed for use by Environmental Health Professionals. The FAS-DPD version will permit detection of combined chlorine as low as 0.2 ppm and includes tests free and combined chlorine, pH, and cyanuric acid. The DPD version is available with .75 oz. reagents or the larger 2 oz. reagents and includes tests free & total chlorine, total bromine, pH, and cyanuric acid. These kits include four additional bottles of cyanuric acid reagent to accommodate high-volume testing needs.

Item Number	Description
BB200701	K-2007 High Range DPD Kit†
BB2007C01	K-2007C Complete High Range DPD Kit†

BP905601	High Range (Chlorine 1 to 10, Bromine 2 to 20, pH 7.0 to 8.0)
BP905701	Low Range (Chlorine 0.25 to 2.5, Bromine .5 to 5, pH 7.0 to 8.0)
BP905801	FAS-DPD
BP303001	Dual Cap for Comparator

Taylor Test Kit Accessories

#6190 SampleSizer

#6191 SampleSizer

Taylor SampleSizer®

Using Taylor's SampleSizer, you won't need to flick off the excess water to get the meniscus to rest precisely on the fill line. Simply lower a SampleSizer into the water to be tested. It will displace exactly the right amount to leave the correct volume to perform the test. Use **BP619001** with Taylor's #9198 sample tube or Taylor 2000 Series comparators for 10 mL or 25 mL measurements. Use **BP619101** with Taylor's 2000 Series comparators for 44 mL measurements.

Item Number	Description
BP619001	#6190 SampleSizer 10 mL/25 mL
BP619101	#6191 SampleSizer 44 mL

Taylor SpeedStir®

Taylor's #9265 SpeedStir makes quick work of drop tests performed in Taylor's #9198 sample tube. This palm size, portable magnetic stirrer will thoroughly incorporate each addition of reagent in a fraction of a second. Includes sample tube, magnetic stirring bar, and four AA batteries.

ColorQ 2x PRO 7 Test Kits

No color matching, no look up charts, no guessing! The unique, multi-test ColorQ 2x pool and spa hand-held photometer reads SEVEN primary test factors (Free Chlorine, Total Chlorine, Bromine, pH, Alkalinity, Calcium Hardness, and Cyanuric Acid) directly on a digital display. Featuring an innovative dual-optic design with wider path-length, the ColorQ provides reliable field results, eliminating the need to visually determine slight color variations.

The **ColorQ 2x PRO 7** kit uses TesTabs® tablet reagents for both the Calcium Hardness and Cyanuric Acid tests. All other tests are performed using liquid reagents.

The **ColorQ 2x TesTabs PRO 7** uses no liquid reagents. It uses LaMotte TesTabs for all tests.

Test results are sent directly to phone app.

Item Number	Description
BB208602	ColorQ 2x PRO 7
BB208702	ColorQ 2x TesTabs PRO 7

ColorQ 2x Pool 4 Test Kit

This unique, multi-test pool and spa hand-held photometer has the same features as the ColorQ 2x PRO 7 except it reads four test factors directly on a digital display - **Free Chlorine, Total Chlorine, Bromine, pH**. If desired, instrument grade reagents (sold separately) may be added to the kit to measure other total alkalinity, hardness and cyanuric acid. The **ColorQ Pool 4** kit uses liquid reagents.

Test results are sent directly to phone app.

Item Number	Description
BB208502	ColorQ 2x PRO 4

ColorQ 2x PRO 7-PLUS

The ColorQ 2x PRO 7-PLUS handheld professional pool photometer directly measures the seven primary tests of Free Chlorine (DPD), Total Chlorine (DPD), Bromine (DPD), pH, Alkalinity, Calcium Hardness, and Cyanuric Acid directly on a digital display. The Cyanuric Acid test is measured by using one TestTabs tablet per test with 100 tablets included with the kit.

The ColorQ 2x PRO 7-PLUS, Pool Manager Handbook, Saturation Index Calculator, testing reagents, and trilingual instructions are packaged in a rugged carrying.

Reagent refill pack also includes 6 fresh test tubes.

Item Number	Description
BB209402	ColorQ 2x PRO 7-PLUS

ColorQ 2x PRO 9-PLUS

The photometer directly measures nine tests on a digital display: Free Chlorine (DPD), Total Chlorine (DPD), Bromine (DPD), pH, Alkalinity, Calcium Hardness, Cyanuric Acid, Copper and Iron. The Cyanuric Acid, Copper and Iron test are measured by using one TesTabs® tablet per test with 100 tablets included with the kit. The photometer included with the ColorQ 2x PRO 9-PLUS can also test Biguanide and Biguanide Shock with optional reagents (sold separately).

The ColorQ 2x PRO 9-PLUS, Pool Manager Handbook, Saturation Index Calculator, trilingual instructions (English, Spanish, French) and reagents are packaged in a rugged carrying case. Reagent refill pack also includes 10 fresh test tubes.

Item Number	Description
BB209702	ColorQ 2x PRO 9-PLUS

Pool Manager Test Kit

The popular all-tablet combination kit with the Octa-Slide color bars, which feature 8 translucent color standards for chlorine and pH. Public pool service personnel can test for these key factors of pool water chemistry: free chlorine, total chlorine, pH, total alkalinity, calcium hardness, acid demand, and cyanuric acid.

Item Number	Range
BB336802	Chlorine 0.2-3.0
BB3368N02	Chlorine 0.5-10.0

WaterLink Spin Touch w/ Carrying Case

LaMotte Mobile

WaterLink® Spin Touch™

Certified to NSF/ANSI Standard 50.

The innovative WaterLink Spin Touch photometer does all your pool and spa water testing for you. Each sealed reagent disk contains the precise amount of reagent needed to run a complete series of tests. Just fill one unique Spin reagent disk with less than 3 mL of water and all your vital tests are done automatically. In just 30 or 60 seconds all the test results are transferred into the DataMate® software and analyzed to display results and recommend precise treatment instructions. Stand-alone or cloud ready. No computer, smartphone or tablet necessary. Can communicate through Bluetooth® or USB. Rugged and portable with an innovative water-resistant housing and internal, rechargeable batteries. Fully compatible with DataMate 10 and DataMate Web (software purchased separately).

Test Factor	Range
Free Chlorine	0-15.0 ppm
Total Chlorine	0-15.0 ppm
Bromine	0-33.0 ppm
pH	6.3-8.6
Calcium Hardness	0-1200 ppm
Total Alkalinity	0-250 ppm
Cyanuric Acid	5-150 ppm
Copper	0-3.0 ppm
Iron	0-3.0 ppm
Phosphate (BB4329H02 only)	0-1500 ppb

WaterLink Spin Touch includes photometer, instruction manual, quick-start instructions, 3 syringes, calibration check disk, troubleshooting disk, and USB cable/wall adapter.

Mobile WaterLink Spin Touch also includes a durable, waterproof carrying case with foam inserts that holds the meter, disks and accessories.

Mobile Commercial WaterLink Spin Touch includes an upright waterproof carrying case with foam inserts that is ideal for 3-use disk users.

Disks are compatible with Spin Touch and Spin Lab.

LaMotte Insta-Test Strips

Insta-Test strips provide the complete picture of a pool or spa's water quality faster than ever before. Insta-Test Strips test for:

- Free Chlorine: 0-10 ppm
- Bromine: 0-20 ppm
- Total Chlorine: 0-10 ppm
- Alkalinity: 0-240 ppm
- pH: 6.2-9.0
- Total Hardness: 50-800 ppm
- Cyanuric Acid: 0-250 ppm (Insta-Test 6 Plus only)

Simply dip the strip, swirl three times and the results from all five tests are ready instantly! Insta-Test Strips are designed for use by pool and spa operators who wish to assess their total water quality. One bottle contains 50 strips.

Item Number	Description
BB297702	Bottle of 50 Insta-Test 5 Test Strips
BB302802	Bottle of 50 Insta-Test 6 Plus Test Strips

NATURAL CHEMISTRY SPECIALTY PRODUCTS

Pro Series® phosRemove™

Reducing phosphate levels in swimming pools is easy with Natural Chemistry's PRO SERIES phosREMOVE. This product is a lanthanum based formulation. PRO SERIES phosREMOVE effectively and efficiently removes phosphates and reduces pool problems!

Item Number	Description
AA2050061	phosREMOVE 32 oz
AA2050061PK12	phosREMOVE 32 oz – case of 12
AA2050161	phosREMOVE Gallon
AA2050161PK4	phosREMOVE Gallon – case of 4

Pro Series Pro Blend® Enzyme & Phosphate Remover

Regular pool maintenance is easy with PRO SERIES Pro Blend. The outstanding benefits of our SMARTZyme™ technology are combined with our industry leading phosphate removal technology. Experience superior water quality with less work.

- SMARTZyme technology breaks down filter clogging grime and grunge
- Continually removes phosphates
- Reduces overall pool maintenance

Item Number	Description
AA2052061	Pro Blend Gallon
AA2052061PK4	Pro Blend Gallon – case of 4

Pro Series ProZyme® Pool

50% stronger than Pool Perfect, this concentrated formula (formerly known as Pool Perfect Commercial AF), is specifically for commercial and institutional pool water environments.

Item Number	Description
AA2030161	ProZyme Pool Gallon
AA2030161PK4	ProZyme Pool Gallon – case of 4
AA2030561	ProZyme Pool Five Gallon

Safety first!

RecSupply keeps a full online library of product resources to help to keep your facility safe and hazard-free.

Visit us today at RecSupply.com to view Safety Data Sheets (SDS), chemical dosage instructions, and more.

PHOSfree MAX

PHOSfree Max is a powerful and reliable phosphate remover designed for both residential and commercial pool use. It removes high levels of problem-causing phosphates from swimming pool water. Keeping phosphate levels low will help reduce pool problems, including calcium phosphate scale as well as time and effort spent to maintain perfect water. Pour it in and watch it work! PHOSfree Max reduces phosphate levels to near zero in just 24 hours.

Item Number	Description
AA1530361	PHOSfree MAX Quart
AA1530361PK6	PHOSfree MAX Quart – case of 6

Pool Perfect®

Pool Perfect's enzymes break down suntan oils, sunscreens, cosmetics, body oils and other forms of waste that contaminate pool water. As a result, pool water stays crystal clear, sweet smelling and silky soft. Pool surfaces such as walls and waterlines never need scrubbing and skin and eye irritations are eliminated.

Item Number	Description
AA0312161	Pool Perfect 3 Liter
AA0312161PK4	Pool Perfect 3 Liter – case of 4

Pool Perfect MAX with PHOSfree®

Take pool maintenance to the next level! Pool Perfect Max is Natural Chemistry's premier maintenance formulation. Added weekly, this product reduces the amount of time and effort you have to spend on pool care. Its key benefits include: working as a continuous filter cleaner, removing maintenance levels of problem-causing phosphates, reducing scrubbing of scum lines and waterline ring-polishing water to sparkle like never before. Simply add one capful per 10,000 gallons of pool water each week so you can sit back and relax poolside!

Item Number	Description
AA1530161	Pool Perfect MAX with PHOSfree 3 Liter
AA1530161PK4	Pool Perfect MAX with PHOSfree 3 Liter – case of 6

Spa Perfect

Special hot-water enzyme formula breaks down organic contaminants commonly found in spas including lotions, soaps, body oils and cosmetics.

Item Number	Description
AA0413161	Spa Perfect 1 Liter
AA0413161PK12	Spa Perfect 1 Liter – case of 12

Pro Series Stain and Scale Control™

PRO SERIES Stain & Scale Control protects pools from the damaging effects of scale buildup and staining due to excessive calcium, iron, copper and other minerals. It works without the use of phosphates or harsh acids. This product also works very well at preventing/reducing scale from forming on chlorine generator cells and UV crystal lens in order to help maintain optimum performance. PRO SERIES Stain & Scale Control can be used with most sanitizing systems (do not use with biguanides) and is compatible with all pool surfaces.

Item Number	Description
AA2070161	Pro Series Stain and Scale Control Gallon
AA2070161PK4	Pro Series Stain and Scale Control Gallon – case of 4

Algae Break 90®

To control algae in your swimming pool, simply add Algae Break 90 every three months. Your pool will sparkle like never before. Keep algae at bay with Algae Break 90.

Item Number	Description
AA1760061	Algae Break 90 Quart
AA1760061PK12	Algae Break 90 Quart – case of 12

Pool First Aid™

Pool First Aid contains powerful and concentrated enzymes and an organic clarifier that is ideal for cleaning up problems in pools such as dead algae, high organics due to high bather load, oil leaks and spills, and vandalism. The organic clarifier in Pool First Aid clears cloudy water quickly.

Item Number	Description
AA0312261	Pool First Aid 2 Liter
AA0312261PK6	Pool First Aid 2 Liter – case of 6

Pro Series Dual-Action Algaecide™

PRO SERIES® Dual-Action Algaecide is a highly effective fast acting swimming pool algae destroyer. This product kills all types of pool algae: black algae, green algae, and mustard algae. This product is effective and non-staining when used as directed. When used as directed you will see results in 24 hours. PRO SERIES Dual-Action Algaecide is non-foaming and can be used in pools with attached spas or jetted returns.

Item Number	Description
AA2060561	Dual-Action Algaecide Gallon
AA2060561PK4	Dual-Action Algaecide – case of 4

Chitosan Clarifier™

SeaKlear Chitosan Clarifier is ideal for preventing common cloudiness. It effectively clears away dirt and oil with a simple dose, and leaves your pool water clean, clear and sparkling.

Item Number	Description
AA1012276	Chitosan Clarifier Gallon
AA1012276PK4	Chitosan Clarifier Gallon – case of 4

Instant Conditioner® Liquid Cyanuric

Natural Chemistry's Instant Conditioner is a unique technology that dissolves instantly and starts working immediately to protect chlorine from sunlight. It is pH friendly due to being a salt, not an acid. It reduces pool down-time and will not damage pool surfaces or equipment. No more waiting for dry cyanuric acid to dissolve! One gallon of Natural Chemistry's Instant Conditioner adds 3.5 ppm of conditioner per 10,000 gallons. It is compatible with all pool types and sanitizing systems.

Item Number	Description
AA0740161	Instant Conditioner Gallon
AA0740161PK4	Instant Conditioner Gallon – case of 4

Phosphate Remover™ Commercial Strength

SeaKlear's most powerful phosphate removal treatment. Removes 9,000 pb pH in a single dose in 10,000 gallons, making it the optimal solution for commercial pools, for service professionals, and to combat extreme phosphate problems.

Item Number	Description
AA4010176	Commercial Strength Phosphate Remover Gallon
AA4010176PK4	Commercial Strength Phosphate Remover Gallon – case of 4

E-Z Clor Natural Pool Enzyme

Natural enzymes that help prevent issues and keep water clean and clear by breaking down contaminants. Routine application of this product will increase chemical efficiency and improve water clarity. Also treats whitefly and insect residues.

Item Number	Description
AA5009898	Natural Pool Enzyme Quart
AA5027098	Natural Pool Enzyme Gallon

E-Z Clor Super Phosphate Remover

Our Super Phosphate Remover is the most concentrated phosphate remover available. Just one quart of Super Phosphate Remover removes up to 9,000 ppb in 10,000 gallons of water. It also improves the performance of your salt chlorine generator.

Item Number	Description
AA5009198	Super Phosphate Remover Quart
AA5023098	Super Phosphate Remover Gallon

E-Z Clor No Phos Metal Magnet

A multi-purpose sequestering product formulated to remove and prevent metal stains and scale without contributing to a phosphate level. Ideal for new plaster start-ups, this product's unique formulation and performance capabilities controls plaster dust. Use routinely to stop new stains and scale build up from forming.

Item Number	Description
AA5021198	No Phos Metal Magnet Quart
AA5021298	No Phos Metal Magnet Gallon

E-Z Clor 3-Month Algaecide

3-Month Algaecide adds an extra layer of pool protection, while creating a more pleasant swimming environment. E-Z Clor Algaecides safeguard your pool, preventing and killing all types of algae. This algaecide lasts for 90 days, allowing you to treat your pool quarterly.

Item Number	Description
AA5006198	3-Month Algaecide Quart
AA5006298	3-Month Algaecide Gallon

LO-CHLOR SPECIALTY CHEMICALS & MORE

Miraclear® Blue

- Polymer-based clarifier
- Boosts filter efficiency
- Excellent weekly treatment
- 20% stronger than competitive products
- Combines suspended particles for improved filtration
- 1 oz treats 6,000 gallons

Item Number	Description
AA8023237	Miraclear Blue Clarifier Quart
AA8022837	Miraclear Blue Clarifier Gallon

90-Day Algicide

- Kills and prevents all types of algae
- Organo-copper complex is safe for all pool surfaces
- Lasts 90 days/only 4 treatments per year
- Guaranteed non-staining formula
- Money-saving reduction in chlorine & shock usage
- Enhances performance of salt chlorine generators
- Best value of all algicide formulations
- 16 oz treats 10,000 gallons

Item Number	Description
AA8003237	90-Day Pool Algicide Quart
AA8002837	90-Day Pool Algicide Gallon

Lo-Phos® Max

- Concentrated formula removes phosphates quickly
- Reduces chlorine demand and costs
- Increases efficiency of salt chlorine generators
- Compatible with all pool chemicals and pool surfaces
- One quart can remove up to 7,500 ppb phosphates from water

Item Number	Description
AA8013237	Lo-Phos Max Phosphate Remover Quart
AA8012837	Lo-Phos Max Phosphate Remover Gallon

Metal Gone

- Prevents staining and scaling in pools and spas
- Keeps metals in solution and off the pool surface
- Use weekly as "insurance" against staining & scaling
- Works with all pool finishes and surfaces
- Compatible with salt chlorine generators
- Initial treatment: 16 oz per 7,500 gallons
- Maintenance treatment: 2 oz per 7,500 gallons

Item Number	Description
AA8033237	Metal Gone Quart

Ultra Zyme Pro®

- Reduces maintenance time
- Reduces chlorine demand by up to 30%
- Eliminates scum lines
- Improves water clarity
- Extends filter cycles
- Reduces acid demand
- Improves water balance
- Safe, non-toxic, biodegradable
- Compatible with chlorine generators

Item Number	Description
AA8053237	Ultra Zyme Pro Commercial Strength Enzyme Quart
AA8052837	Ultra Zyme Pro Commercial Strength Enzyme Gallon

Knockdown® Flocculant

- High performance non-alum flocculant
- Contaminants drop to pool bottom for easy vacuuming
- Cleans and clears pool water –contains a clarifier
- Effective over a wide pH range
- Use with all sanitizer types
- Won't affect water balance
- Use 8 to 10 oz per 10,000 gallons

Item Number	Description
AA8063237	Knockdown® Flocculant Quart

Chlor-Nix® Chlorine Reducer

- Lowers chlorine and bromine levels
- Fast acting
- Perfect for reducing chlorine shock
- Ideal for use with Multi-Stain Remover
- Works with salt systems

Item Number	Description
AA8042837	Chlor-Nix Chlorine Reducer Gallon

Filter & Tile Cleaner

- Super non-acidic cleaner
- Quickly degrease cartridge filters and DE grids
- Cleans tile line easily without affecting chemistry
- Great on BBQ grills, patio furniture, tubs & sinks
- Use full strength; no mixing or pouring
- Convenient quart bottle with spray nozzle

Item Number	Description
AA8073237	Filter & Tile Cleaner Quart Spray

LIQUID POOL COVER

INSECT CONTROL

Heatsavr™ Liquid Pool Cover

Heatsavr liquid solar pool cover is completely safe for swimmers and pool equipment. Using a continuous dosing system ensures the best results. Use the US115 seven-day programmable metering system to dispense Heatsavr to your pool. Recommended dosage: 1 oz/day for every 400 sq ft pool surface area or 15,000 gallons.

Item Number	Description
AAHS56050	Heatsavr Gallon – case of 4
IHS11550	Automatic Metering System

Phoenix De-Bug

De-Bug prevents unwanted floating and diving insects from gathering on swimming pool water surface. This special formula reduces water surface tension allowing bugs and other debris to drip to the pool bottom. Materials on the pool bottom can then be easily vacuumed away. Quart bottle.

Item Number	Description
AADEBUG50	De-Bug Quart

GLB SPECIALTY POOL CHEMICALS

STAIN CONTROL

Sequa-Sol®

Sequa-Sol sequestering agent holds iron, manganese, copper and calcium in solution so they do not react with other elements in the water. Prevents staining, scale, and rust on pool equipment, pipes and fittings.

Item Number	Description
AA7101605	Sequa-Sol Quart
AA7101605PK12	Sequa-Sol Quart – case of 12

Super Sequa-Sol®

This specially formulated concentrated granular form of Sequa-Sol protects pool against minerals in the water. Ideal when filling pool or when adding make-up water.

Item Number	Description
AA7102405	Super Sequa-Sol 2 lbs
AA7102405PK12	Super Sequa-Sol 2 lbs – case of 12

CLARIFIERS

Super Blue®

This concentrated formula removes organic particles that can result in dull water and clogged filters. It adds crystal clear sparkle and reduces sanitizer demand without affecting the pH balance of your pool water.

Item Number	Description
AA7120505	Super Blue Quart
AA7120505PK12	Super Blue Quart – case of 12

Natural Clear®

Natural Clear clarifier is an enzyme-based water cleaner that quickly rids pools of organic contaminants that cause odors, scum lines, and cloudy water and helps keep filters clean.

Item Number	Description
AA7141005	Natural Clear Quart
AA7141005PK12	Natural Clear Quart – case of 12

Drop N' Vac®

With clarifying capabilities, Drop N' Vac drops unfilterable debris, including microparticles and dead algae, to the bottom of the pool for easy vacuum removal. This formula is effective over a wider range of pH levels than comparable products.

Item Number	Description
AA7140805	Drop N' Vac Quart
AA7140805PK12	Drop N' Vac Quart – case of 12

ALGAE CONTROL

Algimycin® 2000

Algimycin 2000 algacide kills, prevents and controls all algae types. A special wetting agent penetrates and kills algae cells. This nonmetallic, poly-complex formula gives fast and effective control with no foaming or staining. It also acts as a clarifier and filter aid by removing algae fast.

Item Number	Description
AA7110405	Algimycin 2000 Quart
AA7110405PK12	Algimycin 2000 Quart – case of 12

Algimycin® 3000

Algimycin 3000 algacide contains two active ingredients, including zinc sulfate monohydrate, to provide long lasting protection from algae. It kills and prevents green, yellow and black algae and is stable in pool water.

Item Number	Description
AA7110505	Algimycin 3000 Quart
AA7110505PK12	Algimycin 3000 Quart – case of 12

CLEANERS

Filter Rinse®

This one-step backwashing aid couldn't be easier to use. Just pour it into the pool skimmer to clear caked-on organic and inorganic materials from your sand filter—fast! Compatible with chlorine, bromine, ozone, salt water chlorine and biguanide sanitizing systems.

Item Number	Description
AA7101405	Filter Rinse Quart
AA7101405PK12	Filter Rinse Quart – case of 12

TLC®

TLC removes oil, grime, and mineral scale from common pool surfaces such as tile, vinyl, and concrete. Its thick, concentrated formula clings to upright surfaces longer for more effective cleaning power.

Item Number	Description
AA7102805	TLC Quart
AA7102805PK12	TLC Quart – case of 12

SPA FOAM CONTROL

Leisure Time Foam Down

Concentrated foam suppressant begins working immediately to eliminate foam. Apply directly to foam and watch it disappear. Compatible with all sanitizers including bromine, chlorine, ozone, and biguanide.

Item Number	Description
AA0641105	Foam Down Quart
AA0641105PK12	Foam Down Quart – case of 12

BALANCERS

pH Up

Allows you to raise pH levels as needed. Keeping proper pH levels will help ensure pool sanitizers are working at maximum efficiency and aid in preventing stain and scale formation.

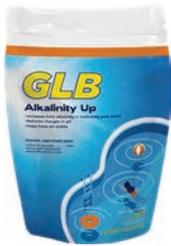

Item Number	Description
AA7127405	pH Up 5 lb pouch
AA7127405PK8	pH Up 5 lb pouch – case of 8

pH Down

Allows you to lower pH levels as needed. Keeping proper pH levels will help ensure pool sanitizers are working at maximum efficiency and aid in preventing stain and scale formation.

Item Number	Description
AA7124105	pH Down 6 lb pouch
AA7124105PK8	pH Down 6 lb pouch – case of 8

Alkalinity Up

Increases alkalinity of pool water to prevent the pH level from fluctuating.

Item Number	Description
AA7124505	Alkalinity Up 10 lb pouch
AA7124505PK4	Alkalinity Up 10 lb pouch – case of 4

Calcium Hardness Up

Increases water hardness to prevent equipment corrosion and scaling.

Item Number	Description
AA7124305	Calcium Hardness Up 8 lb pouch
AA7124305PK4	Calcium Hardness Up 8 lb pouch – case of 4
AA7121405	Calcium Hardness Up 25 lbs

De-Chlor

Chlorine neutralizer. Lower chlorine level safely with this product when chlorine concentration becomes too high.

Item Number	Description
AAMON0250	De-Chlor 10 lbs

Soda Ash (pH up) - Bulk

A convenient, safe granular product for raising the pH of pool water with minimal effect on overall alkalinity.

Item Number	Description
AA9030250	Soda Ash (pH Up) 50 lb bag

Alkalinity Increaser - Bulk

(Sodium Bicarbonate) A safe, easy-to-use granular product that raises total alkalinity and acts as a buffer to prevent "pH bounce", staining and corrosion.

Item Number	Description
AABICAR50	Alkalinity Increaser 50 lb bag

Calcium Increaser - Bulk

83%-87% pure calcium chloride flakes. This product increases calcium hardness of swimming pool water.

Item Number	Description
AAMCCAL50	Calcium Increaser 50 lb bag

E-Z Clor Chlorine/Bromine Neutralizer

Sodium Thiosulfate reduces high concentrations of chlorine or bromine. Reduces shut down time when levels are dangerously high. 1 oz will neutralize 1 ppm of chlorine/bromine per 10,000 gallons.

Item Number	Description
AA5007798	Chlorine/Bromine Neutralizer 5 lbs
AA0144998	Chlorine/Bromine Neutralizer 50 lbs

1" Chlorine Tablets

Trichloro-s-triazinetrione. 95% active ingredients, 90% available chlorine with conditioner, pH 2.8.

Item Number	Description
AA0113598	1" Chlorine Tablets 25 lbs

Granular Dichlor

With 56% available stabilized chlorine, GLB® Granular Dichlor offers easy pool sanitizing in a fast-dissolving formula. Ideal for daily chlorination. 99.5% sodium dichloro-s-triazinetrione. Does not contain calcium.

Item Number	Description
AA7122205	Granular Dichlor 25 lbs

3" Chlorine Tablets

Use these 8 oz slow-dissolving tablets for continuous disinfection with floaters, feeder or skimmers. With 99% trichloro-s-triazinetrione, our 3" tablets offer 90% available chlorine for effective sanitizing.

Item Number	Description
AA7123405	3" Chlorine Tablets 25 lbs
AA7123605	3" Chlorine Tablets 50 lbs

Super Charge Chlorine Shock

Super Charge is a 68% active Calcium Hypochlorite granular product formulated especially for super chlorination shock treatments. Use 1 lb for every 10,000 gallons.

Item Number	Description
AA7142805	Super Charge 1 lb pouch
AA7142805PK24	Super Charge 1 lb pouch – case of 24
AA7143005	Super Charge 25 lbs
AA7143205	Super Charge 100 lbs

1" Bromine Tablets

Bromine tablets for use in pools or spas. Sanitizer stays effective even when in combined state. 100% active ingredients. 64.9% available bromine, 29% available chlorine, pH 7.4.

Item Number	Description
AA0116298	1" Bromine Tablets, 25 lbs

SuperSonic

GLB SuperSonic (73% cal hypo shock) is a highly effective multi-purpose product that sanitizes, clarifies, prevents algae and shock treats your pool. It is convenient, easy to use and won't over stabilize your pool water. The fast-dissolving formula can be used on all pool surfaces, does not contain cyanuric acid and leaves no residue.

Item Number	Description
AA7144005	SuperSonic 25 lbs
AA7144205PK24	SuperSonic 1 lb pouch – case of 24

Chlorine Stabilizer

GLB Stabilizer helps to protect chlorine in pool water from degradation by the UV rays in sunlight. Using this product along with proper pH control will help prolong the life of your chlorine sanitizer. It is useful with all sources of chlorine for sanitization including salt chlorine generators.

Item Number	Description
AA7125905	Chlorine Stabilizer 4 lbs
AA7125905PK8	Chlorine Stabilizer 4 lbs – case of 8

Oxy-Brite® Non-Chlorine Shock

This non-chlorine shock creates sparkling water and shock treats all in one step. Oxy-Brite's unique blue water brightening crystals literally brighten water while its shock treatment oxidizes organic contaminants that cause odors, skin and eye irritation, and cloudy water. Effective in chlorine and bromine pools. Allows for swimming immediately after application.

Item Number	Description
AA7142505	Oxy-Brite 1 lb pouch
AA7142505PK24	Oxy-Brite 1 lb pouch – case of 24
AA7142C05	Oxy-Brite 25 lbs

Chemtrol Automatic Chemical Control Systems

Every Chemtrol controller is designed for easy operation by the pool or spa operator. All operating functions are accessed through direct controls on the front panel.

Today, chemical automation is recognized as a must for all commercial pools and spas. It is the only way to maintain clean and safe water and to prevent bad odors, eye irritation, infections and costly damage to equipment. At the same time, chemical automation pays for itself through savings in operating and maintenance expenses.

Besides good water chemistry and comfortable swimming, chemical automation yields substantial benefits from savings in operating costs, maintenance and major repairs. With proper selection of equipment, most installations show complete system payback in a year or two.

Chemtrol 250

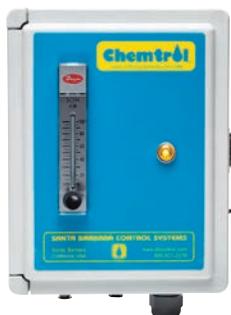

Chemtrol 250 Digital Controller

The Chemtrol 250 ORP/pH Digital Controller makes pools and spas cleaner and safer by automatically maintaining both sanitizer ORP (Oxidation-Reduction Potential or Redox) and water pH. Ideal for hotels, motels, apartments, condos, homes and more, all operation functions are clearly labeled and accessible from the front panel, with safety and easy-reset features not found on other controllers. Each controller comes with the security of a **5-year electronics warranty**, and pays for itself in 1 to 2 years through cost savings in operation and maintenance expenses.

Chemtrol 250 Features:

- Exclusive safety and easy reset features
- All functions on front panel
- Adjustable setpoints and alarms
- Acid/base selector
- Proportional feed and overfeed safety timers
- Rain- and splash-proof cabinet

Item Number	Description
112501Q40	Chemtrol 250 mounted on a panel with Flow Cell, Safety Flow Switch
1125040	Chemtrol 250 (controller & probes only)
11FCA40	Flow Cell Assembly Option

Chemtrol CO₂ pH Controller with Regulator

Carbon Dioxide CO₂ is a natural, non-corrosive gas that can be used as a substitute for liquid acid in chemical treatment of swimming pools and spas.

CO₂ is available in standard pressurized gas cylinders. When dissolved in water, it forms carbonic acid (H₂CO₃) a relatively weak acid which can be used to lower the pH of water and neutralize liquid chlorine.

Chemtrol CO₂ pH Controller Features:

- No handling of corrosive acid container
- No corrosion of equipment from acid fumes
- No dangerous chemical reactions with chlorine
- Less danger of excessive low pH in water
- LED indicator when feeding
- Because carbonic acid is a weak acid, the lowest pH value that can be reached is 6.8, even under accidental runaway conditions
- Optional AUTOMATIC SWITCHOVER assures continued control of pH

Item Number	Description
11C0240	Chemtrol CO ₂ pH Controller with External Regulator
11C02A40	Chemtrol CO ₂ pH Controller with External Regulator & Switchover

Chemtrol 255

Chemtrol 255 Digital Controller

The Chemtrol 255 PPM/pH Digital Controller helps ensure direct reliable readings of free chlorine (HOCl + OCl⁻ + Chlorinated Isocyanurates) concentration in water. Unlike conventional amperometric or colorimetric sensors, it's easy to install and operate. Not affected by cyanurates or oxidizers, it also doesn't require a pressure flow cell and/or expensive and expendable chemical reagents. It's the only easy-to-use controller offering true free chlorine and pH control for pools, spas, cooling towers and industrial water treatment and is compatible with cyanuric acid (CYA) at all concentrations. Each controller comes with a special low-pressure cell that ensures a smooth flow of water for precise and reliable control of free chlorine, the security of a **5-year warranty** and is practically maintenance free.

Chemtrol 255 Features:

- All functions on front panel
- Acid/base selector
- Proportional feed
- Programmable 4-20 mA dual channel output to PID
- Free CL range 0-10 PPM or 0-2 PPM
- Ethernet/Internet communications

Item Number	Description
1125540	Chemtrol 255 (controller & probes only)

Chemtrol PC1500 & PC1555 Digital Controllers

Chemical Automation is now recognized as a must for many applications such as swimming pools, spas, cooling towers and industrial water treatment. With advanced microprocessor-based technology, the CHEMTROL PC1500 and PC1555 Programmable Controllers introduce a new standard of sophistication in automated control of sanitizers (chlorine or bromine), oxidizers and pH.

The CHEMTROL PC1500 and PC1555 are user-friendly and reliable controllers that are easy to install and operate. Every unit is supplied with a comprehensive operation manual plus on-site start-up and training by a Qualified Dealer and a **5-year electronics warranty**.

Chemtrol PC1500 & PC1555 Controller Features:

- Large 8-line LCD display for easy operation
- ORP control of sanitizer and/or oxidizer activity
- pH Control with choice of acid of base feed
- Langelier Saturation Index for water balance
- Automatic data logging for up to 999 tests
- Safety Flow Switch
- Temperature display
- Full screen menus in English, French or Spanish
- Screen displays in US or metric units
- Compatible with all common sanitizers and oxidizers
- Flow cell assembly w/ clear cover and 3 valves

Item Number	Description
11PC15040	Chemtrol PC1500 ORP/pH Digital Controller
11PC15540	Chemtrol PC1555 PPM/pH Digital Controller

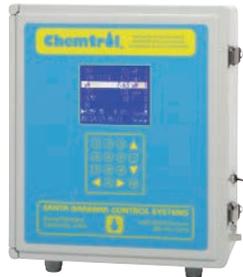

Chemtrol PC2100 Digital Controller

Whether it's a swimming pool, spa, cooling tower, or industrial water treatment facility, chemical automation is the easiest and most efficient way to ensure proper water quality. The Chemtrol PC2100's advanced microprocessor technology gives you a new standard of sophistication in automated control of sanitizers, oxidizers, and pH. The Chemtrol PC2100 is a user-friendly and reliable controller that is easy to install and operate, and is backed by our **5-year electronics warranty**.

Chemtrol PC2100 Features:

- Large 8-line LCD display in U.S. or metric units for easy operation
- Full screen menu in English, French, or Spanish
- ORP control of sanitizer (chlorine or bromine and/or oxidizer activity) – compatible with all common sanitizers and oxidizers
- pH control with choice of acid or base feed
- Programmable shock treatment and chemical savings cycles
- Langelier Saturation Index for water balance
- Automatic data logging for up to 999 tests
- Micro SD card easy data log downloads
- Safety flow switch
- Flow Cell Assembly (FCA)

Item Number	Description
IIPC21040	Chemtrol PC2100
IIETHCO40	Ethernet/Internet Comm. Upgrade, w/ Chemcom Software

Chemtrol PC3000 & PC5000 Programmable Controllers

The user-friendly, microprocessor-based Chemtrol PC3000 & PC5000 Programmable Controllers introduce a new standard of sophistication and reliability in automated water treatment for applications like swimming pools, spas, waterparks and industrial settings. Easy to install and operate, each controller comes with an operation manual, on-site startup and training by a Qualified Dealer and the security of a **5-year electronics warranty**. All menus are clearly displayed in English, French or Spanish – with choice of U.S. or metric units.

Chemtrol PC3000 & PC5000 Features:

- ORP control of oxidizer with shock & chemical-saving programs
- pH control with acid or base feed and probe rinse program
- Programmable shock treatment and chemical savings cycles
- Heater control with energy saver program
- Langelier saturation index for water balance
- Sanitizer PPM display & remote alarm
- Compatible with common sanitizers, oxidizers & ACT Program

Item Number	Description
IIPC30040	Chemtrol PC3000 (PPM Control is optional)
IIPC50040	Chemtrol PC5000 (PPM Control is standard)
IIETHCO40	Ethernet/Internet Comm. Upgrade, w/ Chemcom Software

Chemtrol PC6000 & PC7000 Programmable Controllers

The Chemtrol PC6000 & PC 7000 microprocessor-based Programmable Controllers are fully integrated command center for automated control of water chemistry and filtration. Featuring true duplex remote operation and choice of backwash programs for single or multiple filters, it introduces a new standard of sophistication in automated water treatment for applications like swimming pools, spas, waterparks and industrial water treatment. Each controller comes with an operation manual, on-site startup and training by a Qualified Dealer and the security of a **5-year electronics warranty**.

Chemtrol PC6000 & PC7000 Features:

- ORP control of oxidizer with shock & chemical-saving programs
- pH control with acid/base feed and probe rinse program
- Ethernet/Internet network communications
- Heater control with energy saver program
- Main pump control (including VFD control) & flow rate monitoring with cumulative display
- Sensor cell assembly
- Influent/effluent pressure monitoring with safety alarms
- Automated backwash for multiple filters
- Water level control with electronic sensor and fill valve control
- Menus in English, French or Spanish (in U.S. or metric units)
- Compatible with all common sanitizers and oxidizers
- Automated Chloramine Treatment (ACT) Program

Item Number	Description
IIPC60040	Chemtrol PC6000 (PPM Control is optional)
IIPC70040	Chemtrol PC7000 (PPM Control is standard)
IIETHCO40	Ethernet/Internet Comm. Upgrade, w/ Chemcom Software

Chemtrol Flow Cell Assembly Options

- Easy installation on bypass line
- pH and ORP sensor fittings
- Fitting for conductivity sensor
- Clear viewing port
- Two (2) flow control valves and sampling spigot
- Anti-air block line
- For new installations or upgrades

Flow Cell Assembly

- Includes flow cell with tap and valves ONLY

Flow Cell (Only)

- Includes sensor cell and (2) 1/2" compression fittings
- High pressure versions available with pricing on request.

Item Number	Description
IIAPWFS40	Flow Cell Assembly with Flow Switch
IIFCA40	Flow Cell Assembly
IPFC40	Flow Cell (only)

Chemtrol Sensor Cell Assembly

The Flow Cell Assembly is available pre-assembled inside a sturdy and lockable cabinet for safety and security. Assembly includes sensor cell, compression fittings, paddlewheel flow switch, sampling tap and locking cabinet.

Item Number	Description
IISCA40	Sensor Cell Assembly
IIISCAHP40	Sensor Cell Assembly (High Pressure)

Chemtrol Replacement Sensors and Accessories

Each sensor includes 10' shielded cable and BNC connector.

Item Number	Description
II12240	pH Sensor
II12340	ORP Sensor
II12440	PPM Sensor
IPMEM1B40	Blue Membrane for PPM Free Chlorine Sensor
IPMEM1O40	Orange Membrane for PPM Total Chlorine Sensor (not pictured)
IPGEL1B40	Electrolyte Gel for Free and Total Chlorine Sensors
IITEMP40	Temperature Sensor (includes PVC tee)
IPTC40	Temperature/Conductivity Sensor
IPPWFS40	Safety Flow Switch – 1/2" NPT Connections

Standard Replacement pH/ORP Sensors

Our standard replacement pH/ORP electrodes are reliable and cost-effective direct replacements for sensors used in most brands of pool controllers. Constructed with a color epoxy body that protects the platinum band and sensor tip. Color-coded for easy identification, these sensors come with a 10' cable and BNC-style connectors.

Item Number	Description
IPS01050	ORP Sensor
IPS02050	pH Sensor

HAYWARD CHEMICAL CONTROL SYSTEMS

CAT Controllers®

Thousands of commercial pools, spas, water parks and water treatment facilities worldwide rely on CAT Controllers to provide greater control over water quality and operational costs. Every model provides unmatched control over pH and sanitation for chlorine, bromine or salt-based pools. Wireless models allow unparalleled control from remote locations, through www.poolcomm.com. Real time water quality data can be viewed, charts and graphs can be printed and settings adjusted. Alarm notifications can be sent directly to a subscriber's email account or mobile device. Successful facility managers count on CAT Controllers for years of trouble-free operation, customer service, support and technical assistance. All CAT Controllers listed are NSF/ANSI Standard 50 Certified. Five year limited warranty on controller, and two year warranty on sensors. **Contact us for pricing and selection assistance.**

CAT 2000®

Automated water quality solution for pools, spas, water parks and more, world-wide.

Constantly monitors pH and sanitizer activity (chlorine, bromine) and automatically implements chemical feeding in proportion to demand for perfect water quality at all times.

- Simple installation, setup and operation
- Compatible with all types of chemical feed equipment
- 5-year limited warranty on controller; 2-year warranty on sensors
- NSF/ANSI Standard 50 Certified
- The CAT 2000 Professional Package is a factory-assembled system that includes the controller, sensors, machined acrylic flow cell, rotary flow sensor and PVC backboard

Item Number	Description

CAT 4000®

Wireless, web-based water quality management.

Using the CAT 4000 system, you can easily log onto PoolComm® to activate your wireless account and begin monitoring your water quality. Using your personal PoolComm account, you can view water quality data, print charts, analyze graphs, customize your settings and receive alarm notifications via email or SMS.

Features:

- Wireless link to the PoolComm site with extensive North American coverage and 24/7 monitoring
- Incredibly simple to install and operate via simple menus and a bright alphanumeric display
- Compatible with existing chemical feed equipment, so initial investment is minimized
- Comes complete with CAT Professional Series pH and ORP sensors for unsurpassed performance
- Optional Wi-Fi communications protocol provides users free PoolComm access
- 5-year limited warranty on controller; 2-year warranty on sensors
- NSF/ANSI Standard 50 Certified

Item Number	Description
IICAT4W50	CAT 4000 Controller with WIFI support

Contact us for assistance and pricing for "Professional Package" and alternate options.

CAT 5500®

The Hayward CAT 5500 is a wireless water chemistry controller engineered for salt chlorine pool applications. Designed for commercial environments, it provides precise pH and ORP control and continuously monitors TDS/NaCl levels and water temperature to maintain consistent sanitation and balanced water conditions.

The CAT 5500 features dual sanitizer set points to provide backup ORP control and includes a temperature sensor for seamless heater integration. Two auxiliary relays provide greater control versatility, supporting a wide range of equipment configurations. Wireless communication with PoolComm® enables convenient internet-based monitoring and system oversight.

Each controller comes with CAT Professional Series pH, ORP, and conductivity sensors for dependable, high-accuracy performance and is an ideal complement to Saline C® Series Salt Chlorine Generators. The controller has a 5-year limited warranty and the sensors have a 2-year warranty, making it a reliable solution for demanding commercial pool operations. NSF/ANSI Standard Certified.

ChlorKing® Sentry Aqua Guard Ultraviolet Disinfection Systems

ChlorKing® Sentry Aqua Guard UV systems are leading the way to better, safer water. Their unique, forward-thinking design employs high output amalgam technology for better chloramine control and inactivation of chlorine resistant bacteria. Sentry Aqua Guard systems are designed for commercial pools and spas, and they pay for themselves through lower cost of operation and a longer lasting system. Your facility strives to promote a healthy environment for your member and guests. With a ChlorKing® Sentry ultraviolet light system your pool can now become an attraction instead of a headache. ChlorKing Sentry ultraviolet light systems add a second level of protection for your patrons against pathogens in the pool water. They also drastically reduce the level of chloramines which can often overwhelm indoor pool areas.

ChlorKing Sentry UV offers the simplest operation available using the KIS (Keep it simple) philosophy. An LED control panel allows the operator to visually inspect operation and will warn of any malfunction or situation that needs attention. ChlorKing Sentry UV systems can be installed vertically or horizontally and will fit into most existing pump rooms.

ChlorKing Sentry UV systems feature a patent pending quick disconnect sleeve assembly for the easiest quartz sleeve removal in the industry. This unique design allows the operator to remove the sleeves in less than 1 minute when changing, cleaning or replacing is required. Why struggle with expensive troublesome automated wipers on competitive systems?

- Amalgam technology
- Improved water and air quality
- Reduction in chlorine consumption, waterborn bacteria, and bleached suits
- 13,000 hour EOL lamp life
- Patent pending quick disconnects
- 316L stainless steel chambers
- Sch. 80 chambers for small pools & hot tubs
- 54nm wave length for sterilization/185nm wave length for oxidation
- NSF Listed

ChlorKing® NexGen Chlorine Generation System

Produce liquid chlorine from salt. These low maintenance models utilize reverse polarity to clean the plates every 3 hours. The NexGen unit is a stand alone, on-site chlorine generator capable of producing pH neutral chlorine for use in your pool. Reduces acid consumption by 30 - 50% versus a bleach fed pool. These commercial quality generators use swimming pool water to feed the generator and distribute chlorine to the pool as needed. Uses venturi feed system for supply of chlorine to the pool and can be used with any ORP or PPM swimming pool controller. This system does not put salt into the swimming pool and will not raise TDS levels, like other chlorine generators. Eliminates the need to store large amounts of chlorine onsite.

Touchscreen display with built in safety sensors for air, water, pressure, and tank level. Max amperage of 24 amps requires installation of 40 amp breaker. Skid mounted for easy installation. Requires plumbing vent line for Hydrogen dissipation. Units available that produce from 10 PPD (equivalent to 10 gallons of 12% pool bleach) in 24 hours to 80 PPD (equivalent to 80 gallons of 12% pool bleach) in 24 hours. Can feed up to six bodies of water from one system with venturis. Multiple units can be used for larger facilities. Available to be used as primary chlorine supply with traditional liquid chlorine or use with calcium hypochlorite feeders as back up. Excellent product to use when you have limited delivery or storage options for chemical supply. 208-240v, single phase, 60 Hz. ETL/NSF Listed. Reverse polarity systems listed.

Item Number	Chlorine Production	Dimensions (L x W x H)	Weight

STENNER PUMPS®

Stenner Adjustable Output Metering Pumps

The Classic Series single head adjustable metering pump is built with three detachable components: the motor, feed rate control, and the pump head. The output is determined by three factors; the rpm of the motor gears, the percentage setting on the feed rate control, and the size of the pump tube. The motor shaft rotates at a fixed rpm, which drives the feed rate control to intermittently engage the roller assembly within the pump head according to the setting on the external dial ring. The dial ring is labeled L to 10 and has a 20:1 turndown.

Adjustable Rate, Single Head

Features:

- 3-point roller design for anti-siphon protection
- Pump head requires no valves, allows for easy maintenance
- Self-priming against maximum working pressure, foot valve not required
- Pump does not lose prime or vapor lock
- Pumps off-gassing solutions and can run dry
- Output volume is not affected by back pressure
- Easy to change tube; lubrication is not required
- Pump tubes and heads interchange between models

Adjustable Rate, Single Head

Stenner Fixed Output Metering Pumps

The Classic Series single head fixed output metering pump is built with two detachable components: the motor and the pump head. The fixed rate pump does not have an output adjustment. The output is determined by the RPM of the motor gears and the size of the pump tube. The motor's output shaft rotates at a fixed rpm which drives the roller assembly within the pump head.

Stenner Econ T Dosing Pump

The Econ T is a compact, easy to program pump with flexibility to schedule up to 24 separate events within a 7 day period. The automatic dosing control is reliable for timed applications such as injection of enzymes, phosphate reducers and liquid solar blankets.

Features:

- Wall Mountable
- Simple programming with LCD display
- Control panel features a 24 hour integral clock with battery backup to maintain time of day
- Effortless tube replacement
- 6' cord standard. (10' cord available on request)

Stenner S Series and S Variable Series Peristaltic Metering Pumps

The S Series and S Variable Series are peristaltic pumps with practical functions such as backup pump capability, leak detection and remote operation for industrial, water, wastewater, and commercial swimming pool applications. The pumps have a durable totally enclosed housing with NEMA 4X rating. The brushless DC motor is equipped with ball bearing support and the switch power mode offers energy efficiency. The splined shaft in the pump head and roller assembly allows smooth installation and replacement. Tube replacement does not require tools with the patented pump S4 QuickPro® pump head.

S Series Features:

- Leak detection
- Backup pump capacity
- Remote start or stop
- LED Indicators
- Enclosed housing, NEMA 4X
- Three dedicated output relays
- Tube replacement without tools
- **2-Year Warranty**

S Series

The S Series interfaces with process control systems utilizing a 4-20mA output signal, three output relays and is modbus capable. Select from multiple status indicators and operational modes with OLED operating display. Fine-tune the pump to fit the application and monitor for peace of mind. Prevent unauthorized access to programmed settings with password protection. Built to NEMA 4X for demanding applications.

Stenner Flow Indicator

The flow indicator is a convenient visual reference (especially with black suction/discharge tubing) to confirm solution is pumping into the system. It also provides an indication of common issues such as plugged injection point, ruptured or worn tube or empty solution tank and assists with impeding backflow.

Other benefits include:

- Simple installation
- Weather and UV-resistant body
- Field serviceable
- Economical

Pentair Commercial Intellichlor® Salt Chlorine Generator

IntelliChlor Salt Chlorine Generator uses common table salt to produce all the chlorine a pool needs, safely, effectively, and automatically. Same sanitation performance as manual chlorine addition without the drawbacks.

An external ORP controller must be used. Pentair recommends Commercial IntelliChem systems.

COMSYS-System includes: Primary Cell, Secondary Cells, Primary Power Center, Secondary Power Centers, and the manifold.

Features:

- Each cell produces up to 2 lbs of chlorine per day
- Color LED status displays
- Performance data captured daily
- Automatic shut-off feature helps protect and prolong cell life
- Pre-mounted multi-power center configuration
- Must be used with an external ORP/pH Controller
- Self-cleaning
- Listed to UL 1563/CSA C22.2 No. 218-1
- Certified to NSF/ANSI 50

Item Number	Description	Chlorine per 24 Hours	Pool Volume ¹
II2097003	COMSYS-2	2 lbs	10,000 Gallons
II2097103	COMSYS-4	4 lbs	20,000 Gallons
II2097203	COMSYS-6	6 lbs	30,000 Gallons
II2097303	COMSYS-8	8 lbs	40,000 Gallons
II2097403	COMSYS-10	10 lbs	50,000 Gallons
II2097503	COMSYS-12	12 lbs	60,000 Gallons
II2097603	COMSYS-14	14 lbs	70,000 Gallons
II2097703	COMSYS-16	16 lbs	80,000 Gallons

¹Commercial pools typically require 2 lbs. of chlorine production per every 10,000 gallons. Please consult your local codes for chlorine production requirements.

Commercial Bioshield® CVP UV Disinfection Sterilizer

When operating space is restricted, our vertical BioShield UV Systems provide the small footprint you need. These vertical models feature single-end, top-loading quartz sleeve(s) to minimize space required and maximize serviceability. Each model is extremely durable and features a corrosion-resistant remote power supply enclosure and UV vessel. All models are designed to deliver optimum UV performance by utilizing the UV Lamp's UV-C output to its maximum potential. BioShield UV Systems are water-tight and designed for indoor/outdoor use. Each model is equipped with a flanged base for easy installation. Unit can also be installed horizontally.

Features:

- Enhanced, state-of-the-art electronic ballast, sized precisely to the lamp's power requirement, ensures optimal UV-C output and maximum "useful lamp life"
- Small footprint: vertical operation reduces required horizontal space
- Cost-effective Schedule 80 solvent welded PVC plastic vessels stand up to corrosive Chlorine environments
- Single-End UV lamp and quartz sleeve access for easy servicing
- Watertight design protects all electrical hardware from water damage
- Quality American-made, low-pressure Amalgam UV lamps offer up to 12,000 hours of continuous operation
- Choice of inlet/outlet port styles
- Included Over-Temp System Shutdown Sensor shuts down the lamp field to avoid damage when water temperature inside the vessel exceeds 120° F
- 6' power cord and 20' lamp cables

Blue-White®

Blue-White FlexFlo® A1A Digital Peristaltic Pump

Specially designed for commercial aquatics, the A1A enables users who require higher chemical feed requirements for sanitizing (sodium hypochlorite) and pH adjustment (acid) to move away from diaphragm technology and the inherent challenges experienced with these chemicals and adapt to peristaltic technology for less service, more trouble free and reliable chemical feed solution.

- Peristaltic pump design does not have valves that can clog requiring maintenance.
- Self priming – even against max line pressure. No bypass valves required. Cannot vapor lock or lose prime.
- Output rates to: 100 GPD (15.8 LPH) and pressures up to 40 PSI (2.76 Bar).
- Energy efficient variable speed DC motor.
- Patented Tube Failure Detection (TFD) system. Senses tube failure by detecting chemical in the pump head. No false triggering.
- Remote Start/Stop: Non-powered dry contact closure for remote start/stop.
- One 48VDC @ 80mA relay.
- Heavy duty rotor – single piece plastic rotor means no flexing and increased accuracy with no metal springs or hinges to corrode.
- Specially engineered tubing for long life.
- Includes wall mount bracket.
- Uses A1-7T tube
- 2 year warranty.

Item Number	Blue-White Model No.	Voltage	Operating Flow Range
IIA1A4739	A1A4-7T	115V AC	0.01 to 100 GPD

Also available in 230V AC and 220V AC configurations.

Blue-White FlexFlo Peristaltic Injector

FLEXFLO® Peristaltic Chemical Feed Pumps are designed for accurate and hassle-free delivery of liquid chlorine and acid to pools and smaller aquatics features. The A-100NA will feed up to 124.08 GPD/19.56 LPH with a max working pressure reaching 100 PSI/6.9 Bar. The precise output control adjustment allows for a wide range of feed rates. Other features include self-priming; a separate electronics compartment; individually packaged; FLEXFLO ships with tubing and accessories.

- Patented TFD (Tube Failure Detection) system protects against chemical spills from a worn out tube and activates an alarm output relay
- Self-Priming against maximum line pressure
- Cannot Vapor Lock or Lose Prime

Blue-White CO₂ Feed System

Discover the Blue-White CO₂ Feed System: pH Control, simplified. Replace hazardous acids with this safe alternative, complete with an accurate Blue-White F-440 flow meter, illuminated on/off switch, stainless steel solenoid valve, and easy push connectors for hassle-free setup. Experience next-level pH control – choose safety, precision, and convenience. The CO₂ feed system maintains the desired pH level by directly injecting carbon dioxide into the water supply. This process creates carbonic acid, which lowers the water's pH level naturally without hazardous chemicals such as muriatic acid or sulfuric acid. **One-year warranty**

- Safe alternative to acid feed for pH control
- Accurate and reliable flowmeter for precise feed
- NEMA 4X enclosure
- Illuminated on/off switch
- Stainless steel solenoid valve
- Includes inlet/outlet tubing and mounting tabs
- Easy push connectors for tubing connection

Rainbow Chlorine/Bromine Erosion Feeders

High capacity feeders for 1" hard plumbing installations. The completely enclosed system allows no escaping gases and requires no venting. Water flows through the chamber, eroding tablets and introducing chlorine/bromine into your system. A corrosion resistant check valve such as Rainbow's R172288 should be installed between the feeder inlet and outlet and the equipment to help prevent equipment damage. Damage to the heater or other equipment could result from a high concentration of sanitizer back flowing into it when the pump is shut off.

This feeder is designed to use only clean trichlor-s-trizinetriene or clean bromine tablets (slow dissolving type).

Calcium Hypochlorite should never be used with this feeder under any circumstances.

VaporShield-Pro

VaporShield-Pro allows chemical feed pumps to draw down drums and carboys without vacuum lock, while preventing chemical fumes and vapors from escaping... Reusable, barrel after barrel. Constructed entirely from corrosive resistant material. Includes 15' of tubing and weighted foot-valve/strainer. Fits cap-style (5 to 10 gallon) and plug-style (15 to 52 gallon) drums.

Specify ¼", ⅜", or ½" tube size.

Item Number	Description
IIVSHLD50	VaporShield Pro - Specify 1/4", 3/8" or 1/2" tube size

A. Flange Mounted Mixer

Flange mounts provide a steel flange with four plated bolts for mounting the mixer directly over the shaft hole in the tank cover or other flat surface. Flange mounts optimize minimal mounting area at a reasonable price. ½ HP at 1500 rpm unit is standard with 32" shaft, neoprene impeller, and prewired with 8 feet of rubber-covered power cord.

B. Bracket Mounted Mixer

Bracket mounts are constructed from 3/8" thick steel and have four plated bolts included for mounting the mixer on a tank cover or other flat surface. For minimum mounting space, the brackets are factory installed with mounting feet inboard. They may be reversed for shelf or overhang installations if desired. ¼ HP at 1725 rpm unit is standard with 32" shaft, stainless impeller, and prewired with 8 feet of rubber-covered power cord.

Item Number	Description
IIFMTEA50	A. Flange Mounted Agitator
IIB10H50	B. Bracket Mounted Agitator

Epoxy coated shaft is available for an additional charge. Contact us for details.

CHEMICAL SAFETY & FIRST AID

Splash Goggle

- Soft vinyl frame fits snug comfortably
- Clear polycarbonate lens and clear frame with indirect ventilation
- Effective against dust, splashes and light impact
- Clear, anti-fog polycarbonate

Item Number	Description
DD1511750	Splash Goggle

Chemical Gloves

Neoprene coated glove provides the best all around performance against chemicals. A fabric lining provides comfort. Ideal for use in oils, acids, caustics and many solvents. Fully coated gauntlet. Preformed curved with flexed fingers. 12" gauntlet.

Item Number	Description
DD1027850	Chemical Gloves (pair)

Chemical Apron

- 33" x 49" green 18 mil heavy duty chemical protection apron
- 40 mil grommets welded to apron for added strength
- Extra long nylon cross ties for easy size adjustment and comfort

Economical plain-edge style provides superior flexibility and resistance to chemicals, punctures and abrasions.

Item Number	Description
DD0038750	Chemical Apron

Kemp First Aid Kits

The Kemp USA First Aid Kits includes necessities such as bandages, adhesive tape, antiseptic prep pads, gauze, first aid cream, gloves, sterile dressings, scissors, splinter forceps, sting-stop prep pads, and more. The 24 and 36 unit first aid kits are perfect for the commercial pool operator. They come in a hard plastic case with two snap-shut latches. Visit RecSupply.com for complete contents lists.

Polished Stainless Steel

Epoxy Coated

Emergency Shower & Eyewash Station

Offers immediate first aid. Full body drench shower with choice of stainless steel or ABS plastic bowl. Easily activated by push flag or triangular pull handle. Stainless steel eyewash offers optional foot treadle and is ordered separately. Epoxy coating adds an additional layer of protection on all galvanized metal surfaces. Meets ANSI and OSHA requirements.

Item Number	Description
DD4900598	Stainless Steel Emergency Shower & Eyewash
DD4905898	Stainless Steel Emergency Shower & Eyewash, Epoxy Coated

Emergency Eye Wash Station

Self-contained, easily installed system provides immediate eye flushing in the event of an accident involving acids, caustics or other water-soluble irritants. Stations are equipped with both double-back tape and screw holes for mounting. Bottle caps are covered with tamper-evident seals to guarantee sterility. The pull-out-bottle design is ideal for quick access in emergency situations.

Item Number	Description
DD2703250	Complete 32 oz Station
DP2603750	32 oz Refill

Porta Stream® Eye Wash Stations

These self-contained, gravity-fed emergency eye wash stations help relieve eye irritation by removing loose foreign material, chlorinated water, or other contaminants. Requires no plumbing. Includes Eyesaline® concentrate, emergency eye wash sign, mounting bracket and illustrated operating instructions. The **Porta Stream I** offers 6 minutes of continuous flow. The 16-gallon capacity **Porta Stream II** offers 15 minutes of continuous flow at 0.4 gpm as required by ANSI Z358.1-2004.

The refills are easily mixed with tap water to provide six (70 oz refill) to 16 (180 oz refill) gallons of preserved, buffered saline solution.

Features:

- Sturdy, one-piece molded construction means low maintenance cost and no moving
- Large fill hole simplifies refilling and cleaning and reduces risk of possible tampering
- Easy-to-use design features simple, highly visible operating instructions on the unit itself

Kemp Complete CPR Mask

This bestselling CPR mask comes complete with head strap and O² inlet. It is packaged in a compact, hard-shell, pocket-sized carrying case and features a one-way valve with filter. This mask prevents mouth-to-mouth contact with the victim's face. It has a contoured soft vinyl cuff that shapes easily to adult, child and infant facial contours. Its transparent dome allows the rescuer to check the victim's mouth for lip color and secretions. The mask is ready to use with no need to assemble valve and filter, which saves valuable time in emergencies. Includes gloves and a wipe.

Item Number	Description
DD1050150	Kemp Complete Rescue Mask

Kemp Combo Adult/Child CPR Mask

Same contents as the Kemp Complete CPR Mask, but also includes a child adapter which provides a better fit for smaller faces.

Item Number	Description
DD1052550	Kemp Combo Adult/Child CPR Mask

Ambu Pocket Rescue Mask

Diverts patient's exhaled air away from the rescuer and prevents mouth to mouth contact. Its clear design allows visibility to check victim's mouth for lip color and secretions. Made of durable plastics. Includes reusable mask, replacement one-way valve and filter, one set of vinyl gloves, two alcohol wipes, oxygen inlet, head strap and a hard carry case.

Swim ID Neck Bands

SwimID neck bands offer a simple and highly visible way for lifeguards and monitors to know who belongs in the deep end at a glance. SwimID uses a simple stoplight system:

- Green - no restrictions
- Yellow - some restrictions
- Red - shallow pool only
- Blue - use for your custom purpose

Based on tested swimming competence, swimmers wear the assigned color breakaway band around the neck. This allows for easily determining any swimmer's skill level while in the pool.

RING BUOYS & MORE

Rope molded into core

Webbing straps

Jim-Buoy® USCG Approved Ring Buoys

Solid, closed-cell plastic throughout. Soft and resilient to the touch. The fine Sof-Tex surface resists weather and temperature extremes, is easily cleaned with soap and water, and will not rot or mildew. Double UV inhibitor prevents deterioration.

With Rope Molded Into Core

The rope is looped and securely bonded inside the molded core—practically impossible to tear out! No straps to wear or deteriorate. Its unique design allows the rope to stand out in the ready position to be more easily grasped in the water. This design also offers more space for custom lettering, if desired.

Snyder's Lifeguard Training Manikin™

The Snyder's Lifeguard Training and Testing Manikin™ is an indispensable tool for Organizations, Municipalities, Institutions, and Individuals involved in the training or testing of lifeguards. It was designed specifically to provide a Fair and Equal Testing Standard against which objective measurements could be made during a competitive evaluation.

It is scientifically designed to:

- Approximate towing an average size person in water
- Provide valuable endurance conditioning for in-service training
- Be used for personal pre-test preparation.
- Provide the same degree of difficulty for all students in testing situations
- Have many applications in lifesaving courses
- Help establish minimum standards for pre-employment tests
- Be virtually indestructible
- Be lightweight and portable with no maintenance required

Dimensions:

- Manikin Height: 37"
- Width Across the Shoulders: 16"
- Depth at Base: 7.5"
- Dry Weight: Approx. 18 lbs
- Filled Weight (Water): Approx. 100 lbs

DD9230050	Passive Silhouette Doll Set, Set of 2

PARAGON GUARD CHAIRS

Paragon Lifeguard Chairs

Paragon Aquatics offers a wide selection of fixed, movable and portable chairs for every need. Designed to harmonize with the Paraflyte Diving Towers, the Paraflyte fixed series chairs feature both sloping pedestal and access ladder. The movable, portable and semipermanent chairs can be moved about as needed or to avoid the sun. All fixed or semipermanent chairs have a rugged platform extending to the pool edge, permitting a safe, fast takeoff by a lifeguard. All chairs feature a colorful molded plastic chair. Chairs supported on seat pedestals have a 360° swivel. Anchors and escutcheons are included except with the movable and portable models. All chairs (except 'Portable' models) have holders for life rings and umbrellas. Life rings and umbrellas must be ordered separately.

Portable

Weighing under 100 lbs, this chair can be easily lifted by one person. Sloping front ladder allows easy access to molded contour seat. Angled legs give extra stability. Seat is six feet above deck (4-step unit); 4 feet 6 inches (3-step unit); and 3 feet 10 inches (2-step unit).

Item Number	Description	Ship Weight
HH2040110	4-Step	95 lbs
HH2046010	3-Step	89 lbs
HH2045010	2-Step	85 lbs
HH4410410	Replacement 19" Sloping Ladder Treads	

Item Number	Description
HH2040310	Wheel Kit for 3-Step Chairs
HH2040210	Wheel Kit for 2-Step Chairs

Rover

Designed for pools where the guard chair must be anchored, but still capable of being moved easily to another location on the deck (for instance, to keep direct sun out of lifeguards' eyes). Rear legs are anchored to sockets set in the deck. Front wheels allow for easy movement. Comes with two pairs of anchors. Additional sets must be ordered separately.

Item Number	Description	Ship Weight
HH2030310	Rover	185 lbs
HH2810210	Additional Anchor, each	225 lbs
HH2830110	Paragon Deluxe Escutcheon	
HH4410410	Replacement 19" Sloping Ladder Tread	

Wheel-A-Round Movable

An ideal solution for a chair that is needed at different locations at different times. Both rugged and stable, yet can be easily moved by one person. The semi-pneumatic wheels roll easily on deck or lawn. The perfect chair for supervision, instruction, and judging. The wide ladder at front leads directly to platform. Available with seat at eight-feet, six-feet or four-feet above deck. Not suitable for diving.

Item Number	Description	Ship Weight
HH2030110	20301 8' Movable	235 lbs
HH2030210	20302 6' Movable	225 lbs
HH2030510	20305 4' Movable	215 lbs
HP2071910	Replacement Footboard for 20301, 20302, and 20305	
HH4410410	Replacement 19" Sloping Ladder Tread	

Paraflyte Series

All Paragon Paraflyte lifeguard chairs have a platform height of 4'6", a seat height of 6'0" above the deck, and are supported by a stainless steel flanged pedestal which is set back 3'0" from the pool wall. The ladder at side is set back 3' 1 1/2" from the pool wall. Combination ladder risers and guard rails are .065" wall x 1.90" diameter, Type 304 stainless steel, polished to a 320 grit finish. All platforms (footboards) are constructed of laminated wood, coated with fiberglass and polyester resin and have a non-skid surface.

All permanent Paraflyte lifeguard chairs are furnished with pedestal, pedestal anchor, rear anchors, (where required) and escutcheon plates. All are furnished with holders for rescue tube and umbrella.

Paraflyte Club

Acclaimed Paraflyte styling and quality. A single anchor at pedestal base supports the entire chair. The vertical access ladder requires less deck space and does not need separate anchors. Platform is laminated wood coated with fiberglass and polyester resin.

Item Number	Description	Ship Weight
HH2100110	Paraflyte Club	175 lbs
HH2100510	Additional Pedestal Anchor	
HH4410110	Replacement 19" Vertical Ladder Tread	

Paraflyte Ladder at Rear

Recommended for general use. Ladder at rear with flared guard rails provides easy access to the platform. The horizontal rails provide protection and serve as arm rests.

Paraflyte Ladder at Sides

Two access ladders, one at each side, allow the lifeguard to dismount quickly and safely—from either side—when unable to plunge directly into the pool. Two guards can each stand in an elevated position for unbroken surveillance during guard change and relay of instructions.

Item Number	Description	Ship Weight
HH2000110	Ultraflyte (.145" wall) - Ladder-at-Rear	187 lbs
HH2000210	Superflyte (.065" wall) - Ladder-at-Rear	157 lbs
HH2100510	Additional Pedestal Anchor	
HH2810210	Additional Rear Anchor	
HH2830110	Additional Deluxe Escutcheon	
HP2071010	Replacement Footboard for 20001, 20002	
HH4410410	Replacement 19" Sloping Ladder Tread	

Item Number	Description	Ship Weight
HH2000310	Paraflyte Ladder-at-Sides	183 lbs
HH2100510	Additional Pedestal Anchor	
HH2810210	Additional Side Anchor	
HH2830110	Additional Deluxe Escutcheon	
HP2060510	Replacement Footboard for 20003	
HH4410410	Replacement 19" Sloping Ladder Tread	

Paraflyte OSHA Chair

Designed for usage that requires chairs to comply with federal OSHA regulations. Guard rails are 42" above the platform and extend to the front of the platform.

Item Number	Description	Ship Weight
HH2000410	OSHA Chair	192 lbs
HH2100510	Additional Pedestal Anchor	
HH2810210	Additional Rear Anchor	
HH2830110	Additional Deluxe Escutcheon	
HH4410410	Replacement 19" Sloping Ladder Tread	

Note: Seat on Paragon Lifeguard Chairs may differ from images shown in this catalog. It is the manufacturer's intention to equip all new guard stations with the cushioned lifeguard seat (#20705) pictured on page 49 of this catalog. Replacement legacy seats may be available while supplies last. Contact us for more information.

PARAGON GUARD CHAIRS

Griff's VISION Guard Station®

The lifeguard station has a patent-pending design that minimizes the footprint on the pool deck while maximizing the frontal edge. Side to side access will facilitate uninterrupted coverage of the pool during shift changes.

- Available in 3 models: (1-step, 2-step and 3-step)
- Accommodates most pool gutter profiles, including zero-depth entry
- Fold down cushioned seat provided
- Ships flat and assembles in minutes
- Provided with wheels and can be moved from the front or the rear

Item Number	Description
HH2034010	1-Step
HH2034110	2-Step
HH2034210	3-Step
HH4410710	Replacement 26" Vertical Ladder Tread

All Terrain Griff's Guard Station

The All Terrain Griff's Guard Station is super portable, easily tipped and rolled to a different location.

- Designed to work on most terrains to easily adapt to indoor and outdoor pools, waterparks, or beaches
- Large pneumatic wheels can be locked or are easily removable within seconds to help prevent vandalism loss
- Front and rear chair access allows for uninterrupted coverage of water by lifeguard during shift change
- Fold down cushioned seat provided
- Nonskid, vented decking surface
- Includes umbrella ring guide, umbrella/life ring holder, and appropriate warning labels

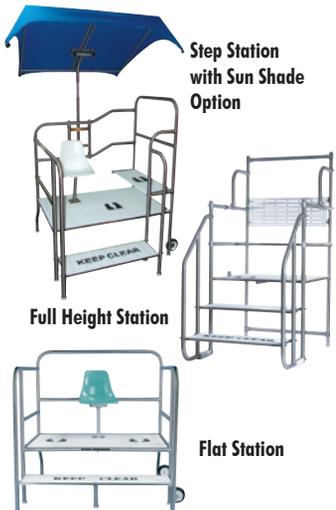

Item Number	Seat Height
HH2033010	4"
HH2033110	5"
HH2033210	6"
HH4410710	Replacement 26" Vertical Ladder Tread
HH4410910	Replacement 26" Sloping Ladder Tread

Griff's Guard Station

Griff's Guard Station helps to increase lifeguard effectiveness. Griff's Guard Station feature front entry, elevated viewing station, easy access, and non-skid surface. A wide front step provides additional station and brings the guard closer to the pool edge. Heavy duty wheels allow convenient, easy portability. Stainless steel and fiberglass construction assures long lasting and trouble-free service.

Advantages:

- Proven to decrease boredom while increasing attention and concentration, necessary for the safety of both swimmers and lifeguards
- Allows quicker, safer responses to emergencies.
- Promotes alertness without diverting attention from water
- Reduces chance of shoulder strap harness on the rescue tube "hanging" the lifeguard from a height
- Increases patrolling and communication with guests
- Encourages standing to add height to surveillance angle

Item Number	Description
HH2038510	Flat Station
HH2038610	Step Station
HH2038710	Full Height Station

H2O Innovations Portable Guard Station

H2O Innovations Portable Guard Station is the most convenient portable chair available. Transport wheels allow any guard to relocate the chair with ease. The unique chair is designed and intended to supplement larger permanent guard stations and helps promote the "5 Minute Scanning Strategy". Comes with standard black upholstery with embroidered "Guard" emblem and Guard Symbol in the chair back. The "standing" option on the H2O Innovations Portable Guard Station is a feature found only on much higher priced and bulkier alternatives.

Fluted PVC/aluminum reinforced frame is extremely durable, yet light. Standard wheel kit ensures that any guard can relocate the unit easily. All exposed surfaces are corrosion resistant. Exposed PVC surfaces are manufactured with UV protection for outdoor use. Canvas upholstery and 1" thick high density foam seat cushion keep guards comfortable, yet in an alert position. Nonskid surfaces on foot stool area. **One year warranty.**

Barrier Float

For use in assembling barrier/swim area systems. Continuous rope passes through buoy, no need for shackles. Solid high density polystyrene body coated with white marine enamel. Available with orange vinyl bands and "SWIM AREA" decal only. Dimensions: 12" x 36"

Utility Buoy

Designed to float upright with 35-40 lbs. of chain or equivalent weight. If more internal ballast is required, please advise. Full 12" diameter cylinder rises 40" plus above the water line for excellent visibility. The 13" diameter base assures complete stability. Closed-cell polyurethane foam extends 8" above the water line. Seamless outer shell. Features a 5/8" eye bolt at extreme bottom of the buoy. Specify vinyl daymark from list below.

Regulatory Buoy

Provides outstanding visibility with large 10" diameter cylinder rising 40" above the water line. The huge 19" diameter base assures maximum stability in the most turbulent waters. Built with rock hard outer shell for years of rugged service. Designed to float upright with 35-40 lbs of chain or equivalent weight. If more internal ballast is required please advise. Specify vinyl daymark from list below.

Vinyl Daymarks for DD425R08 and DD427R08

Guaranteed for 5 years against fading and weathering. Two (2) daymark sheets required per buoy.

Depth Marking and Messaging

Our informative tile series offers you an attractive and safe alternative for descriptive marking. Smooth tiles are for waterline applications. Skid-resistant tiles are for deck or gutter applications. These frost-resistant tiles are printed with ceramic glazed inks and kiln fired, making these the finest, most durable markers. For permanent deck markings, embed tiles directly in concrete. **Many more tiles and options are available.**

Please contact us to discuss your custom message tile needs.

Depth Markers

Depth Markings

Depth markers are 6" x 6" or 8" x 8" frostproof ceramic tiles or vinyl stick-ons. White with black lettering. Digits are 4" tall. Specify smooth or nonskid tile. Vinyl stick-ons are nonskid and require installation kit (above). Our new 4 1/4" x 5 1/2" plastic stick-ons adhere to stainless steel, vinyl and fiberglass. Simply peel and stick – no installation kit needed! Depth marker available with 0-14 FT and 1/2 increments. Metric tiles and tiles specifying inches are also available. Contact us if you need any assistance selecting the right tiles or stick-ons for the job.

Single Tile Messages

Single message tiles are 6" x 6" smooth or nonskid frostproof ceramic tiles or nonskid vinyl stick-ons. 8" x 8" nonskid ceramic tiles and vinyl stick-ons are also available. Tile is white with black message with the exception of the additional red circle with slash on symbols. Vinyl stick-ons require installation kit (above).

****Please specify:**

- 6" x 6" smooth tile (S6)
- 6" x 6" nonskid tile (N6)
- 6" x 6" vinyl stick-on (V6)
- 8" x 8" nonskid tile (N8)
- 8" x 8" vinyl stick-on (V8)
- 4 1/4" x 5 1/2" plastic stick-on (P4)

Tailwind Ultra Heavy Duty Signs

- Durable 3/4" thick plastic.
- Signs are made by engraving through outer layer of HDPE sheet plastic to expose contrasting color core, making these signs bright and highly visible.

- Hardware for mounting is not included. Holes are not drilled for mounting. This allows you to place the sign in its appropriate place as you see fit.
- Signs are available in all color options. Please select color when ordering.

PREMIER POLYSTEEL OUTDOOR FURNITURE

Outdoor Furniture by Premier Polysteel

Premier Polysteel is committed to customer satisfaction, quality, and safety! Recognizing the importance of having the best quality outdoor furniture, Premier Polysteel builds products that last a lifetime. Emphasis is put on the importance of careful and safe design. Only first-rate materials are used. You are sure to enjoy these products for years to come, and because these products are built to last, they come with a **20 year limited warranty**.

Premier Polysteel products are offered in twelve standard colors with custom colors available for larger orders. Premier Polysteel's **Quick Ship** program means that certain products are eligible to ship within 10 business days if ordered in **Blue, Hunter Green, Brown or Black**. Quick Ship items ordered in other colors can ship in 15 business days.

All Premier Polysteel steel products are 100% plastisol (PVC) coated – including the bench and picnic table legs! Powder coated frames tend to scratch, chip, and then rust easily after short exposure to the elements. This weakens the product and can stain the concrete or stone that it sits on. With totally plastic coated legs, this will not happen. The manufacturing process begins by using commercial-duty steel for each product built. Next, a thick 1/8+ inch protective coating of PVC is added. The resulting product is unequalled in strength and durability. Experience the difference a completely PVC coating will make on the longevity of your outdoor furniture. Wind, rain, salt, and snow are no match for Premier Polysteel. Rust and corrosion are never an issue because there is no exposed metal. In compliance with worldwide regulations, our PVC protective coating is UV stable, mold resistant, and can withstand direct heat up to 300 degrees.

Premier Polysteel Colors

Please specify color when ordering.

Premier Polysteel Surface Styles

Note: All listed prices reflect Expanded Metal surface style. Some products may not be available in all styles. Contact us for more information.

Surface Mount Kits

Small surface mount kits are for use with free-standing square and round tables. Large surface mount kits are for use with all free-standing benches and rectangular tables.

Item Number	Description
TTKITSMSM	Surface Mount Kit, Small (specify color)
TTKITSMLG	Surface Mount Kit, Large (specify color)

Benches

From parks to playgrounds, a Premier Polysteel maintenance free bench is the perfect addition to any landscape! The entire bench has a thick coating of UV stable, mold resistant plastisol compliant with worldwide standards. This means no rust and no painting! Ever! Choose from a variety of models that will beautifully transform your area into a place of enjoyment. Most expanded metal benches are eligible for the Quick Ship program.

Champion Park Benches

The Champion Park benches are available with a standard diamond shaped design in expanded metal and in perforated steel with a punched-hole design. This bench is available in 4 foot, 6 foot, 8 foot, and 10 foot lengths. The bench without back also can be ordered with a wall mount and additionally comes in a 15 foot length. The seat and back each have a depth of 10 inches.

Specify Seat and Leg colors and Mount Style: Free Standing (FS), Direct Bury (DB), Surface Mount (SM), or Wall Mount (WM).

PREMIER POLYSTEEL OUTDOOR FURNITURE

Picnic Tables

Premier Polysteel Champion picnic tables are second-to-none in durability and strength. From the completely PVC coated steel to the wide base design for optimum stability, they exceed all performance requirements. The commercial quality picnic tables are coated from top to bottom with a 3/8+ inch layer of PVC, providing a long-lasting, attractive addition to any location. Not only are they comfortable and easy to clean, but they are built to endure all climates. From desert sun to salty ocean air, your picnic table is built to last!

Champion Rectangle Tables

The design of the Champion rectangle style results in comfort which is partly due to the secure overall stability of the picnic table. Is everyone seated on the same side? No problem! These tables do not tip! The wide frame base makes this impossible. **Specify Top & Seats and Legs color.**

Westport Adirondack Chair

Proudly crafted in Pennsylvania, USA, the Westport combines the easy-care, zero maintenance benefits of resin with the durability and comfort found in more expensive materials. We do this by using MPC (Mineral Polymer Composite) -- a high grade polymer formula allowing us to make a superior product with a dramatic wood-like finish. Weighing in at a substantial 22 lbs, the Westport arrives completely assembled, stacks for off-season storage, and is tested to ASTM 1561B. Black Stainless Steel hardware.

Tailwind Outdoor Furniture

All furniture is manufactured from High-Density Polyethylene (HDPE 2), made from post-consumer and post-industrial milk containers and makes us proud to wear the recycled hat. Fade-resistant furniture that withstands any climate. Tailwind Furniture is backed by our **three-year commercial-use warranty**.

It's so sturdy and durable that you will never need to store it. Leave it outside year round—whether you live in the heat of the desert or in the extreme cold. Plus, all of the Tailwind Furniture is made with a UV inhibitor that resists fading. Your furniture will not rot or splinter or absorb moisture. It is unaffected by most corrosive substances. Assembly required.

FRANKFORD UMBRELLAS

FRANKFORD
exceptional shade

Monterey Fiberglass Market Umbrellas with Crank

This solid fiberglass market umbrella is manufactured using the most resilient materials available. The half-inch thick fiberglass ribs allow the frame to bend and flex easily in windy conditions, while the durable aluminum center pole, and maintenance-free resin and stainless-steel parts ensure this umbrella will provide years of worry-free shade. Choose from a heavy gauge pulley system, sturdy crank no-tilt, or industry-best crank auto tilt. Available in six sizes and seven beautiful frame finishes. **Specify fabric color and frame finish.**

Features:

- 316L stainless-steel crank handle and axle
- 1/2" fiberglass ribs for maximum strength
- 1 1/2" diameter center pole with a 1/8" aluminum wall thickness provides incredible strength and durability
- 4-layer fabric protection and closed stitching pocket
- Solid TPU Co-Polymer finial design
- Stainless-steel hardware throughout
- Mounting options include permanent, semi-permanent, and free-standing bases for installation on any surface
- **5 year canvas warranty**
- **2 year frame warranty**

Eclipse® Cantilever Umbrella

TT883E50

TT880E50

Eclipse® Cantilever Umbrella

This elegant and modern heavy-duty in-ground cantilever umbrella is the ultimate choice for outdoor living and entertaining in commercial environments. It combines style with strength, size, and durability. With its Infinity Tilt and 360° rotation, the Eclipse® provides complete shade flexibility. **Specify fabric color and frame finish.**

Features:

- Full 360° rotation and Infinity Tilt system
- Smooth-operating heavy-duty crank
- Mast and critical joints are extruded aluminum
- Engineered to withstand 35 MPH winds. Included wind stabilizer kit increases this by 5 MPH
- Maintenance free stainless steel hardware
- Multiple mounting options are available, either permanent or semi-permanent, for installation on any surface
- **5 year canvas warranty**
- **2 year frame warranty**

Nova Giant Umbrella

The Nova offers maximum shade and weather protection for commercial environments. Reinforced extruded aluminum ribs connect to an impressive 4-inch mast supporting a 9 oz. marine grade acrylic canopy. The Nova is exceptionally designed to withstand harsh conditions while being virtually maintenance free. A commercial grade telescopic crank allows you to completely close the umbrella without the burden of moving furniture underneath. Umbrellas comparable to the Nova in size and weight almost always require a permanent installation. The Nova is one of the only large shade structures in the industry with a semi-permanent and non-permanent mount available.

Features:

- Reinforced grommets and an durable woven nylon wrap prevent the fabric tearing from the frame
- Engineered to withstand 50-60 MPH winds
- Stainless steel hardware throughout
- Multiple mounting options are available, either permanent or semi-permanent, for installation on any surface
- **5 year canvas warranty**
- **2 year frame warranty**

FIBERBUILT UMBRELLAS & ACCESSORIES

Fiberbuilt Market Umbrella

This popular two piece pole is 1½" diameter with a .080" aluminum wall thickness and powder coated pole finishes. Can be used for both in-table and freestanding. Designed for commercial hospitality use at restaurants, hotel patios and condominium pools, these contract grade umbrellas provide years of durable service and a choice of fabrics and finishes. Single vent is standard; custom canopy styles are available. Pole is aluminum and available powder coated **White** or **Champagne (Bronze)**. Dozens of fabric colors are available. Current swatches may be viewed on our website, RecSupply.com.

Fiberbuilt 7½' Fiberglass-Ribbed Umbrella

Great for patio and poolside areas! Fiberglass support ribs are strong and resilient. They will not decay or lose shape. Instead of cowing to the wind, they bend and flex, absorbing gusts without breaking or disfiguring. Virtually unbreakable, our fiberglass-ribbed umbrellas last four to five times longer than traditional steel or wood ribbed umbrellas. Umbrella top is an open weave vinyl coated material that is easy to maintain and withstands harsh conditions. Umbrella includes heavy duty crank. Pole is aluminum and available anodized or powder coated White or Champagne. Diameter: 7½'.

Specify color: Burgundy, Red, Yellow, Forest Green, Teal, Pacific Blue, Navy Blue, Natural, Beige, Black.

LOCKERS

Single Tier Locker

The single tier locker is practical and widely used because it provides ample storage height for full-length garments. Each opening has a shelf 9" from top, one double-prong and three single-prong coat hooks. There are six 6" louvers on the top and bottom for ventilation. The padlock attachment is an integral part of the handle.

Listed below is one section, three frames wide, (three locker openings).

Available colors are Dove Gray and Putty. Built-in keys or combination locks, padlocks and/or number plates are available for an additional charge.

Item Number	W	D	H*	Openings
LL5002350	12"	12"	60"	3
LL5112350	12"	12"	72"	3
LL5032350	12"	15"	72"	3

*Add 6" to overall height for legs if desired.

Double Tier Locker

Double tier lockers save valuable floor space and money. They are specifically designed for short period occupancy or where short coats and jackets are worn. The double tier lockers have the same quality heavy duty construction as the single tier lockers. Features of the double tier include one double-prong and three single-prong coat hooks, six 6" louvers on the top and bottom for ventilation. The padlock attachment is an integral part of the handle.

Listed below is one double tier locker section, three frames wide (six locker openings).

Available colors are Dove Grey and Putty. Built-in keys or combination locks, padlocks and/or number plates are available for an additional charge.

Remcon Plastic Lockers

The smart choice with a smart look!

Why Remcon Plastic Lockers are the smart choice:

- Easy to install - units come fully assembled
- Easy to clean - simply hose down with soap and water
- Easy to maintain - there is never a need to paint or rust proof, making them maintenance free
- Durable - double wall constructed lockers will never dent, nor scratch, unlike metal
- Quiet - no loud banging like metal lockers.
- Space maximizing - coordinate various sizes to maximize space
- Colors - a variety of colors are available, **Gray** is the standard stocked color. Other colors subject to color setup fee. Contact us for details

Drain holes are standard. Typical installations are in 72" stacks. **Priced per single locker.**

Remcon XL Plastic Lockers

- Wider, deeper cabinet with 50% more volume than standard Remcon plastic lockers
- Seamless, rotationally molded, double walled units for dent resistance and durability
- Reinforced interior hinged door with four vents to maximize fresh air flow through
- New, huskier latch molded right in for improved security and more accurate tab alignment
- Tighter tolerances for smoother installation and trouble free operation
- Maintenance free materials and washable design with drain holes for easy sanitation
- Aluminum ID door plate for engraving
- An especially smart choice for damp areas like athletic facilities
- Colors - a variety of colors are available. **Gray** is the standard stocked color. Other colors subject to color setup fee. Contact us for details.

Aquamax™ Solid Plastic Lockers

Aquamax Solid Plastic Lockers are Ideal for applications where high humidity, moisture and water are present. Plastic lockers are fabricated from solid high density polyethylene panels (HDPE) for maximum strength and durability while providing corrosion resistance to most common chemicals.

Advantages:

- Scratch resistant
- Corrosion resistant
- Impact and dent resistant
- Easy to clean
- Mildew and odor resistant
- Graffiti resistant (pencil, pen, paint and most common markers)
- Chemical resistant

Features:

- **BODY CONSTRUCTION:** Corrosion-Proof High Density Polyethylene (HDPE), with 3/8" thick body panels
- **BODY STYLES:** Single, double, triple, six tier and z-tier
- **HINGES:** heavy-duty continuous full height extruded aluminum with a powder-coat finish to match color of door
- **HANDLE (Wardrobe):** Projecting solid plastic handle with lift-type latching
- **HANDLE (Box):** Single-point thru-the-door projecting friction catch door pull with padlock hasp
- **SHELVES:** Hat shelf is included in single tier lockers.
- **HOOKS:** 2 single-prong hooks in single and double tier lockers.

Lockers are 12" wide and 18" deep. Available opening height options are 12", 24", 36" and 72". Lockers are also available in a Figure-Z configuration creating two lockers with each having a 48"-height side and a 24" height side.

Versamax™ Phenolic Lockers

VersaMax Phenolic Lockers are the most durable lockers available. The unique non-porous surface of phenolic material eliminates the ability for mold, mildew and bacteria to grow making these lockers ideal for wet or damp areas. In addition to this primary benefit, the surface of VersaMax Phenolic Lockers is also waterproof and graffiti and scratch resistant.

Features:

- Phenolic construction
- Sides and backs are 5/16" thick. Tops, bottoms and shelves are 3/8" thick
- Doors are 1/2" thick
- Frameless design maximizes clear opening
- Phenolic's unique non-porous surface eliminates the ability for mold, bacteria and mildew to grow making it ideal for wet areas
- Graffiti resistant, water resistant and easy to clean. Prepared for padlock (not included), electronic lock, or key lock (included)
- Color: Figured Annigre
- **20-year warranty**

Available with three different lock choices: Padlock Ready, Electronic Lock, and Key Cam Lock. Lockers are 12" wide and 18" deep. Available opening height options are 12", 36" and 72". Lockers are also available in a Figure-Z configuration creating two lockers with each having a 42"-height side and a 30" height side.

SUITMATE® Swimsuit Water Extractor

Nearly 40 years ago, Extractor Corporation introduced the revolutionary SUITMATE Swimsuit Water Extractor, designed to efficiently remove 95 percent of water from wet swimsuits in just eight seconds. Today, the SUITMATE unit serves a diverse range of aquatic facilities, from high-end spas and hotels, to fitness clubs and public pools. Constructed from 304-series, medical-grade stainless steel, the unit is durable and performs well in high moisture environments. Each unit is manufactured in the USA by Extractor Corporation and includes a high-speed spin process with manual self-start and stop features, allowing for safe operation without heat.

Specifications:

- Dimensions: 15" × 15" × 23"
- Ship Weight: 65 lbs
- 115 V/ 60Hz Unit

Features:

- Removes 95% of water from a wet suit in 8 seconds
- Improved guest experience
- Minimal power consumption
- Dedicated technical support
- Reduces slip hazards

- UL, CUL, and SASA safety certifications

SUITMATE Select Custom Case Wrap

Whether you want your SUITMATE unit to blend in or stand out - we've got you covered. Show your team spirit by wrapping your SUITMATE unit in your team logo or school colors. Or seamlessly blend your SUITMATE Swimsuit Water Extractor into your environment by selecting a solid color or designer pattern of your choosing. Let your creativity flow - your custom wrapped SUITMATE unit can promote your brand, reinforce your company's message, or it can even inspire your team or patrons.

Each SUITMATE Select custom unit is wrapped with a double layer premium vinyl. The digitally printed design is protected with a transparent overlamine. The combination of these two materials provides long-lasting durability.

Additional benefits:

- Each wrap is professionally applied in one seamless piece, protecting against peeling or tears
- The overlamine layer gives your design a glossy finish and excellent clarity
- The colors, patterns and designs are endless

Your Brand. Your Team. Your Colors. Your Design. It's Your SUITMATE!

BENCHES & BLEACHERS

Tip N' Roll Bleacher

National Recreation Systems "Tip N' Roll" bleachers tip and roll away for easy storage and are the ideal solution to your auxiliary seating needs. This bleacher is easily tipped up onto its swivel casters for movement, and caster brakes keep the bleacher from rolling when stored. All "Tip N' Roll" bleachers include non-marring rubber foot pads to protect wood floors. The aluminum understructure (frame) reduces weight for easier lifting.

Features:

- Aluminum angle understructure 8" rise/row
- 2" x 10" aluminum seat plank
- 5" casters with non-marring wheels
- Non-marring rubber footpads

Standard Tip N' Roll - bleachers include one 2" x 10' foot plank

Preferred Tip N' Roll bleachers - include two 2" x 10' foot planks

Anodized poolside versions with stainless steel hardware, painted seats/footboards/framing, and 4-row options are available. Contact us for pricing and availability information.

Note: Buyer is responsible for compliance with local building codes and regulations.

SWIM TRAINING PLATFORMS

Aqua Creek Swim Training Platform

Young swimming students are more eager and less afraid of the water when the depth of the pool is less intimidating. This light-weight training platform features a durable, non-slip polypropylene deck with UV inhibitors making it an ideal solution for both indoor and outdoor pools.

The Platform also features adjustable height legs from 16" to 21" on a corrosion resistant PVC frame with removable rails making it usable in almost any application. Maximum weight capacity is 300 lbs. Multiple units can be joined together to make larger platforms. Extremely durable construction will last many years.

Shipping Weight: 96 lbs

Platform Dimensions: 36" x 60"

SS200

SS150

SS150/SS200 Swim Station

Our economical versions of the popular Swim Station, the SS150 and SS200, are incredibly strong, lightweight, versatile, and easy on your budget. They have been designed to vastly outperform similar teaching platforms.

- Durable – its fluted construction grade PVC with aluminum subframe brings exceptional durability and stability
- Adjustable – simply flip the platform over to provide a different teaching height
- Non-Skid – exclusive textured plastic surface provides sure footing for young swimmers

Dimensions:

SS150: 47" L x 27" W x 29" H

SS200: 54" L x 32" W x 42" H (14"/20" platform height)

Nordesco Multi-Grip Disk

Trying to teach children can be a challenge at times. We have designed a product that will allow children to have fun and learn at the same time. Our multi-grip disk allows you to have kids compete against each other by grabbing on the multi-grip disk and practice pushing. It is also a practical tool in swimming courses because it allows the child to practice his/her swim kicks. Made from high density EVA foam, it is comfortable to use and durable.

Dimensions: 37" x 37" x 1 1/2"

NORDESCO DELUXE FLOATS

Splash Bike

The Splash Bike is a new vehicle sure to add fun for your pool. Designed with a low gravity center and large wheels to ensure great stability, children can mount this aquatic motor bike without difficulty. Kids will ride around the pool using the ecologic "kicking power". Manufactured from the highest quality EVA foam on the market, you will be able to enjoy this foam toy for years. **Colors may vary and assembly may be required.**

Item Number	Description	Dimensions
000207550	Splash Bike	52" L x 38" W x 20" H

Serpano

The Serpano will amuse and delight everyone! Made to accommodate several children at the same time, you can move its head and tail from side to side imitating the movement of a snake. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! **Colors may vary and assembly may be required.**

Item Number	Description	Dimensions
001020750	Serpano	11-1/2' x 20"

36" Bowl

Great fun and challenging if used as a small boat because you have to learn how to paddle to get from point A to B without just spinning in circles. Designed to be spun around in free swim and can also be used as a small gathering place for tots during lessons. Manufactured from the highest quality EVA foam on the market. **Colors may vary and assembly may be required.**

Item Number	Description	Ships Via	Dimensions
000145250	Super Bowl	UPS	36" round

Canoe

Kids can imagine being in the great outdoors while they paddle along in the Canoe! Made to accommodate 1 to 2 children at the same time, it is a great tool in developing coordination and balance in the water. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Two paddles are included with the canoe. **Colors may vary and assembly may be required.**

Item Number	Description	Dimensions
001021050	Canoe	76" x 26"

Airplane

The Airplane will allow kids to use and develop their imagination. Made to accommodate several children at the same time, you can sit on its wings and tail and by kicking your feet, power the airplane to move in the water. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! **Colors may vary and assembly may be required.**

Item Number	Description	Dimensions
001020950	Airplane	63" L x 58" W

Car

A unique toy that brings life to the pool! The kids drive around the pool by using their kicking feet to "power" the car. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! Actual product may vary from model shown. **Colors may vary and assembly may be required.**

Item Number	Description	Dimensions
001020650	Car	58-3/4" L x 32-1/2" W

Mini-Boat

The Mini-Boat is one of the most popular foam toys. Made to accommodate up to 6 children at the same time, this foam toy can be used with the deluxe sea serpents as oars, allowing you to move about the pool. It is a great tool in developing coordination and balance in the water, or in teaching boat safety to the kids. Manufactured from the highest quality EVA foam on the market, this foam toy will be enjoyed for years to come! **Colors may vary and assembly may be required.**

Kemp Kickboard

This EVA foam kickboard won't chip, break or absorb water. The smaller size kickboard provides less flotation support and promotes kick by preventing swimmers from lying on the board as a crutch while practicing their kick. Highly recommended for swim teams and is an excellent training aid. The larger size kickboard gives the swimmer more flotation support while helping to improve kick. This kickboard is recommended for recreational swimmers.

- Handhold Style Dimensions: 16½" x 12¼" x 1½"

Kemp USA Color Coded Water Aerobic Belt

The Kemp USA Pro Color-Coded Water Aerobic Belt is color-coded by size for ease of finding your belt size during water aerobics classes. This belt is manufactured out of special EVA foam designed to withstand chlorinated water. Most belts wear out at the attachment of the nylon belt to the foam but we reinforce ours with plastic couplings. This newly designed belt also engages the core muscles due to its unique shape. It's still slim enough to keep you afloat and not hamper arm movement.

Item Number	Size	Color	Recommended Weight

Pool Shot Super Water Volley

The Super Water Volley deluxe game system is the essential volleyball game for municipal pools, community centers, YMCAs, health clubs, luxury resorts, cruise ships and other commercial and residential locations that demand continuous action, non-stop performance and no-nonsense safety features. Dual, high capacity, rugged plastic bases each hold up to 50 gallons of water (or sand) to create stable platforms that virtually anchor to the deck. Neither ferocious spikes nor lunging blocks into the net can move these bases.

- Rotomolded of rugged UV-resistant polyethylene
- Rugged high-capacity bases hold 50 gallons of water weighing over 400 pounds each
- The heavy duty all weather nylon volleyball net is 20' wide and will work with pools up to 30' wide
- Each volley net support stem easily slides into each base and has two (2) molded-in beverage holders per side
- Super Water Volley includes stainless steel mounting hardware and two volleyballs
- Easy-to-follow, illustrated quick-assembly instructions
- Made in the USA
- **One year warranty**

Aquaworx® Interactive Water Features

These colorful attractions are great for theme parks, waterparks, zoos, hotels, resorts, public pools, YMCA/rec centers, playgrounds, and more, ensuring not just the kids, but adults are having fun too! Stand-alone spray features create an interactive play experience for kids of all ages. All AquaWorx interactive water feature systems, also known throughout the industry as 'IWF systems,' are made of highly-durable stainless steel that is powder-coated with a variety of different colors. We also add colorful fiberglass integral parts to our systems that have resistant UV gel coat, providing strong resistance to chlorinated water (preventing chalking), heavy rain, and UV degradation. Many additional features are available online. Contact us for details.

WATER SLIDES & LANDING PADS

S.R. Smith Vortex® Slides

Big Time, fun slide! The Vortex slide from S. R. Smith has a high-volume water delivery system. This heavy-duty slide will accommodate up to 325 pounds. The flume is available in **Blue and Gray Granite**, with a primed base. Choose ladder or staircase designs to customize to fit your application. The Vortex fully conforms to the Consumer Product Safety Commission Safety Standard for Swimming Pool Slides (Part 16 CFR 1207).

- 10' 7" height (7' 6" to seat)
- 19' corkscrew runway
- Available with ladder or spiral staircase
- Accommodates sliders up to 325 lbs/147kg
- Sturdy rotomolded construction for strength and durability
- 30 gpm max. water delivery system can be plumbed through the pool's return line
- Intended for use on in-ground swimming pools only
- Fully enclosed or ½(open) tube styles

Softside™ Safety Pads

Designed specifically for aquatic applications. Used under slide flumes, spray features, and diving boards. Durable PVC covered-safety foam padding system meets all CPSC guidelines and complies with fall-zone regulations. Foam is totally watertight and is formulated with biocides to resist mold and algae growth. Can be installed underwater or above waterline, either indoors or outdoors. Very easy to maintain. For existing facilities, padding is "tapered on grade" and for new facilities, padding is "flush with grade". Includes mounting hardware. Padding material is colorfast and UV-stabilized to resist fading. Colors: white, light blue, Caribbean blue, or French blue. Available in 1/2" to 4" thick, with custom texture options. **2 Year Warranty.**

SlidePad® and EdgePad®

Chlorine-Resistant Aquatic Landing Pads

Aquatic landing pads made of PVC pool liner remnants bonded to individual layers of foam, secured to a plastic backing plate and bolted to the pool floor is OLD TECHNOLOGY.

Drilling holes and installing bolts in the pool floor increases the probability of water leaks, surface cracks and creates a safety hazard. These traditional landing pads haven't kept pace with the ever-changing demands brought about by salt, bromine and super chlorination water chemistries. Additionally, interactive water features and innovative water slide designs require safer and softer landing surfaces.

AquaticPads™ has "re-engineered" the aquatic landing pad. They have eliminated the need to drill holes and install bolts. SlidePad and EdgePad are glued down to the pool floor with the strongest waterproof glue on the planet! They have enhanced the safety aspects and softness of the landing surface by featuring a top landing surface from Life Floor, the #1 aquatic flooring in the industry. Their proprietary RIPPLE texture landing surface provides a slip-resistant surface that is NSF/ANSI/CAN 50 rated and meets critical fall height requirements. **2-year warranty.** Life Floor® Color: Bluebird.

SLIDERENU WATER SLIDE MAINTENANCE

Calcitrol™

- Low-PH concentrated ready-to-use formula removes calcium and hard water mineral deposits (white haze)
- Prepares your slide for waxing, joint repairs or resurfacing
- Environmental and worker safe organic salt formula that is stronger than most surface damaging acids

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR33150	Gallon	1,000	Monthly

SlideDetergent™

- High-pH water-based technology that dissolves hard-to-remove surface contaminant
- Extremely effective in dissolving dirt, leaf stains, body-grime, water shoe marks and other unwanted surface residue
- Biodegradable - no VOC's, petroleum solvents, bleach or ammonia

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR22150	Gallon	1,500	Monthly

SlideSoap™

- Removes dirt, grime and stains from any slide surface
- Used regularly, prevents build-up of surface contaminants and soluble salts
- Biodegradable, worker safe, no VOC's - does not change the pH of pool water

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR11150	Gallon	10,000	Weekly

SlideArmor™

- Synthetic film-forming protective sealant that bonds to the slide's surface
- A single application is guaranteed to last an entire season
- Use to winterize slide to protect from harsh elements

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR77150	Gallon	1,000	Semi Annually

SlidePrep™ SlideWax Remover

- Removes a variety of waxes and surface contaminants
- Fast-acting formula
- Rinses clean - no white residue or film
- Stronger and safer than acid cleaners

Item Number	Size
CCSR67150	Gallon

StairBrite™ Stair Brightener

- Brightens aluminum stair treads without tedious scrubbing
- Easy to use spray-on/rinse-off mild etching cleaner
- Deep penetrating foaming formula removes oxidation, dirt, grime and hard-to-remove surface contaminants
- Keeps stair treads looking like new the entire season

Item Number	Size
CCSR71150	Gallon

SlideCompound™

- Water-based polishing oxidation remover/polishing compound
- One gallon will typically polish 2,000 sq ft
- Should be used prior to opening day and immediately after the water slide is shut down for the season
- For maximum protection, apply SlideWax™ on top of SlideCompound

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR44150	Gallon	2,000	Quarterly

SlideWax™

- Unique nanotechnology polymer wax sealant that revives dull slide surfaces
- One application lasts the whole season
- Outperforms carnauba, car and marine waxes
- Reconditions dry oxidized surfaces

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR66150	Gallon	2,000	Quarterly

SlideGloss™

- Easy to apply sprayable wax requires no buffing; wipe on and wipe off
- Unique wetting agents produce a bright wet-look shine that lasts
- Can be applied anytime your slides are in need of a quick "face lift"
- Improves "slip-n-shine"

Item Number	Size	Treats (sq ft/gal)	Recommended Use
CCSR55150	Gallon	4,000	Weekly/As Needed

AquaSeal™ Liquid Water Slide Wax

- Quickest "Wet look shine" to dull color faded fiberglass water slides
- No buffing required
- Reduces slide wax and polish time by 50%
- Provides a protective barrier against scale build-up
- Safe for fiberglass, metal, plastic, soft foam and many other aquatic structures

Item Number	Size
CCSR99150	Gallon

SlideCaulk™ Water Resistant Sealer

SlideCaulk Water Resistant Sealer is a fast curing, one-part polyurethane that chemically reacts with moisture to deliver strong, flexible bonds with excellent adhesion to wood and fiberglass. Forms watertight, weather-resistant seals on joints and hardware above and below the waterline. In addition, its flexibility allows for dissipation of stress caused by shock, vibration, swelling or shrinking.

Item Number	Size
CCSR01150	10 oz

SlidePutty™ Polyester Glazing Putty

Polyester glazing putty fills minor surface imperfections on fiberglass water slides. Use to repair gouges, scratches, spider-cracks and surface blemishes without the use of a mesh cloth. No shrinkage, fast drying and may be sanded/painted after one hour.

Item Number	Size
CCSR11050	Quart

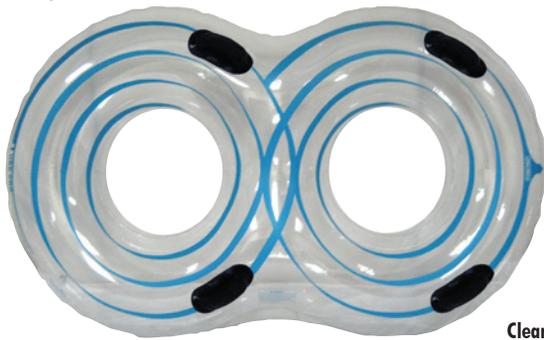

TUBE PRO WATERPARK TUBES

Transparent Blue

Opaque Blue

Clear

Heavy-Duty Support Handles
and Overlapped Seams

Tube Pro™ Waterpark Tubes

Our rugged Tube Pro commercial vinyl waterpark tubes are manufactured from heavy-duty colored 30 gauge PVC or clear 24 gauge PVC with double welded vinyl seams. The PVC is fade resistant and built for long life. Large rider support handles include finger grooves for better grip and are ergonomically positioned for a comfortable ride. Available in single and multi-rider models. All tubes feature a single main air chamber with a small push-in valve. Inner hole diameter is 16". Sizes listed are **deflated** sizes (for approximate inflated sizes, subtract 4" from each dimension). Two repair patches included with each unit.

Minimum order is 12 tubes. Sizes and colors may be mixed and matched to meet the minimum.

Item Number	Clear 24 Gauge PVC Vinyl Tubes
OOTP38CL	42" Single Clear

OOTP44TB	48" Single Transparent Blue
OOTP38DTB	66" x 42" Double Transparent Blue
OOTP44DTB	76" x 48" Double Transparent Blue

Tube Pro Premium Waterpark Tubes

With Smooth Overlap Seams

These tubes feature the same rugged Tube Pro commercial vinyl material, but are manufactured with smooth overlapped inner and outer vinyl seams. With welded overlapped seams, your park will not only experience increased rider comfort while seated in the tube, but also increased tube longevity. The exterior pinch welded seam on standard waterpark tubes is the most problematic area for tube abrasion. The smooth exterior overlap of our premium line prevents exterior seam leakage, maximizing tube life. Tube Pro overlap seam tubes are also outfitted with a larger 3/4" quick inflation/deflation safety valve that is recessed and a tamper resistant with a tightening slot. Inner hole diameter is 16". Sizes listed are **deflated** sizes (for approximate inflated sizes, subtract 4" from each dimension). Two repair patches included with each unit.

Minimum order is 12 tubes. Sizes and colors may be mixed and matched to meet the minimum.

Item Number	Clear 24 Gauge PVC Vinyl Tubes
OOTP4HCL	48" Single Clear
OOTP4HDCL	76" x 48" Double Clear

OOTP4HDTB	76" x 48" Double Transparent Blue

TUBE PRO WATERPARK TUBES & RAFTS

Quad Tube

- 76" x 76" inflated O.D.
- 15" inner diameter open holes.
- 40 gauge K80 PVC
- ¾" quick-inflate tamper-resistant valve

Item Number	Seam Type
OOTP761BL	Standard Seam
OOTP762BL	Premium Overlap Seam

33" Lily Pad Tubes with Cover

Tube Pro Lily Pad Tubes with Covers

Tube Pro Lily Pad custom inner tubes and coverings feature a center tie system to align and secure to pool bottom offering an economical solution to traditional foam molded lily pad walm.

Our waterpark padding is made from our custom PVC closed cell foam which is great for impact absorption and is 100% waterproof. Pad covers are made in a multitude of bright colors for maximum visibility. The 1000 denier PVC coated fabric will look great for years of outdoor exposure and is sure to withstand repeated abrasion.

Minimum order is 4 tubes with covers.

Item Number	Description
OOTPPD350	33" Lily Pad with Cover (approx. 27" diameter inflated)
OOTPPD450	44" Lily Pad with Cover (approx. 41" diameter inflated)

Adjustable Tube Seat

- Great for adaptive needs use
- 600 denier polyester canvas
- Internal closed-cell waterproof foam core
- Four adjustable Velcro straps with plastic buckle
- Fits the 42" and 48" Tube Pro Waterpark Single Tubes shown on this page

Minimum order is 6 tube seats.

Item Number	Color
OOTP600BL	Reversible (Blue/Red)

U-Float Tube

- Single rider
- 44" inflated dimensions
- Smooth overlap seams
- Reinforced sling support seat
- Single main air chamber with recessed safety valve
- Two large rider support handles
- Clear 30 gauge K80 PVC vinyl

Item Number	Description
OOTPUFLCL	Heavy-Duty Vinyl Float Tube with Sling Seat

Tube Pro Waterpark Mat Sliders and Racers

Custom sizes and colors available with appropriate lead times and quantities. Single Rider, 1" closed cell cross-link polyethylene foam. Color: Blue **Minimum order is 10 mats.**

Mat Sliders:

- 54" x 22" (135 cm x 9 cm) assembled size

Mat Racers:

- High-density polyethylene handles & snaps
- No slip vibration-reducing honeycomb hand grips
- Left/right handle plate mounts through foam
- Racer dimensions: 54" x 22" (135 cm x 9 cm)
- Racer XL dimensions: 62" x 22" (157 cm x 55 cm)

Mat Racers are available assembled for an extra charge.

Item Number	Description
OOTPMATBL	Polyethylene Foam Slide Mat, 54" x 22"
OOTPM54BL	Polyethylene Foam Racer Slide Mat, 54" x 22"
OOTPM62BL	Polyethylene Foam Racer XL Slide Mat, 62" x 22"

OOTPA62BL	Polyethylene Foam Racer XL Slide Mat, 62" x 22", Assembled

Tube Pro Waterpark Rafts

Tube Pro Rafts are constructed from superior heavy-duty whitewater rafting PVC tarpaulin material. Our higher sidewalls further protect against abrasion when banking on serpentine corners. Having a solid black bottom ensures the rafts will be detected by sensor gates at the start of the slide.

Two inch thick buoyant closed-cell waterproof foam is enclosed in the reinforced raft bottom floor. The waterproof foam core helps cushions bumps when traveling down the slide, in addition to stabilizing the raft during sudden plunges in slide pitch. The self-bailing raft floor fosters stability and allows users to experience the sensations of getting wet! Eight to sixteen upper and lower heavy-duty sewn webbing support handles allow for multiple gripping locations making it easy for all sizes of riders to secure their seating position.

The reinforced higher black sidewalls further protect against abrasion when banking on serpentine corners. Having an all black bottom ensures the rafts will be detected by your sensor gates at the start of the slide.

- Raft top material - 31 oz 1000 denier reinforced PVC
- Raft bottom material - 40 oz heavy duty 1000 denier reinforced PVC
- 2" closed-cell waterproof foam floor
- H3 raft inflation valve - for quick inflation/deflation
- Full higher black underside of raft for extra abrasion protection
- Self bailing cut out in rafts bottom for water circulation
- Extra circle repair patches & urethane glue included

AQUAGLIDE INFLATABLE AQUAPARKS

Aquaglide™ Inflatable Aquapark Structures

Aquaglide Aquapark products are designed for the long-term durability demands of commercial, resort, and camp use. Each design is vetted and third-party tested to meet the highest quality and product safety standards, then continuously refined by using feedback from our global customer network. Aquaglide inflatable structures can be used as standalone features or combined with other Aquapark features to create the ultimate water playground.

We offer pre-configured park designs to choose from, each with several capacity options. Or, if you're looking for a fully custom configuration, we will provide professional consultation to design your dream park.

All Aquaglide park components feature innovative technology including drop-stitch on every connection, our patented velcro-free Vario Lock System™, and premium CX3 4P 31 oz. fabric. Our aquapark features are built to last and are sure to stand the test of time. These patented technologies paired with our comprehensive design and production system has earned us ISO/EN Certification on all of our products. 3 Year Limited Warranty against any manufacturing defects.

Aquapark Configurations

Aquaglide's preconfigured aquaparks take the guesswork out of layout planning. Designed by our in-house experts, each series is purpose-built for specific environments, age groups, and operating styles. Whether you're launching a brand-new waterfront attraction or expanding an existing one, our ready-to-go layouts are tested, optimized, and ready to deploy.

Choose from a variety of configuration styles to match your space and goals—from compact setups designed for camps or small marinas to sprawling looped systems built for high-capacity resort traffic. Every park features our commercial-grade construction, patented connection systems, and exclusive technologies like the Monsoon Spray System, Trickler System, Infinite Boarding System, and TRIB solar-powered pressure gauges.

Ring Series

- Optimized for crowd flow and large group management
- High play value pathways keep users engaged at every turn
- Easy to scale up with minimal reconfiguration

Circuit Series

- Balanced mix of movement and destination features
- Designed to flex with high and low volume days
- Easily scalable as your business grows

Serpentine Series

- Unique, flowing designs stand out from traditional layouts
- Encourages exploration with continuous track configuration
- Appeals to a wide range of ages and ability levels

Micro Series

- Compact, budget-friendly designs with high play value
- Emphasizes core features over expansive layout
- Easy to install, manage, and staff

Challenge Tracks

- Fast-paced fun with obstacle-course appeal
- Great for races, events, and active programming
- Scalable options for both pool and open water use

POOLSIDE ADVENTURES CLIMBING WALLS

Poolside Adventures® Aquatic Recreation Equipment

The safer alternative to diving boards! Our products from Poolside Adventures attract new visitors and serve many different types of users. An easy addition to your pool, you will drive demand from guests of all ages and increase your facility's "wow factor" to bring in new patrons. Join the thousands of aquatic facilities, waterparks, camps, country clubs and homes around the country that have added our fun features to their pool.

AquaClimb Krystal

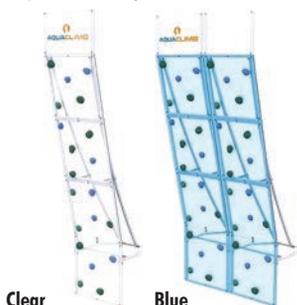

AquaClimb® Krystal Poolside Climbing Wall

The ORIGINAL poolside climbing wall. Modular, customizable, and fun! Available in translucent Clear or Blue.

- Full modular system
- 3 height options, 2 panel widths & unlimited panel sections.
- One standard design that fits all climbing surface panel options
- 304L stainless steel with epoxy coating for wipe clean surfaces
- Design wind load testing to withstand 100 MPH
- 300 pounds limit per each vertical section
- Minimum water depth starting at 5 feet
- Pre-assembled full height units delivered ready for installation

AquaClimb LUXE

AquaClimb LUXE Poolside Climbing Wall

Elevate your poolside experience with the AquaClimb Luxe, the premium climbing wall that combines innovation, adventure, and sophistication. Each Luxe model is expertly tailored to complement your unique pool design and aesthetic preferences. Engineered for versatility, the Luxe can be mounted to a concrete pool wall or deck, offering seamless, turn-key solutions from concept to installation. Add a touch of bespoke luxury and adventurous elegance to your pool with AquaClimb Luxe.

- Full modular system with 3D contour panels in UV and chlorine resistant polycarbonate panels
- Available pool wall mount option to free up deck space
- Customized to accommodate pool design and facility aesthetics
- 316L stainless steel with epoxy coating for wipe clean surfaces
- Design wind load testing to withstand 100 MPH
- 300 pounds limit per each vertical section
- Ideal for water depths of 6-10 feet or greater
- Turn-key solutions from concept to installation
- Options up to 6 meters (nearly 20') of climbing height available

HH6574098	AquaClimb LUXE Poolside Climbing Wall

AquaClimb LUXE with wall mount

AquaZip'N® Zip Line with Rope Swing

The AquaZip'N is an exhilarating poolside attraction, combining the thrill of an adventure zipline with rope swinging. Participants of every age launch into the pool with a big splash! The design of the AquaZip'N allows for clean entry into the water and eliminates swing back through its arching frame. AquaZip'N has a proprietary self-retracting trolley making it easy to operate and allowing for high-throughput. No water source is needed and makes it an easy addition to install on the pool deck.

- Proprietary self-retracting trolley
- Arching frame with termination point over water
- 304L stainless steel with powder coating for wipe clean surfaces
- Design load testing to withstand 100 MPH wind loads
- Weight limit 250 pounds
- Ideal for water depths starting at 4 feet

Item Number	Description
HH6650098	AquaZip'N Zip Line with Rope Swing

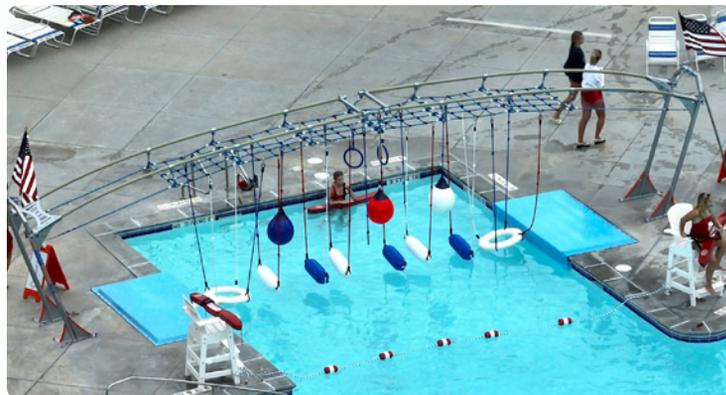

AquaNinja® FLX Aquatic Obstacle Courses

The AquaNinja FLX takes all of the excitement of a traditional Ninja Warrior course and brings it to your pool facility! With obstacles suspended at the water line and high above it, the AquaNinja FLX levels the playing field for kids, teens, and adults alike, creating a unique aquatic challenge like no other.

- Fully modular system
- Ideal for spans from 16' to 44' of water in 4' increments
- Steel core netting 'matrix' over water
- Color choices available for net (Red, Blue, Green, Black, Tan)
- 304L stainless steel support structure — powder coating for wipe clean surfaces (any color)
- Design load testing to withstand 100 MPH wind loads
- 10 - Multiple 'Clip on - Clip off' Challenge Elements available
- Ideal for water depths starting at ONLY 3.5 feet
- Pre-fabricated system designed for easy installation in a day — no heavy lifting equipment required

Otter Swimming Scoreboards

OTTER electronic scoreboards for track and swimming feature integrated 2.4GHz wireless technology and are about half the width of standard LED-R electronic scoreboards, making them an ideal solution for tight spaces or as an auxiliary electronic scoreboard within your facility.

This sleek design offers wired or wireless communication with your CTS timing console, and wireless communication with your Dolphin and RoadRunner Track Wireless Timing Systems. Otter electronic scoreboards can be used as a permanent or portable solution depending on your needs. Weather-proof digits and electronics are housed in a powder-coated aluminum chassis, which provides excellent corrosion resistance. Each scoreboard is shipped as one piece for ease of handling and installation.

Features:

- 2.4GHz wireless scoring for 6-, 8-, or 10-lanes
- Indoor or outdoor use
- High visibility 5" LED digits
- Conformal coated digits and circuit board to protect against corrosion
- Brightness adjusts automatically to ambient light
- Integrated internal antennas for reliable communication with System 6 wireless adapter and Dolphin
- Permanent wall mount or caddy

Enclosure Colors:

Item Number	Description	Dimensions (H x W x D)
MMS014950	Swimming Scoreboard, 6-Lane	4'-8" x 4'-0" x 4-1/4"
MMS015050	Swimming Scoreboard, 8-Lane	5'-10" x 4'-0" x 4-1/4"
MMS015150	Swimming Scoreboard, 10-Lane	7'-0" x 4'-0" x 4-1/4"
MMM2150	Wall Mount for Scoreboard	
MMM2350	Corner Mount for Scoreboard	

Mini LED Scoreboards

Mini scoreboards are an ideal solution for facilities requiring portability, or that are tight on space. The mini LED scoreboard line provides the best of both worlds. It provides the same information as two lines of LED-R at one quarter of the size.

- Lightweight and portable
- Includes legs and handle for easy portability
- Tripod mount
- Optional battery operation

Item Number	Description
MM010150	Mini Scoreboard, 2-Line w/ Event/Heat & Lane/Place/Time
MM010250	Mini Scoreboard, 2-Line w/ Lane/Place/Time
MMKDCB50	Wireless Scoreboard Adapter for Dolphin Stopwatches

Pro Pace Clock

Colorado Pace Clock

Features:

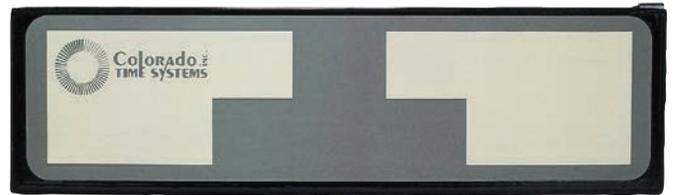

- Can be run as a stand-alone pace clock or set to run in a series of pace clocks with or without a timer or controller
- Large 10" LED digits can be adjusted for indoor or outdoor brightness
- When used with a System 6 controller, Colorado Pace Clocks can operate in a variety of modes to aid with swim training and water polo timing
- All pace clocks are now available with the ability to transmit data wirelessly

Standard: Basic Pace Clock with red LED digits, handle and legs. Two intensity settings. No battery; A/C only.

Pro (pictured): Pro Pace Clock with red LED digits, internal horn and battery, handle and legs. Fifteen training modes (most require additional equipment for timing input). Fifteen levels of intensity settings.

Dimensions: 13½" x 3¼" x 4¾"

AquaGrip® Touchpads

Colorado Timing Systems' AquaGrip touchpads feature the patented AquaGrip texture over the foundation of a tough plastic backbone. AquaGrip combines the best starting and turning surface available with the proven design that all CTS touchpads have used for over thirty years.

Additional models and accessories are available. Please contact us for more information.

Item Number	Size	Weight
MMTP60G50	60" x 22"	28 lbs
MMTP78G50	78" x 22"	35 lbs
MMCADTP50	Touchpad Caddy (holds up to 10)	

Relay Judging Platform

The most accurate way to judge relay exchanges! Electronic relay judging is required at all Division I NCAA Championship meets. Relay Judging Platforms (RJP) from Colorado Timing Systems exceed NCAA standards. LEDs across the front of the RJP flash simultaneously with the start tone and strobe light. Attach to existing starting platforms or purchase with the Colorado starting platform.

Item Number	Description
MML243250	24" x 32"
MML242050	24" x 20"
MML202050	20" x 20"
MMLCAD50	Caddy for up to 10 RJP's (20" width)
MMLCAD250	Caddy for up to 10 RJP's (24" width)

Backstroke Start Device

Train with the patented Colorado Time backstroke start device to get the edge on your competition. The backstroke start device adapts to most starting blocks and is FINA, USA Swimming, and U.S. Masters Swimming compliant.

- Anti-slip foot wedge
- Easy to set up
- Automatically retracts up and out of the water

Item Number	Description
MM3081C50	Backstroke Start Device w/ Short Bracket, 5-3/4"
MM3081L50	Backstroke Start Device w/ Long Bracket, 9-1/4"

Gen7 Legacy Swim Timer

The Gen7 legacy swim timer is designed to work with your existing CTS timing components and display boards, allowing you to meet your current needs and reap the benefits of the powerful Gen7 user interface. It is a direct replacement for any existing CTS Timing Console. The hardware and software combination gives you the flexibility to run your meets your way.

- Intuitive Windows-based touchscreen interface
- Flexible user interface options
- Integrated 2.4GHz wireless to scoreboards
- Facility network connectivity
- Race finish safeguard with logged/saved data
- Rich diagnostics for proactive maintenance

The Gen7 legacy swim timer is compatible with both in- and on-deck systems up to 12 lanes and allows you to fully utilize your existing CTS swim timing equipment with ease and accuracy.

Item Number	Description
MMGEN750	Gen7 Timer with Legacy Connections
MMR920550	Gen7 Timer Power Supply
MMUSB2U50	USB to USB Coupler for Laptop* to Gen7 Connection
MM7011750	Gen7 Swimming Software
MM7011850	Gen7 Swimming Software Maintenance

*Laptop not included

Infinity Pro Start System

The Infinity Pro Start System is an excellent entry-level start system, and its lower cost makes it a great choice for smaller pools and recreation centers. It is an easy-to-use portable start system and limited public address system.

- Easy portability – this lightweight unit is easily moved with its molded handle.
- Strobe and speaker – the highly visible strobe automatically flashes as the horn sounds, providing fair starts to all athletes.
- False start recall feature – enables the starter to signal a false start and immediately alert the competitors.
- Optimized battery operation – Colorado Time's new technology allows for 12+ hours of race start operation, a fast recharge of the internal battery (within a few hours), and an automatic shut off feature that powers down after the device is not in use for 60 minutes.

Item Number	Description
MMNFPRO50	Infinity Pro Start System
MMTR350	Tripod
MMFSJ2550	Infinity Start Jumper Cable - 25'
MMM2550	Extra Wired Microphone w/ 25' Cable*
MMSP12550	40W Speaker w/ 125' Cable
MMSMK150	Speaker Mounting Kit

*Other cable lengths and mounting options are available. Contact us for more information.

Championship Elite Start System

The Championship Elite Start System is a rugged and flexible start system designed for elite competition and training. The system allows you to drive up to 12 Relay Judging Platforms with Speedlights, up to 13 External Visual Indicators, and 20 auxiliary block speakers or 2 underwater speakers.

- Bright external 360° strobe – flashes with start signal tone. Additional strobe lights (EVIs) for other locations are available.
- External visual indicators (EVIs) – function as either a strobe or a lane indicator and feature variable intensity settings for indoor and outdoor use. EVIs level the playing field by giving all athletes a visual cue to the start. EVIs are sold separately.
- Alternate start tones and custom "Take Your Marks" messages
- Visual start signaling (VSS) – provides a clear visual start sequence for all athletes behind the block, on the block, and signal "Take Your Marks."
- Training mode – automated "Take Your Marks" message and start signaling with a variable interval between starts.
- Optional underwater speaker can be added for underwater recall of false starts
- Weight: 19.6 lbs
- Dimensions: 6.5 in. × 6.5 in. × 14.0 in.

Colorado Time Dolphin Stopwatch Timing System

The perfect system for limited budgets! The Dolphin by Colorado Timing Systems is a breakthrough **wireless** timing system with a fully integrated Hy-Tek Meet Management interface. Dolphin provides wireless, synchronized stopwatch-style timing for swimming competitions. It significantly reduces the amount of effort required to run a meet and manage data.

The customizable Dolphin System includes:

- Handheld wireless stopwatches for each lane (supports up to 3 lane timers per lane and up to 10 lanes)
- One Starter Unit
- One Base Unit, which connects via USB cable to your laptop running Hy-Tek Meet Manager with the Dolphin add-on module

Item Number	Configuration
MMD106150	6-lane w/1 watch per lane
MMD106250	6-lane w/2 watches per lane
MMD106350	6-lane w/3 watches per lane

Colorado Blocks

These starting blocks are modified for use with Colorado Timing Systems' Relay Judging Platforms (RJPs) and timing equipment. To create your Colorado Block, add an Adapter Kit and a Colorado Time Systems Equipment package to each starting block. See page 135 for more details.

SWIM MEET EQUIPMENT, STANCHION POSTS, & ANCHORS

IST Swimclock

SWIMCLOCK with Bluetooth® Wireless Technology provides unparalleled flexibility and control over workouts. SWIMCLOCK uses dependable, super-bright LEDs that are visible indoors or out. The four 6.5 inch digits are enclosed in a rugged aluminum case with Plexiglas lens. Available with or without battery. Wall-mount bracket included.

Create unlimited workouts with unlimited sets in each. Save in memory to reuse, edit, or delete and replace. While running a workout, the coach can start, stop and restart, or reset the whole workout at any time, or move to any set in the workout. You also have the option to pause the clock between sets, or run the workout from beginning to end without stopping. Use E-Z Workout to program a single interval and the number of repeats. Also includes Game Clock and Stopwatch modes. Multiple SWIMCLOCK's can be run synchronously from one cell phone.

DalFLEX™ Lane Line Anchor

Introducing the revolutionary DalFLEX Lane Line Anchors, a game-changer in the world of lane line systems!

Experience seamless installation in almost all rim-flow gutter systems, providing you with unmatched flexibility and eliminating any trip hazards. Say goodbye to costly bonding or pool shell penetrations (compliant with NEC 680.26(c)), as the DalFLEX unit takes care of it all. No more need for expensive metal anchors, no more worrying about bonding

costs. Upgrade your competition pool with DalFLEX Lane Line Anchors and experience the ultimate in convenience, safety, and cost-effectiveness. **Color: white.**

- Ideal for all gutter designs – deck-level, rim-flow, roll-out and stainless steel
- Installation hardware and silicon-covered braided stainless steel extension strap included
- Certified NSF/ANSI/CAN 50-2020
- No bonding required
- Tested to over 1200 lbs pull weight
- No tripping hazard – Black silicone-wrapped flat 316SS ribbon extension (w/ "S" hook) is securely fixed to DalFLEX unit and folds back into base to be stowed away for later use

COMPETITOR RACING LANES

Competitor Racing Lanes with LifeSpan+™

Made in the USA for more than 50 years, and fully guaranteed for durability and performance, Competitor is the Official Lane Line of USA Swimming and preferred lane marking system of the Olympic games and NCAA Championships.

Competitor Racing Lanes employ a unique flow-through system that provides consistent wave quelling from one lane to another, a unique feature not found in other products on the market. Competitor swim lanes also feature Lifespan+™ a new, proprietary protective formula that provides cutting-edge polymer- and color-stabilization components to substantially increase product life in harsh pool environments.

Competitor® Racing Lane Lines may be custom designed and assembled to your specifications, offering the opportunity to design any length or color pattern. All lanes come with 15-meter opposing-color surface markers, unless specified otherwise. Racing lanes are shipped fully assembled to meet all FINA, USA, NCAA and NFHS standards, and ship within 3 days of order placement.

Standard colors: Black, Blue, Burgundy, Gray, Green, Maroon, Navy, Orange, Purple, Red, Sky Blue, Vegas Gold, White, and Yellow. Specify when ordering. Price quotes for custom lengths available on request.

Competitor Racing Lane Colors

EZ-Tensioner

Competitor Racing Lanes

Each Competitor® Racing Lane consists of a series of 4" Standard or 6" Gold Medal plastic discs and donuts strung on a vinyl-coated 3/16-inch stainless steel cable. Opposing stainless steel spring and take-up reel keep the lanes tight. The take-up reel is tightened with a removable wrench (EZ-Tensioner upgrade available). With quantity orders you will receive free wrenches: 1 wrench for 3-6 lanes, 2 wrenches for 7-12 lanes, and 3 wrenches for 13 or more lanes.

ANTI WAVE RACING LANES

ANTI WAVE

Anti Wave ForeRunner™ 4 3/4" Racing Lanes

Our most popular line of racing lanes, the Anti Wave ForeRunner 4 3/4" Racing Lanes, are designed after our wildly successful 6" Maximum lane. Anti Wave's racing lanes use hydromatic propulsion to disperse the waves along the lane line then down to stop all momentum, creating perfectly tranquil water. The ForeRunner is competitively priced and available in the same colors as the "Maximum" lane. Equipped with the Supertensioner™. Made of UV stable resin plastic which reduces the risk fading and deterioration caused by long term exposure to sun light. Includes **3-year warranty**.

Available colors are Maroon, Red, Orange, Yellow, Green, Teal, Light Blue, Blue, Dark Blue, Purple, White, Silver, Gray, and Black Specify colors with order.

Item Number	Length	Ship Wt.
MM37056	60'	55 lbs
MM37156	75'	69 lbs
MM37256	25M	75 lbs
MM37356	50M	150 lbs

MM37556	50M with Two Disconnects (75')	
MP01656	7' Extension	
MP01856	14' Extension	

60' Lanes ship by UPS; longer lanes by motor freight.

Anti Wave Maximum 6" Racing Lanes

The "Maximum" 6" Racing Lane is the lane used in the Sydney 2000 Summer Games. Using Hydrodynamic Propulsion technology, the Maximum forces the waves downward into the pool. The effect is dramatic wave quelling performance. The lanes come factory assembled with the Supertensioner. The Maximum is shipped completely assembled and carries a **3-year warranty**. Standard lane features a 15' solid-color lead-in, followed by alternating colors every 3'. Variations are available. Call for information regarding custom lengths or configurations.

Available colors are Maroon, Red, Orange, Yellow, Green, Teal, Light Blue, Blue, Dark Blue, Purple, White, Silver, Gray, and Black Specify colors with order.

Anti Wave Lane Caddy

The Anti Wave Lane Caddy provides for safe and quick removal and installation of Anti Wave swimming racing lanes. The Lane Caddy is designed to be quickly installed onto the pool deck and allows for smooth and unhindered movement of lanes that would otherwise be damaged by the sharp pool edge. Top quality hand-laid fiberglass construction. Includes **3-year warranty**.

Item Number	Description
MM56056	Lane Caddy

Anti Wave Supertensioner™

The Supertensioner may be added to your existing lanes to replace worn tension reels. Adjusts with a twist of the wrist! It fits any size or type of lane made in the USA. Comes with a **3-year warranty**. Available in same colors as racing lane discs. **Specify color with order.**

Nordesco Lane Line Storage Reels

Our Nordesco Storage Reel will provide years of service in and around the pool deck. Large Capacity Reel holds up to 720' of 4" lane lines or 400' of 6" lane lines. Small Capacity Reel holds up to 300' of 4" lane lines. The frame is constructed of T-304 stainless steel, and each component is Poly Diamond sealed for added protection from the harsh chemicals and moisture found around aquatic facilities. Reels include Poly Wheels mounted on stainless steel frames for added durability. Each caster has an easy-set foot brake.

A Poly Shield is attached to each Reel Disk to help keep the lanes on the reel and hands out. Allows for easy loading and unloading of racing lanes (Deluxe and Small models only).

Deluxe models include steering handles to allow for easy maneuvering around the pool deck.

Item Number	Description	Capacity (4" Lanes)
MM6122583	Lane Line Storage Reel, Small Capacity	300'
MM6132583	Lane Line Storage Reel, Large Capacity	720'
MM6142583	Deluxe Lane Line Storage Reel, Large Capacity	720'

XL Lane Line Storage Reel

The XL Lane Line Storage Reel offers 25% more capacity than many other lane line reels. That means it can hold up to 985' (300M) of 4" diameter or 575' (175M) of 6" diameter lane lines, which is more than any other storage reel available on the market! Powder coated stainless steel means the reel is resistant to corrosion. The heavy-duty casters are non-marking and can swivel 360° making it easy to maneuver. The specially designed eyehook allows the first lane line to be properly secured. An optional royal blue cover is sold separately.

Specify Reel Color: Silver Gray (stock, shown), Radiant White, or Royal Blue.

MM3610012	Cover for XL Lane Line Storage Reel (Royal Blue)	

Lane Line Guard™

The Lane Line Guard prolongs the life of swimming pool lane lines by circumventing rough pool deck surfaces and corners by allowing lane lines to glide smoothly through the deep fiberglass channel. An S.R. Smith Lane Line Guard will help make the removal and installation of lane lines easier, and will protect your investment.

- Deep channel with smooth surface
- Lightweight with strong fiberglass construction
- Extends the life of lane lines, saving money
- Rubber trim material along the outside edge of the Lane Line Guard offers protection and helps grip the pool deck
- Designed with built in, user-friendly hand-holds

Anti Wave Backstroke Start Ledge

The Anti Wave Backstroke Start Ledge is a simple and practical backstroke starting device for swimmers to perform top performance backstroke starts. Suitable for training and competition, the Ledge assists swimmers with the fastest possible starts by providing positive traction on the pool wall. The Backstroke Start Ledge has a simple manual height adjustment and is suitable for connection to all standard starting blocks. The Ledge is simple to adjust from in the pool by the swimmer or on the pool deck by the coach.

- PVC bumper to protect pool wall and tiles from scratching
- Five height settings to suit each swimmer's needs using Marine StayPut and Eyelet system
- Meets all FINA regulations
- Quick, easy removal when necessary

Item Number	Description
MMAW35156	Anti Wave Backstroke Start Ledge

Backstroke Start System

Designed to help make backstroke starts faster and reduce the chance for slipping, the Backstroke Start System provides the option to easily add this capability to virtually any pool deck or starting block configuration. Compliant with FINA standards, the ledge is adjustable to five clearly marked positions: at water level, and up to 40 mm both up and down in 20 mm increments. Made with a combination of a HDPE base, vinyl-coated aluminum components, and polyester strapping, the Backstroke Start System is suitable for exposure to the hard elements found in both indoor and outdoor facilities.

- Anti-slip backstroke ledge with raised diamond pattern
- Easily adjustable ledge height with one-handed operation from in or out of pool
- Three unique mounting options to secure device to most deck and block configurations
- Clear markings on spool to show height of ledge to water level for compliance
- FINA FR 2.10 compliant for competition

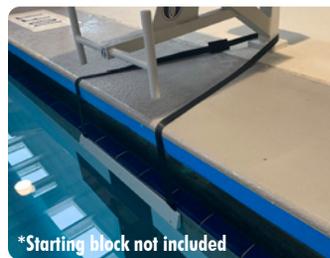

Item Number	Description
MMBSS1012	Backstroke Start System
MP1360012	In-Deck Anchoring Kit
MP1360112	Pool Wall Mounting Kit with Strap
MP1360312	Platform Post Mounting Kit

Backstroke Start Training Device

The Backstroke Start Training Device utilizes the same FINA compliant designed ledge from the Backstroke Start System but with a simple and easy attachment of just two 5' polyester straps and a stainless-steel cam buckle to secure and adjust the height. With a lower cost, portability, and easy setup, this device is perfect for training exercises to get swimmers acclimated to fast and secure starts with a ledge.

- Anti-slip backstroke ledge with raised diamond pattern
- Two 5' polyester straps with stainless steel cam buckle to secure and adjust height
- Works with a wide variety of starting platforms

WATER POLO GOALS

Anti Wave Universal Wall Water Polo Goal

- All metal parts are made of durable white powder-coated aluminum for extra protection, or stainless steel
- The net is of tough polypropylene cord, knotted at every intersection
- The canvas is a durable plain-woven fabric with a top layer of PVC that seals the threaded bottom layer and makes for a smooth and glossy surface
- The Rear Arms are fully adjustable horizontally (up to 36") and can be adapted to most existing deck anchor locations. Two deck anchors are included with the goal
- Can be assembled in approximately one hour by two people. Each goal comes with a detailed assembly instruction sheet
- Includes red net and blue canvas
- Use the Long Goal for shallow water applications (5' or less). Use the Short Goal for deeper water (over 5')

Item Number	Description	Dimensions
MMAW61656	Universal Long Goal	124" L x 66.03" H x 23.62" W
MMAW32856	Universal Short Goal	124" L x 40.35" H x 23.62" W

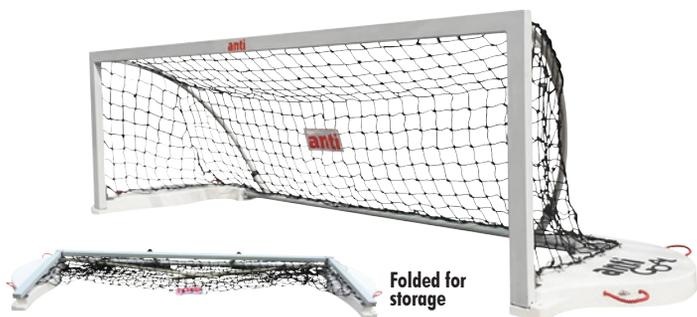

Anti Wave Odyssey Water Polo Goal

As used in the Sydney Olympics!

Combining unequaled form and function, the Odyssey floating goal is quite simply the finest water polo goal on the market. It has been used in pools around the world since its introduction at the 2000 Sydney Olympics. As the standard for major competition or state-of-the-art facilities, the Odyssey is the only choice. Comes with a **three year warranty**. Assembly required.

Item Number	Description
MMW055056	Odyssey Water Polo Goal
MMAW64356	Replacement Net (Red)

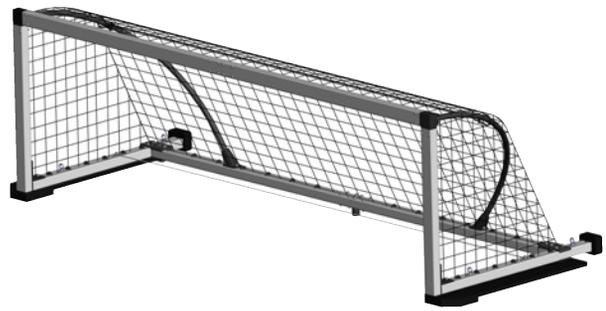

Anti Wave Splashball and FlipFloat Water Polo Goal

The Splashball floating goal is a two-thirds size version of the popular Club goal, making it ideal for splashball, kids' games, practice, residential and club pools, or any location where a full-size competition goal is not needed. The FlipFloat is a full-size competition floating polo goal. What is unique about these goals is that they **fold flat for storage**. Just pull the Rear Arms out of their sockets and the Front Frame folds down onto the Float Panels. Once folded, these goals can be easily carried and stored.

The flotation panels are durable hand-laid fiberglass. The front frame and rear bar are white powder-coated aluminum. The rear struts are 1" diameter nylon rods. The net and rope are polypropylene. All fittings are stainless steel. **Three year warranty.**

Item Number	Description
MMAW67256	Splashball Polo Goal
MMAW67456	FlipFloat Senior Folding Polo Goal

Anti Wave Global Anti Goal Water Polo Goal

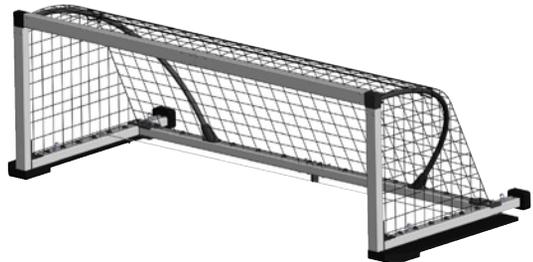

The Global Anti Goal represents the culmination of 50 years of experience in goal innovation, design and production, drawing on a long and rich Anti Wave tradition.

The Global Anti Goal blends cutting edge materials and production with innovative design, resulting in a light weight, heavy duty, compact, full sized polo goal that meets the needs of all clubs and facilities around the world. Each component and fitting has been carefully selected and tested for maximum durability and longevity, even under the most severe player and environmental conditions. **Limited 3-year warranty.**

Features:

- Fabricated from custom marine grade powder coated aluminum
- Foldable, take down design for compact and safe poolside storage
- Easy to install newly redesigned marine nylon net fitting
- Marine nylon pool edge bumpers on rear of frame
- Durable oversized HDPE flotation elements rest on the pool concourse
- Open corner net configuration reduces ball rebound
- Comprehensive list of spare parts available
- Available in 1.2M and 1.4M side depth configurations

S.R. SMITH POOL ACCESS LIFTS

SR Smith™

PAL2 Portable Aquatic Lift

The PAL2 includes all the great features of our original PAL pool lift, with a modernized look and durable matte finish. It is a portable, free-standing pool lift that comes with the PAL Secure-It Kit™ so that it can be fixed to the deck. Standard features include the LiftOperator® Intelligent Control (mounted on the mast), a 24-volt rechargeable battery, waterproof hand control, rotomolded seat with integrated armrests, footrest, seatbelt assembly and Secure-It Kit so the lift can be fixed to the deck.

The optional Activation Key prevents unauthorized use and is ideal for unattended pool environments.

Third party tested and verified ADA compliant. Powder coated stainless steel and aluminum construction. 300 pound lifting capacity. Arm rest is optional. Lift ships via motor freight.

Item Number	Description
HH2020012	PAL2 Lift

Order anchors and options separately from the table of Options and Accessories.

LiftOperator Intelligent Control by S.R. Smith

The LiftOperator Intelligent Control is the most technologically advanced pool lift control on the market. With an emergency stop button that can stop the lift mid-cycle and an audible safety alert that can bring a stranded user to the attention of your facility personnel, the LiftOperator ensures user safety. The control's internal memory stores information about pool lift usage that can be pulled onto a standard USB drive, and uploaded onto your computer for analysis. The optional Activation Key prevents unauthorized use – ideal for unattended pool environments. LiftOperator is included as standard equipment with the following lift models: PAL2 Series, aXs2 Lift, multiLift2 (2-button control), Splash! Series.

Splash! Aquatic Lift System

The Splash! Aquatic Lift is a semi-portable lifting system designed for swimming facilities seeking to provide user-friendly access to their swimming pools. The Splash! is battery powered and operated by a screw driven actuator. The design and durability of the system ensures consistent operation and minimizes service problems. The Splash! lift is attached to the pool deck using a provided square anchor socket.

The Splash! is virtually maintenance free. The components are made from corrosion-resistant materials, including powder-coated aluminum (arms), and powder-coated stainless steel (base, mast, and seat frame). The hand control is completely waterproof, and allows either the user or the attendant to control its operation with ease. The control box and battery are water resistant. If the lift is used outdoors, an optional full cover is available for purchase and is recommended to protect the system. Pricing includes integrated armrests and footrest.

The optional Activation Key prevents unauthorized use and is ideal for unattended pool environments. Lifts ship via motor freight.

The Splash! lift is available in the following models:

Splash! – Standard Splash! lifts provide 400 lb lifting capacity.

Splash! Hi/Lo – The perfect lift for facilities that have an above ground spa and an in-ground pool. The dual position chair allows a single lift to be used in both locations.

Splash! Spa – Designed for use with spas up to 52" (132 cm) above the deck.

Splash! Extended Reach – For use with pools with unusual gutter configurations requiring a longer reach to the water line. *Splash! Extended Reach has a weight capacity of only 300 lbs.*

Ranger 2™ Lift

The Ranger 2 Lift is an economical ADA compliant lift that maintains Aqua Creek's standards for durability and reliability. It's an ideal solution for use on smaller hotel and motel pools as well as for backyard enthusiasts who enjoy their independence. It is designed to be independently operated by the user, allowing the individual full control of the lift with an easy 2 button handset.

- Setback range 14.5" to 19"
- 350 lb weight capacity
- Field reversible design
- Anchor purchased separately, if required
- UL Certified to meet pool lift standard 60335-2-1000
- **Limited five (5) year warranty**

Item Number	Description
HHRNGR276	Ranger 2 Lift, without Anchor
HP4CAJP50	Anchor for Ranger Series Lifts
HH428HT50	Transport Cart for Ranger Series Pool Lifts
HHAACA76	Adjustable Height Seat Option for Ranger 2

Seat and Footrest are now available in either Blue, Tan, Gray or White!

Admiral™ Lift

This ADA compliant lift maintains many of the same benefits of the Pro Pool lift, along with new features. Its field-reversible feature allows you to change the direction of the seat on site, allowing for left or right entry into the pool. It comes standard with the new adjustable base plate, therefore providing additional flexibility in pools with clearance issues. This lift is available with the same color options, solar charging station, anchoring systems, and accessories as the Pro Series lifts.

- Setback range 14.5" to 19"
- 450 lb weight capacity
- Anchor purchased separately, if required
- Battery operated
- UL Certified to meet pool lift standard 60335-2-1000
- **Limited five (5) year warranty**

HH46QAB50	Quick Set Anchor Kit
HH428HT50	Transport Cart for Admiral/Ranger Pool Lift

Seat and Footrest are now available in either Blue, Tan, Gray or White!

Mighty Voyager Lift

The Mighty Voyager Lift provides a whole new perspective on pool access. An ADA Compliant and UL Certified Pool Lift that is also portable allow the user to move the lift away from the side of the pool in certain cases to allow for facility events or to simply store the lift. A robust 325 pound weight capacity is provided by separately purchasing sand that is readily available at your local pool supply or home improvement supply store. The 15" opening on the ballast housing allows for easy filling and removal of the sand if necessary. Seat, Footrest and Portable Weight Shroud are available in either Blue, Tan, Gray, Granite White, Granite Tan, or Granite Gray.

Features:

- Includes ADA fixing kit, which allows lift to be fastened to deck
- 325 lb weight capacity
- **Limited five (5) year warranty**

Item Number	Description
HHVGRPL76	Mighty Voyager Portable Lift

Mighty 400 and 600 Lifts

The Mighty lifts provide accessibility solutions with versatility, greater water drafts, and a setback up to 44". Designed for in ground anchoring, the Mighty series will accommodate existing "standard" Scout 2 and Revolution concrete anchors. Created for its adaptability, the Mighty lifts can be purchased with an optional pedestal for additional wall clearance or unusual gutter profiles. Contact us for details and pricing.

Models:

- **Mighty 400 Lift** features a 400 lb weight capacity and is suitable for up to 12" deck-to-water applications.
- **Mighty 600 Lift** features a 600 lb weight capacity and is suitable for up to 14" deck-to-water applications.

Features:

- Setback up to 44"
- Adjustable seat height and lap belt
- Flip-up armrests
- 360° rotation
- Stainless steel construction with powder coat finish
- **Limited five (5) year warranty**

Swim-Lift Gallatin WP 400

The Gallatin WP 400 is one of our stainless steel water powered assisted access lifts. It is designed to accommodate both in-ground pools and spas without customization. The Gallatin requires no more than 12" of total depth (deck to floor/bench) for proper installation. The standard unit will accommodate anchor locations of 18" to 30" from the pool wall.

- 400 lb operating load capacity
- **ADA/ABA compliant** and Title 24: California Code of Regulations
- Passivated stainless steel construction
- Dual lift operating controls, allowing operation from the deck and/or the pool
- New seat design for greater ease of transfer, excellent lumbar support and greater durability
- Upgraded foot rest and arm rest
- Standard adjustable padded headrest

The Spectra-Force Pressure Booster System option may be added to generate water pressure for the operation of the Gallatin WP400. The system consists of a ½ HP stainless steel centrifugal pump, hydro-pneumatic pressure sustaining tank, adjustable pressure switch, liquid filled pressure gauge, bronze check valve, fittings and connectors.

New construction requires preset anchor and water box. Installation into existing deck requires retrofit anchor.

Anchor sold separately.

Field measurements required. Download production worksheet on this item's page at RecSupply.com.

POOL & SPA ACCESS & AQUATIC WHEEL CHAIRS

Aqua Creek Aqua Walker

Aqua Creek Aqua Walker™

Aqua Creek's PVC Aqua Walker provides more security for those who are frailer or not as steady on their feet. The added safety the Aqua Walker provides, allows people to enjoy the benefits of exercise in an aquatic environment to help build more strength and better balance.

The height adjustability feature utilizes easy-to-manipulate snap-pins and adjusts the armrest height in 1-inch increments; from 34-inches to 48-inches. 3-1/2-inch casters eliminate metal parts so they are durable, corrosion resistant, and roll easily on most pool floors.

- Adjustable height range of 32" to 45"
- Tool-free conversion from armrest walker to standard walker
- Solid rubber wheels

Item Number	Description
HH605UW50	Aqua Walker™

Aqua Creek Pool Access Chairs

Pool Access Chairs are an ideal solution for swimming pools with ramps or zero depth entries. These access chairs are constructed from medical grade PVC and feature an anti-tip design with non-rusting parts. Made to withstand harsh environments, they are great for use in showers, locker rooms and pool environments.

- EZ clean twin wheel casters
- Anti-tip design
- Non-rusting design for pool and shower environments
- Medical grade PVC construction
- Swing-out armrests

Item Number	Width	Weight Capacity	Seat Type

AquaTrek2 Wheel Chair

Uniquely designed for aquatic use, the AquaTrek aquatic wheelchair can be used in and around swimming pools, spas, splash areas, leisure rivers and showers.

Features

- Retractable foot rest
- 7 and 24" mag wheels
- Vent holes for submersibility

Reduced seat depth version has a 17" seat depth which creates proper bent knee position for average height adults. Built from PVC with stainless steel fasteners, hand rims and swing arms. Also includes comfortable padded cushion seat. Reclining high-back models are also available with pricing on request. **One year warranty.**

HP350SB50	Seat Belt Option	
HP350SH50	Shoulder Harness Option (includes Seat Belt)	
HH150HR50	High Rise Child Seat Adapter	

Aquatic Access IGAT Lift

All IGAT models allow maximum access from the deck for the user and any assistant. Side to side transfers are easy – the outer armrest and footrest flip up out of the way and the mounting arm is under the seat for unobstructed wheelchair access for riders and helpers. Includes seatbelt. **Lifts are powered by water pressure (max. 70 PSI).**

Independently-operable upper and lower controls are within easy reach of the rider and anyone wanting to call the seat from the opposite location. The seats automatically turn forward into the pool/spa (clockwise is standard), travel 44" vertically, can be stopped or reversed at any point, and can be padlocked in the deck position with the water turned off or disconnected.

Custom modifications can be ordered to accommodate various water levels and wheelchair heights, opposite or reduced seat rotation, and adaptations to accommodate in-ground spa with bench seats. Specify seat color: **White** or **Blue**

ADA-Compliant Models

IGAT-180 – Our standard model. Automatic 180° seat turns forward into water.

IGAT-180 AD – Entire lift is above-deck for pools with covers or those where competitive swim events are held.

IGAT-180/135 – Automatic 135° seat turns forward into water. For pools and spas with benches or built-in seats.

Item Number	Description	Capacity
HHIGAT850	IGAT-180 Lift	400 lbs
HHIGATD50	IGAT-180 AD Above Deck Lift	400 lbs
HHIGAT350	IGAT-180/135 Lift	350 lbs

HHGATSB50	Replacement Seat Belt	

AquaTrek2 Beach Wheelchair

The AQ-1000 Beach Wheelchair has a weight capacity of 350 pounds. The rear proprietary aluminum forks and proprietary bushings are bearing free and turn easily on sand and many other terrains. The frame is constructed of UV rated furniture grade PVC with internal virgin aluminum pipe to maintain integrity strength on rough terrains like sand and parks or at the park with a beach.

Features

- Durable and lightweight
- Stainless steel axles and stainless steel fasteners
- No bearings, oil free
- Safe and comfortable
- Footrest, brake, seat cushion all included

Item Number	Description	Capacity
HHAQ10050	Beach Wheelchair	350 lbs
HP350SB50	Seat Belt Option	
HP350SH50	Shoulder Harness Option (includes Seat Belt)	

Mobile Aquatic Chair

Mobile Aquatic Chairs (MAC) are essential for facilities utilizing a ramp, zero-depth entry or movable floor. The MAC is built specifically for use in aquatic environments, and with proper maintenance will look great for years to come.

- Rear stabilizing wheels provide increased stability when the chair is in the water
- Unibody frame construction for increased durability
- Armrests flip up for easy transfer on & off the chair
- Powder-coated stainless-steel frame resists corrosion
- 18" (46 cm) sturdy, rotomolded plastic seat
- 300 lb/136kg weight capacity

AUTHORIZED DEALER

Paragon Commercial Swimming Pool Ladders

Swimming pool ladders offer the most convenient method of pool entry wherever stairs cannot be used. Each ladder consists of two frames with treads bolted between them. All frames are made of corrosion resistant stainless steel and the heads of the bolts have flat rounded heads curved to fit the tubing of the frames. Ladders are fabricated from sturdy stainless steel tubing 1.90" O.D. in .065", .109" or .145" wall tubing thickness.

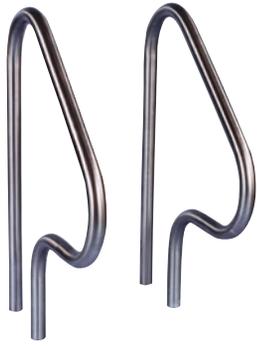

Heavy duty ladders are for commercial and institutional use to withstand heavier usage. Ladders are also available with cross braces for extra rigidity and strength. All ladder styles which have the frames resting against the pool wall include rubber bumpers to prevent damage to the wall. **Anchor sockets and escutcheon plates are not included with ladders and must be ordered separately.**

Paragon Grab Rails

Competition pools require unobstructed racing lines and steps built into the wall. Grab rails are necessary in order to use these steps safely. All grab rails are made of one continuous length of smooth, corrosion resistant, stainless steel pipe, 1.90" diameter, with wrinkle-free bends. The heavier the traffic, the heavier the tubing that you should select. Custom designs available upon request. Specification sheets also available on request. Priced per pair.

Order separately: 4 anchor sockets and escutcheon plates for each pair of grab rails.

AUTHORIZED DEALER

General Purpose "Figure 4"

Use this style if the deck is flat and without unusual curbs or coping.

Item Number	Wall Thickness
HH3010110	.145"
HH3010210	.109"
HH3010310	.065"

Adjustable

Front leg is adjustable in field so it can be set atop curbs or into gutters. Choose this model when unusual conditions will not permit use of other styles of grab rails.

Item Number	Wall Thickness
HH3030110	.145"
HH3030210	.109"
HH3030310	.065"

California

For use on pools with wide gutters or where the distance from the deck to the water is greater than usual.

Item Number	Wall Thickness
HH3040110	.145"
HH3040210	.109"
HH3040310	.065"

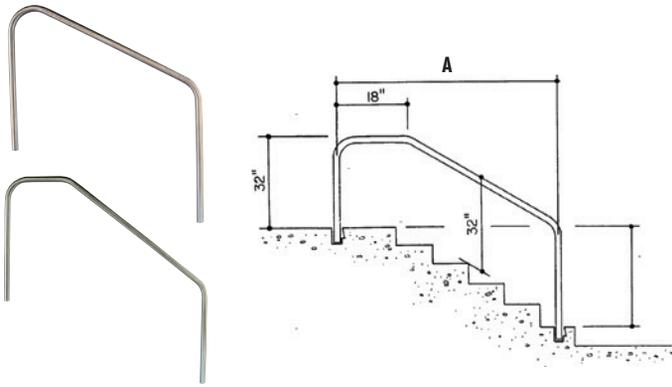

Pretzel Bend

Requires the least amount of deck width. Can usually be mounted on the pool wall rather than the deck slab. Has the most narrow profile as the legs are offset laterally instead of front to back.

Item Number	Wall Thickness
HH3020110	.145"
HH3020210	.109"
HH3020310	.065"

LADDERS, RAILS, & HAND RAIL COVERS

Paragon Heavy Duty Stair Rails

Stair rails should be used at all entry steps. They are a necessary safety feature to allow safe entry and exit from the pool. Two bend rails should be used if the upper anchor can be located 12" or less from the vertical wall of the pool. Three bend rails should be used if the anchor is located more than 12" from the pool wall.

Two and Three Bend Rails

Item Number	Wall Thickness	Bends	Dimension A
HH3410110	.065"	2	48"
HH3410210	.065"	2	60"
HH3410310	.065"	2	72"
HH3420110	.065"	3	48"
HH3420210	.065"	3	60"
HH3420310	.065"	3	72"

Paragon Sloping Stair Rails

Provides a handhold for in-pool stairs without the need for an underwater anchor socket. Stainless steel rail is .065" x 1.90" O.D. Horizontal width is 4 1/2".

Item Number	Description
HH3430110	Sloping Stair Rail
HH3430710	Welded Sloping Stair Rail

Safety Grip Handrail Cover

- Patented UV and chemical protection for maximum longevity. No monthly sprays needed to maintain
- Protection against high temperature metal railings
- Reduces slipping from wet rails
- Resists algae, chlorinated water, and saltwater
- Easy to clean – does not require removal
- 1-year Warranty
- Fits standard 1.90" dia. rails and ladders
- Made entirely in the U.S.A.

Safety Grip Classic:

Standard Plus

Standard Plus Crossbrace

S.R. Smith Standard Plus Commercial Swimming Pool Ladders

Standard Crossbrace Plus Commercial Ladders are made from thick 1.90" O.D. stainless steel tubing, and are suitable for heavy duty use in commercial aquatic facilities. These ladders feature a crossbrace for added stability, with either durable plastic (listed below) or stainless steel treads. Standard Crossbrace Plus Commercial Ladders are available in other Powder-Coated or SealedSteel® finishes as custom orders. All bends are 4" radius.

Configuration options:

- Tread: **Plastic** (listed below) or **Stainless Steel**
- Tubing Wall Thickness: **.065"** (listed below), **.109"** or **.145"**

B	HH4410710	25-1/4"	24"	Paragon 26" Vertical	White Cyclac
C	HH4410210	18-7/8"	17-5/8"	Paragon 19" Vertical	Stainless Steel
D	HHDF10312	19-1/4"	18-3/16"	S. R. Smith 20" Vertical	S/S Tread with Plastic Endcaps
D	HHDF10512	19-1/4"	18-3/16"	S. R. Smith 20" Sloping	S/S Tread with Plastic Endcaps
E	HHDF11112	20"	18"	S. R. Smith 20" Vertical	White Blow-Molded Plastic
F	HP4167709	Nut/Bolt set for S.R. Smith A42077-0 plastic tread (not pictured). 2 nuts, 2 bolts, 2 washers.			
G	HP6070212	Nut/Bolt set for S.R. Smith Elite Treads (D). Includes 6 nuts and 6 bolts.			

S/S = Stainless Steel. Paragon treads come complete with nuts/bolts/washers. S.R. Smith Treads require that nuts/bolts/washers are purchased separately if needed.

Ladder Bumpers

H. Nev-Off Ladder Bumper—The Nev-Off rubber overhang ladder bumper is an expansion wedge system that locks the male style bumper in place with the tightening of a screw. Nev-Off prevents pool ladders from making gouges in concrete and fiberglass, rips in vinyl, or holes in plaster. Tighten the wedge and it is practically impossible to remove. Fits 1.90" O.D. ladders. **Color: White**

I. Expand-N-Lok Bumper—Prevents pool ladder from making holes in plaster, rips in vinyl, or gouges in fiberglass walls. Expand-N-Lok locks in place and is practically impossible to remove once the ladder is installed. **Color: Blue**

J. & K. Rubber Ladder Bumpers—Prevent ladder end gouging into wall. **Color: Natural**

AUTHORIZED DEALER

Paragon Paraflyte Dive Stands

Paragon diving towers offer significant differences to satisfy varying needs, including budgets, preferences, and job conditions. Depending upon model, sizes vary from ½ meter to 3 meters in height. Paraflyte towers are available in one meter and three meter models.

Each tower is furnished complete with railings, rear anchor, front anchor, pedestal, and fulcrum. These can be varied to suit specific job requirements or specifications. Models satisfy most pool configurations, however, custom designs are available. Specification sheets, AutoCAD® drawings and Revit models are available for each model. Anchors are included and are shipped with each tower. Anchors needed in advance for construction purposes can be ordered by identification numbers.

Standard tower pedestals come in red prime coat, ready for painting to match your facility, or in stainless steel (at extra cost), with flanged base.

Each Paraflyte tower is available in several different grades. The variations among grades apply only to materials. There is no difference in design or detail between grades of the same tower.

Specify Diving Board: Although a diving board is not included, the tower is fabricated to accommodate the type and length board to be used. Fabrication and setting dimensions may vary dramatically among boards.

Diving boards sold separately.

Grade	Material	Tubing O.D.	Wall Thickness*
Topflyte - Economy	304 S/S	1.90"	.145"
Superflyte - Mid Grade	304 S/S	1.90"	.065"
Topflyte - Economy	304 S/S	1.90"	.065"

*Fulcrum/flexural members all made of .145" walled tubing. Superflyte ladders and risers made of .109" walled tubing.

Duradapt Dive Stands - Ladder at Side

Made for Durafirm short stand (fulcrum and anchor/hinged assembly). Recommended only for competition pools and only for 16' Duraflex or Maxiflex boards. Ladder at side (as shown) or can be mounted at rear if specified. Utilizes 19" steps. Comes with flanged pedestal only. Guard rails and hand rails are welded and extend to pool edge. Durafirm fulcrum and anchor/hinged assembly are not included and must be ordered separately. Optional anchors available.

Item Number	Height	Grade
HH1200110	3 Meter	Ultraflyte
HH1200310	1 Meter	Ultraflyte
HH1200410	1 Meter	Superflyte

Paraflyte Dive Stands - Ladder at Side

Designed for limited space, particularly natatoriums. Uses three feet less deck space than ladder-at-rear towers. Ladder can be mounted on either side. Utilizes 19" steps. Guard rails and hand rails are welded and extend to pool edge. Optional anchors available.

Item Number	Height	Grade
HH1205110	3 Meter	Ultraflyte
HH1205810	3 Meter	Superflyte
HH1206510	3 Meter	Topflyte
HH1214210	1 Meter	Superflyte

Paraflyte Dive Stands - Ladder at Rear

The most common option, designed for competition and larger commercial or institutional pools where ample space is available. May be installed outdoors or indoors. Utilizes 26" steps. Guard rails and hand rails are welded and extend to pool edge. Optional anchors available.

Item Number	Height	Grade
HH1202310	3 Meter	Topflyte
HH1210710	1 Meter	Topflyte
HH1210010	1 Meter	Superflyte
HH1209310	1 Meter	Ultraflyte

Sportflyte

An economy model designed for wood diving boards and recreational pools only. (Not suitable for competition). Fulcrum is adjustable (but not geared). Side frames are welded and extend to pool face. Available in ½ Meter, ¾ Meter, One Meter, or Three Meter with flanged pedestal.

Item Number	Height	For Diving Board Length
HH1351710	¾ Meter	For 12' Diving Board
HH1350710	½ Meter	For 10' Diving Board

DURAFLEX DIVING BOARDS & STANDS

Durafirm Stands

Durafirm diving board stands are the result of design and engineering focused on stability, low noise level, safety and ease of installation on new or existing decks.

- Durafirm's "Eiffel Tower" non-cantilevered design provides a more stable base for the fulcrum than most other diving platform structures
- The patented Durafirm fulcrum replaces the conventional rack and gear type fulcrum with precision tracks and slide bearings that reduce hardware "clatter" as much as 80%
- Hinged board anchors allow easy tilting of the board up to 180°
- All structural members are heavy aluminum castings. All working parts are heat-treated high strength anodized aluminum forgings or extrusions. Roller, slide and hinge bearings are field replaceable nylon, adjustable for wear. Durafirm fulcrum and anchor units have been chosen by serious competitors world wide for years

Three Meter Stand

Many features enhance the usability and appearance of the Durafirm 3M Stand. The ladder is thicker and 50% heavier, providing a more stable base for the diving board. The shape of this ladder is designed to put more support directly under the mounting location of the diving board, which further enhances the stability. Divers will immediately notice the improved feel of this ladder.

The ladder has built-in handrails that provide a comfortable grip as the diver ascends the ladder. The steps are a new, wider, more comfortable design, featuring a replaceable slip-resistant slotted tread that matches the Duraflex competition diving board. The addition of one step, the decreased step angle, and the consistent spacing of the steps make this ladder very easy and comfortable to use.

Deck area used: 72" x 155".

Item Number	Guard Rails	Ship Wt.
HH3130042	Double on 2 sides	740 lbs

One Meter Stand

The One-Meter structures are manufactured in five different heights to accommodate from -1" to 13" (within US Diving tolerance: 1M +/- 2"). The deck elevation above water-level dimension of the pool and deck slope must be indicated when ordering.

Deck area used: 30" x 135".

Item Number	Guard Rails	Ship Wt.
HH3140042	Double on 2 sides	445 lbs

Short Stand

Durafirm Short Stands have fulcrum units identical to the One and Three Meter Stands and identical guard rails and anchoring units. They are designed for use on concrete supports or platforms at either One or Three Meter level.

Item Number	Guard Rails	Ship Wt.
HH3152042	Double on 2 sides	320 lbs
HH3152442	No guard rails	140 lbs

Anchor Kit

6 anchors are required for the Short Stand; 8 anchors are required for the One and Three Meter Stands.

Hilti Anchor Kit

For use with existing decks. Kit includes dispenser, 2 foil packs of adhesive, 2 mixing nozzles, 2 nozzle extensions, 8 stainless steel threaded inserts, hole cleaning brush, and instructions. May also be purchased without dispenser. A questionnaire must be filled out for each kit purchased. Ships Hazardous.

Item Number	Description
HP3190042	Anchor for Duraflex Stand
HP90642	Hilti Anchor Kit with Dispenser
HP90742	Hilti Anchor Kit without Dispenser

When ordering Durafirm Stands, indicate deck-to-water dimension, length, and type of board to be used. Questionnaire may be downloaded from www.RecSupply.com. Order anchor set separately.

All New Short Stand

Following our tradition of innovation and providing world-class competition diving boards, the all-new Duraflex Short Stand gives divers increased confidence, consistency and performance between diving board stands. The Duraflex short stand provides a firm foundation for mounting Duraflex springboards, consisting of a short stand anchor and a fulcrum assembly. The major components are heavy duty aluminium and hard anodized castings.

Features:

- New fulcrum mechanisms avoid slip-stick when adjusting the fulcrum
- Alignment beam to ensure correct installation and spacing between the rear end of the stand and the fulcrum giving greater consistency between diving stands
- Redesigned mounting locations ensure correct alignment and compensate for less-than-ideal decks
- Enhanced coating process to reduce corrosion

Benefits:

- Virtually maintenance free
- Increased performance and consistency between stands
- Easier fulcrum adjustments – especially for younger divers
- Easier installation process

Item Number	Description	Ship Wt.
HHDX00842	All New Short Stand for 14' Duraflex Board	220 lbs
HHDX00742	All New Short Stand for 16' Duraflex Board	220 lbs
HHMX00642	All New Short Stand for 16' Maxiflex Board	220 lbs

Duraflex Diving Board

Acknowledged as one of the finest aluminum boards, the Duraflex is found at the leading competitive pools. It tapers from tip to fulcrum and then maintains the thicker section from fulcrum to butt. Width: 19".

Maxiflex Model B Diving Board

An improved version of the double tapered Maxiflex. The top surface is perforated to reduce aerodynamic drag during flexing and rebound. There are approximately 200 perforations measuring approximately 1 1/2" long and 1/4" wide, extending 25" back from the tip end of the board. Available in 16' length only. Width: 19".

Item Number	Description	Ship Wt.
HH3132442	14' Duraflex Board	145 lbs
HH3132642	16' Duraflex Board	165 lbs
HH3133042	16' Maxiflex B	160 lbs

HH3133042	16'	73"	2"	5/8" Dia.	160 lbs

Duraflex Diving Board Refinishing Services

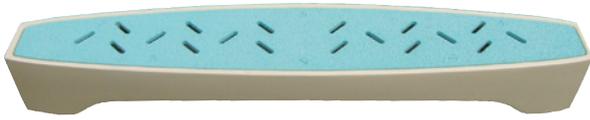

Replace the slip-resistant surface on your diving board before a slipping accident occurs. The length of time before refinishing becomes necessary depends on the amount and kind of traffic, care in handling and storage, environmental conditions and following the maintenance instructions. If the diving board is slippery, take it out of service immediately and contact a Duraflex dealer for refinishing.

Examine your board carefully for gouges and cracks. Duraflex will not refinish any board with the following issues:

- Any cracks in the ribs, surface, slots, or torsion box
- Excessive corrosion anywhere on the board
- Structural damage due to improper installations, handling or any other reason
- Excessive material applied to the board including paint of any kind
- Excessive droop. Excessive droop happens when a board takes a permanent downward bend largely due to trampolining the board. Because FINA no longer allows a minus dimension in board-to-water height, anything over one-inch droop will be considered excessive

Charges for Refinishing include a Board bolt kit & new Rubber Channels. Photos may be required prior to shipping to Duraflex for refinishing. Duraflex will require the board in their factory for approximately 4-6 weeks.

Item Number	Description
HHREFIN42	Diving Board Refinishing Service

Duraflex Step

The Duraflex Step features a two-piece design that allows replacement of the slip-resistant tread without the need to disassemble the ladder. The aqua-colored tread features the same high-quality slip-resistant surface as Duraflex springboards. With a nearly two-fold increase in surface area, divers will immediately notice the increase in comfort when using this new step. This step is now standard equipment on all Duraflex ladders and can be installed as a replacement on 1-meter ladders.

Duraflex Board Cover

Duraflex has developed a unique diving board cover that gives improved protection to the Duraflex board and will help maintain board performance and longevity. Designed for both indoor and outdoor use, the Duraflex Board Cover is made from a water and UV resistant material that helps keep the board clean and reduces the maintenance required.

The cover has an elastic front end and tear resistant material to ensure a tight fit for the tip end of the board. Secured with robust clip straps at the back of the board, once in place, the board will be protected from the elements.

The Duraflex Board Cover also prevents people from using the diving board without authorization or appropriate supervision.

Features:

- Water & UV Resistant
- Breathable, tear resistant material
- Fits all Duraflex boards and stands
- Color and logo customization

Benefits:

- Reduces weather and UV damage
- Improves board life span
- Keeps the board clean
- Reduced board maintenance

NOTICE

Duraflex diving equipment should be installed only in facilities whose diving wells comply with all aspects of either the FINA, USA Diving, or NCAA diving well standards or whose dryland space complies with the FINA dryland diving standards. Copies of the FINA, USA Diving, and NCAA standards are available at no charge at www.fina.org, www.usadiving.org and www.ncaapublications.com, respectively.

Installing diving equipment in any facility that does not meet FINA, USA Diving or NCAA facility standards significantly increases the risks of catastrophic personal injury or death due to the increased likelihood of a diver making contact with the facility or pool ceiling, walls, or floor, or other equipment in the facility. The risk of personal injury includes the risk of death, paralysis, brain damage, and other significant injuries.

S.R. SMITH DIVE STANDS

Quality and safety are the hallmarks of S.R. Smith® diving boards and stands. We've built our reputation on our ability to meet a wide range of facility needs with products that are affordable and durable enough to withstand the test of time.

Deluxe One Meter Tower

- Quick adjustable fulcrum
- 1.90" x .145" wall, 304 stainless steel ladder w/ 1.90" x .065" wall 304 stainless steel handrails
- Stainless steel, 28" wide x 6" deep non-slip treads
- Diving board sold separately

Note: Only one person on diving board at a time, with a maximum weight limit of 250 pounds. Fiberglass boards must be tightened between 20 and 25 ft. lbs.; Aluminum boards, 35 to 40 ft. lbs.

DIVING BOARDS, BULKHEADS, & ANTI WAVE BLOCKS

Frontier III Commercial Fiberglass Diving Board

These boards are the safest you can use...no twist or torque, faster recovery and a permanent nonslip tread means a safe, fun dive every time. Here is how it is done:

- The full width core of select, laminated Douglas Fir eliminates any torque or twist problems
- A molded fiberglass covering completely encases the core providing strength with maximum flexibility
- Heavy reinforcement with additional fiberglass, molded to the core at the fulcrum area, makes this a board that will give you trouble-free service under heavy continuous use
- A mirror smooth finish of colored resins gives this board a lasting beauty that will not fade or deteriorate
- **SANITREAD** non-slip top surface that resists wear. The safest diving surface ever devised

All boards ship complete with mounting kit. **Color: Radiant White, Marine Blue with White Tread, or Marine Blue with Matching Tread.**

Stainless Steel Moveable Pool Divider Bulkheads by Eureka Manufacturing

Eureka movable swimming pool bulkheads are custom designed and fabricated to meet the needs of your facility. Many options, such as high load capacities, starting platforms, and benches are available in accordance with your specific needs. A single pool can serve your community for swimming instruction, competition, diving, water polo, and even canoeing, scuba or fly-fishing instruction!

- Boost your facilities income
- Improve programming variety

Easy-to-move with minimal personnel with variable air injection/purge buoyancy chambers that reduce the effective weight during repositioning. The vertical surfaces feature a flow-through design for minimized resistance. Bulkheads won't impede uniform water filtration while eliminating wave turbulence when used to partition racing courses.

For specifications, or to receive a prompt quotation, please contact our sales engineers at 1-800-437-8072.

SuperBlock 750

SuperBlock 800

Anti Wave SuperBlock Starting Platforms

SuperBlock 800

AntiWave's premium FINA Approved Moveable Track Start block, chosen for top performance training and competition facilities around the world. Includes the FINA Approved 5 Point Moveable Track Start System (MTS) for top performance starts. Compatible with major electronic timing systems including Omega RBD.

SuperBlock 750

The SuperBlock 750 is suitable for performance training and competition facilities and also includes the FINA Approved 5 Point MTS. The smaller footprint base and shorter top length is more suitable for installation where pool deck or bulkhead space is limited. Compatible with major electronic timing systems including Omega and Colorado.

Features:

- Compliant with FINA regulations
- Durable FRP construction with SS316 fittings
- Movable Track Start (MTS) System adjustable to 5 unique positions
- Durable, long life anti-slip top tread on top
- Optional extra Safe Start handles for fast starts and safety (contact for details)
- Compatible with major electronic timing systems including Omega and Colorado

Item Number	Description
HH75056	SuperBlock 750 Starting Platform with 22-1/4" x 29" Top
HH80056	SuperBlock 800 Starting Platform with 24-1/2" x 31-1/2" Top

750 Cover

800 Cover

Covers for SuperBlocks

The Anti Wave Heavy Duty Block Cover is produced from a tough blue, heavy-duty vinyl material for ultimate Starting Block protection. The cover includes an integrated drawstring rope along the bottom edge in order to secure into place.

- Features No Diving image on top and sides to clearly indicate no diving status
- Protect your blocks from UV deterioration and prevent use during unsupervised lap swimming
- Fits all Anti Wave Starting Blocks, and many other popular block models

Color: Blue.

PARAGON STARTING PLATFORMS

AUTHORIZED DEALER

PARAGON®

Paragon Starting Platforms

Each Paragon starting platform frame is a single weldment manufactured of high-grade stainless steel, polished and buffed to a 320 grit finish. All welds are electrochemically passivated for maximum corrosion resistance. Each top is a solid sheet of 1.25" high density, UV-inhibited polypropylene with a patent-pending, cross-grooved, non-skid white sand finish.

When choosing a starting platform, your first consideration should be (1) the size of the platform top. Depending on the size (2), you have a choice of single (Paraflyte or Quickest Anchor) or dual legs. (3) Select the anchor style (Paraflyte, Quickest or Competitor). (4) Then select color and graphics (standard sand finish is white). (5) Finally, select the specific model.

All Paragon platforms are furnished with and a 10 degree tilt top unless specified when ordering. **Anchors are purchased separately.**

Please browse product pages on RecSupply.com or contact us by phone for the Paragon Starting Platform Worksheet which must be filled out for each platform order.

"B" dimension = distance from the inside pool wall to the centerline of the anchor.

24" x 32" Track Start Tops

Track Start Model (Full Height)

The 24" x 32" top supports the track type start now used by many competitive swimmers. Competitor models include the same features as our Competitor and Long Reach Competitor Models to offer greater stability and to accommodate a variety of gutter configurations.

Item Number	Description	Anchor (purchased separately)
HH245XX10	Side mount, B=18" or 24"	Competitor (23103DW)
HH245LR10	Rear mount, B=36" to 40"	Competitor (23140DW)
HH245QQ10	B=21" to 26"	Quickest (23302)

20" x 24" Standard Tops, Full Height, Single Leg

Standard Full-Height Model

Fits most pools except those with unusual features.

Item Number	Anchor (purchased separately)
HH221PP10	Paraflyte (22201)
HH232QQ10	Quickest (23302)

Long Reach Full-Height Model

For deck level pools with wide overflow gutter systems.

Item Number	Anchor (purchased separately)
HH234QQ10	Quickest (23302)

20" x 24" Standard Tops, Competitor Dual Leg

Competitor Full-Height Model

Dual legs give greater stability.

Item Number	Anchor (purchased separately)
HH230XX10	Competitor (23103DW)

Long Reach Competitor Model (Full Height)

For pools with wide overflow gutter systems. Dual legs with stiffeners and a special deep anchor system offers greater stability. "B" is the horizontal distance from vertical pool wall to the intended position (center line) of the anchor.

Item Number	Anchor (purchased separately)
HH244XX10	Competitor (23103DW)

Note: Please refer to applicable codes and regulations for your specific installation.

PARAGON STARTING PLATFORMS

Track Start Plus+™ for Track Start Platforms

This improved redesign delivers enhanced positioning and faster adjustability with 8 1/4" of travel and seven adjustment points for maximum flexibility. A new pin track eliminates spring pins for quicker, simpler adjustments, while the integrated exit channel allows easy backplate removal. The fold-down design enables convenient storage under the platform during relays, and a rear storage hook provides an additional off-deck storage option. An optional improved Side Grip Kit is available, featuring T304 powder-coated stainless steel with shorter grips for increased adjustability. Can be used with Colorado Time Systems RJP's. Available in white and a variety of optional sand top colors. Contact us for details. Includes mounting hardware.

Item Number	Description
HH5277910	Track Start PLUS+ Back Plate Kit
HH3994C10	Color Option for Backplate Footrest
HH5288310	Track Start PLUS+ Hand Grips V2
HH2399510	Color Option for Side Hand Grip Kit

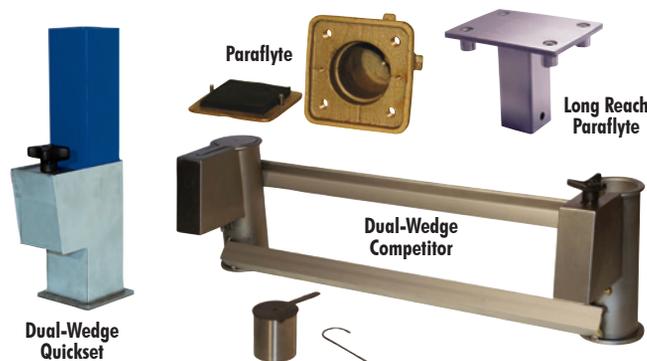

Track Start Plus+ for Standard Platform Tops

This backplate can be adapted to new or existing Quickset/Paraflyte and Competitor style platforms seamlessly. The side-to-side adjustment allows for unimpeded rear access and gives the swimmer flexibility for a better take-off.

- Adaptable frame and track constructed of black powder coated T304 stainless steel
- Non-skid, white sand finish
- UV inhibited polypropylene construction
- Color options available for frame and sand-finish kick plate

Item Number	Fits these platform styles:	Shipping Weight
HH2751010	Quickset/Paraflyte	20 lbs
HH2751210	Competitor	20 lbs

Paragon Platform Anchors

Paragon starting platforms are internationally acclaimed by coaches and competitive swimmers alike. They have a variety of different models and anchoring systems available to meet your every need. Paragon starting platforms are widely used on FINA, NCAA, NFSHA, USMS, USS and competition pools.

Dual-Wedge Quickset Anchor – The Quickset Anchor has been improved and now features a combination of a patented taper-lock base and dual-acting wedge that eliminates front-to-back and side-to-side movement. An integral adjusting knob is easily turned by hand to install or remove the platform without tools. Anchor body is constructed of heavy duty T304 stainless steel and includes cover.

Dual Wedge Competitor Anchor – Paragon's two-leg model anchor has been redesigned for greater support and improved operation. It now has the same locking features as the Dual Wedge Quickset Anchor with the advantage of two legs. The heavy duty cast stainless body features the patented taper lock in combination with the wedge/knob assembly. (B = Horizontal distance from vertical pool wall to the intended position (center line) of the anchor.)

Paraflyte Anchor – Single-legged starting platform is bolted to this deck anchor. Requires a wrench for installation and removal of the starting platform.

Long Reach Paraflyte Anchor – Single-legged platforms are bolted with four bolts to this heavy duty anchor. Tools are required for installation and removal of the starting platform.

Item Number	Description

Colorado Model - Track Start Competitor Rear Mount

Colorado Blocks

These starting blocks are modified for use with Colorado Timing Systems' Relay Judging Platforms (RJPs) and timing equipment. To create your Colorado Block, add an Adapter Kit and a Colorado Time Systems Equipment package to each starting block.

Colorado Block Platform Adapter Kits

Sponsor's panel of plastic or stainless steel fits on platform's slide brackets to display sponsor info or school logo. Also includes horn and deck plate mounting brackets. Panel slides open for easy access to horn and deck plate. It is removable from the starting platform without tools.

Includes: hardware, quick connectors, instructions, drill bit for retrofits and sponsor's panel slide brackets. These can be factory installed on new starting platform orders or easily retrofit for field upgrades.

Item Number	For These Block Models
HH2670D10	Track Start Competitor (Side Mount)
HH2671D10	Track Start Long Reach (Rear Mount)
HH2672D10	Track Start Quickset

Platform Top Refinishing

Refinish your existing Paragon starting platform with the new sand/groove configuration.

Item Number	Description
HP3981R10	Standard Paraflyte/Quickset w/Step
HP3982R10	Competitor
HP3983R10	Shortee & Varsity (no step)
HP3985R10	Track Start Side Step
HP3986R10	Track Start Rear Step

HH2396710

HH2396010

Platform Safety Cover

Keeps unwanted users off starting platforms. The cover is constructed of tough, lightweight plastic making it easy to put on and take off. Starting platform sold separately.

Color: Safety Orange (per ANSI standards)

Item Number	Description
HH2396010	24" x 20" Standard
HH2396710	24" x 32" Track Start
HH2396910	24" x 32" Track Start Plus+

Replacement Hand Grip

Hand grip for Paragon starting block backstroke bars.

Item Number	Description
HP2261110	Replacement Hand Grip

Colors and Custom Logos

All Paragon starting platforms are available in any color in the Pantone Matching System (standard sand finish is white). Pedestals may be powder coated upon request. Please contact us for available color selection.

There is an additional charge for custom color matching if PMS color number is not available. All prices are per starting platform.

Item Number	Description
HP2399010	PMS Color upgrade for platform top
HP2399110	Custom Logo Upgrade
HP2399210	Powder coated pedestal upgrade

S.R. SMITH STARTING PLATFORMS

Velocity Side Mount with Track Start

Velocity Side Mount without Track Start

Velocity Dual Post Side Mount with Track Start

Velocity Dual Post Long Reach Side Mount with Track Start

S.R. Smith Velocity Series Starting Platforms

Engineered with RTM technology, the footboard has outstanding strength as well as a sleek, uniform, hi-tech appearance. Compatible with Colorado & Daktronics timing systems. The powder-coated, stainless steel frame is secured to the pool deck with the patented RockSolid® anchor to eliminate platform movement.

- Available with TrueTread™ or sand tread
- Optional 5-position Track Start wedge tucks under footboard when not in use
- Optional side handles offer an additional starting technique for advanced swimmers
- Patented RockSolid anchoring system
- Retrofits onto existing S.R. Smith Legacy frames
- Custom colors and logos available on sand treaded footboards for an additional charge
- Standard sand tread color is white
- Meets World Aquatics, NCAA, NFHS, USMS, and USAS competition pool rules and regulations
- Anchor sold separately

Velocity Advantage Series Starting Platforms

Designed for fast, solid starts, the Velocity Advantage Starting Platform is the next generation of starting blocks. The fiberglass footboard has outstanding strength and is mounted to a marine grade HDPE composite base. Custom color treads and team logos available on sand tread footboard models. Compatible with Colorado & Daktronics timing systems. Meets World Aquatics, NCAA, NFHS, USMS, and USAS competition pool rules and regulations.

- Well suited for bulkheads and end walls with 8" to 13½" (20cm to 42cm) deck to water heights
- 5-position Track Start wedge tucks under footboard when not in use
- *NFHS rules do not allow use of backstroke ledge
- Patent pending integral backstroke start ledge is adjustable to five positions
- Three built in backstroke handholds – two center positions and one on each side
- The marine grade HDPE composite base easily mounts to pool decks or bulkheads with minimal drilling
- Platform surface is 28" x 32"
- Anchor sold separately

RockSolid® Anchor

The secret to stability is our proprietary RockSolid anchor, an essential starting block component ensuring reliable, solid starts. Available for most S.R. Smith single or dual post models, this innovative, expandable wedge assembly exerts continuous, even pressure on platform posts to eliminate starting block movement or wobble.

Features:

- Heavy duty welded stainless steel construction
- Durable polyurethane liner
- Fully adjustable integral wedge assembly
- Anchor cap (when starting platform is removed)
- Anchor cap removal tool
- Grounding lug

STAINLESS STEEL GUTTER SYSTEMS

Stainless Steel Gutter Systems

Swimming pool water must be recirculated to heat, filter, and chemically treat the water. The effectiveness of the recirculation system directly affects the health and safety of pool patrons as well as the performance of athletes who compete in the pool.

The stainless steel gutter-type perimeter recirculation system has been proven to be so effective that most health departments require the use of perimeter gutters on commercial swimming pools.

Nearly 90% of all organic material, bacteria, dirt, and body oils accumulate within the first few inches of the pool surface. Therefore, it is extremely important that the recirculation system continuously skim these contaminants from the surface of the water.

Our stainless steel gutter systems are designed to perform this task quickly and effectively by combining an overflow trough, which removes dirty water, with a watertight conduit that returns filtered and chemically treated water to the pool.

We've got the 411!

 **RecSupply**
A POOLCORP COMPANY

STAINLESS STEEL GUTTER SYSTEMS

Features and options:

- Gutter systems are custom designed, sized, and made for your pool.
- 12 ga. 304L stainless steel with a #4 polish is standard (316L optional).
- Great for new construction and easy retrofit for existing pools.
- We provide design, drawings, submittals, installation, and testing.
- Anchor options: U-bars, drop-ins, stud anchors, or stainless steel rods with epoxy.
- We can use fiberglass or PVC grating in both T-bar and I-bar styles.
- We can transition to a zero depth gutter or ramp access gutter.
- Supply converter and overflow collector boxes are included.
- Options include surge control weirs, rope anchors, surface agitators, step covers, jet wash fittings, recessed step in the gutter, integrated deck drain, vinyl liner clamps, tile inlays and dual supply dividing wall gutters.

FIBERGLASS GRATING

Duragrid® Fiberglass Grating

RecSupply stocks a wide variety of Duragrid Fiberglass Grating. Fiberglass grating is 400 times stronger than PVC grating and more resistant to staining, scratches and fading from the sun and chemicals. Custom cut in-house to your facility's requirements for fast and easy installation. Duragrid Grating is offered in a variety of widths and lengths, parallel and perpendicular in both "T-Style" and "I-Style". Duragrid Fiberglass Gutter Grating is a widely used and cost effective type of gutter grating for competition pools.

- Strong and Cost Effective
- Better resistance to fading
- Cut to your custom measurements
- Perpendicular & Parallel Configurations
- Can fit a 14" Wide gutter and smaller

Contact us for custom pricing and specifications.

When ordering Duragrid, make sure bearing bars in the panel are oriented in the correct direction. Bearing bars should traverse from support to support. Length is measured from end to end of the bearing bars. Cross rods are not intended to be applied in the span direction. Width is measured from end to end of the cross rods.

DALDORADO

SILENTFlow™

Daldorado SILENTFlow™ Parallel Grating

Daldorado's SILENTFlow commercial pool grating system is the next evolution in parallel grating — with features that surpass any other commercial grating currently sold in the US. All grating features the highest flow rate with an unprecedented 40% open area and whisper-quiet noise reduction.

Available in standard 12", 14" and 16" widths, our parallel grating conforms to both radius and straight configurations. Hand holds and curb angles available for true ledge support (radius or straight). All corners are custom manufactured and strengthened for inside-outside corners per design requirements. Fully warranted by Daldorado.

Daldorado Perpendicular Grating

Perpendicular grating is by far the most popular for deck-drain gutter systems. But did you know that the IBC standard for Child Finger and Toe Entanglement requires a gap opening of no more than 8mm? Daldorado grating meets these IBC guidelines and more to help avoid small fingers and toes from getting hurt.

Available in standard 12", 14" and 16" widths, our perpendicular grating conforms to both radius and straight configurations. Hand holds and curb angles available for true ledge support (radius or straight). Easy and worry-free installation.

All corners are custom manufactured and strengthened for inside-outside corners per design requirements. Fully warranted by Daldorado.

- Complies with the International Child Finger/Toe Entrapment Guidelines featuring a gap opening of only 8mm
- Made of high-grade UV-stable PVC (Axiell 7140) ~ **Certified for NSF50**
- Certified to IBC Classification C For Wet-Barefoot Inclining Platform (Ramp) test for Swimming pool ramps and stairs leading to water, swimming pool surrounds and communal shower rooms, communal changing rooms
- Complies with the new IBC standard for strength, specifically access covers and grates (3996 Class A ~ over 10kN)
- Available in three colors ~ white, bone and gray. Other colors available with a quantity guarantee.
- **Fully warranted for 10 years** against manufacturer defects with a focus on offering the best customer service in the industry

Challenge-Free Installation

Daldorado's SILENTFlow parallel grating has been engineered to make installation so easy you will want to install it on all your pools. No more expansion issues or buckling. Added truss support combined with using the highest quality materials allows for superior strength unmatched by any other grating company (excess of 4,000 lbs).

- Complies with the International Child Finger/Toe Entrapment Guidelines featuring a gap opening of only 8mm
- Made of high-grade UV-stable PVC (Axiell 7140) ~ **Certified for NSF50**
- Certified to IBC Classification C For Wet-Barefoot Inclining Platform (Ramp) test for Swimming pool ramps and stairs leading to water, swimming pool surrounds and communal shower rooms, communal changing rooms

Daldorado CapSHURE™ Deck Drain

Available in 2-inch and 4-inch depths

The Daldorado CapSHURE Deck Drain System takes deck drains to the next level with robust features not found with any other drain systems. With a 40% open area, Daldorado Drain Packages meet or exceed IBC Standards for finger/toe entrapment guidelines with a gap opening of only 8mm, slip resistant and superior strength to withstand light vehicle traffic.

Each package comes complete in 8' lengths and 4" widths, and include a heavy-duty base with a throw-away cap to keep its form when pouring and setting concrete. This system has everything you need to do the job right.

Features:

- 2" depth for above grade, indoor use or other sub-base limitations
- 4" wide x 4" deep deck drain shipped in 10' lengths
- Straight or custom radii down to 6' inside (2 meters)
- Suitable for indoor/outdoor use
- Open Area ~ 40%
- All grating constructed of high-grade UV-stable PVC (Axiell 7140 - Certified for NSF50) and complies with the IBC Child Finger/Toe entrapment guideline (0.315" (8mm) gap opening)
- Strength tested for light vehicle traffic (Certified Load Classification under IBC Standard AS 3996 Class A –over 10kN for grates)
- Certified to IBC Classification C For Wet-Barefoot Inclining Platform (Ramp) test for Swimming pool ramps and stairs leading to water, swimming pool surrounds and communal shower rooms, communal changing rooms
- EPDM joiners act as expansion joints
- Dropout drain boxes ~ 12" x 12"
- Plumbing sizes are formed to meet designer's specifications
- Heavy-duty base in gray; grate either white, bone or gray
- Pre-drilled base for ease of leveling & securing before pour
- Delivered with a throwaway cap to keep its form when pouring and setting concrete
- **Fully warranted for 10 years**

Eureka Stainless Steel Main Drain Sumps

Why spend significant time and effort forming and pouring concrete main drain sumps? Our custom-built stainless steel main drain assemblies help builders get jobs done within budget and on time.

Pool chemicals and UV radiation can lead to chipping and crumbling of concrete main drains and sumps. Eureka stainless steel sumps resist the harsh conditions found in public pools and play features.

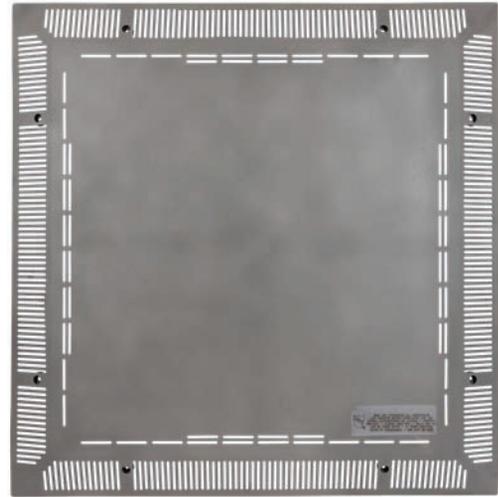

Eureka stainless steel main drain sump assemblies for commercial pools are fabricated using 12 gauge low-carbon 304 stainless steel. Equip your sumps with Eureka Stainless Steel Anti-Entrapment Covers for the ultimate in function and safety in compliance with federal regulations.

Optional 2" I.P.S. hydrostatic relief valves and collectors are furnished, when required. Stainless steel studs are welded onto the inside of the sump for ease of pressure testing plumbing systems. For specifications or to receive a prompt price quote, please contact us today!

Drain Safety & VGB Act Compliance

The Virginia Graeme Baker Pool and Spa Safety Act (VGB Act) promotes the safe use of pools, spas and hot tubs by imposing mandatory federal requirements for suction entrapment avoidance.

- **Safety Drain Covers:** All suction outlet fitting assemblies (SOFA) made after May 24, 2021 must meet the ANSI/APSP/ICC-16-2017 Standard.
- **Public Pool Drain Covers:** All public pool and spa drains must be equipped with SOFA that are certified to the Standard.
- **Public Pool Drain Systems:** All public pool and spas with a single main drain system, other than an unblockable drain, shall be equipped with one or more additional devices or systems designed to prevent suction entrapment that meet the requirements of any applicable ANSI/APSP Standard or applicable consumer product safety rule. In addition to a compliant drain cover, such additional devices or systems include: a safety vacuum release system (SVRS), suction limiting vent system, gravity drainage system, automatic pump shutoff system, disabled drain, or any other system determined by the CPSC to be equally effective as, or better than, the previously listed systems in preventing suction entrapment.

Stainless Steel Anti-Entrapment Drain Cover

Eureka Stainless Steel Drain Covers provide a certified solution to a wide range of applications, including custom drains for which there may be no other reasonable alternative. Redesigned to include more open area, which allows higher flow rates. Certified to meet the ANSI/APSP/ICC-16 2017 (PA2021) standard for drain safety specified by the Virginia Graeme Baker Swimming Pool and Spa Safety Act. Available in four tested and approved sizes. Covers include installation hardware for concrete pools and sealant, along with instructions for proper installation.

Replace hardware after **10 years of installed life**. Replace cover after **20 years of installed life**.

Eureka Anti-Entrapment Drain Grate

The Eureka Anti-Entrapment Drain Grate is designed to provide a high level of safety and performance. Ideal for new construction, the flush-mount design will pair nicely with our custom-built stainless steel main drains and will also retrofit nicely to many existing sumps. Available in two sizes, these grates are designed from stainless steel and fiberglass I-bar.

The Eureka Anti-Entrapment Drain Grate is certified to meet the ANSI/APSP/ICC-16 2017 (PA2021) standard for drain safety specified by the Virginia Graeme Baker Swimming Pool and Spa Safety Act.

Features:

- Tough fiberglass and stainless steel construction
- Flat design perfect for high traffic areas
- Laser-etched identification
- Approved for both floor and wall mounting
- May be paired with our custom designed stainless steel sumps
- 1½" height allows retrofitting to many existing sumps

Item Number	Outside Dimensions	Floor GPM	Wall GPM	Open Area

Daldorado DalMAX™ Sump & Grate

Daldorado's DalMAX series of Sump and Grates for new construction are unblockable large area main drains (SOFA's) safety tested and certified to ANSI/APSP/ICC 16-2017. The DalMAX frame and grates are molded with quality PVC materials tested to ANSI/NSF/CAN 50 2020.

DalMAX main drain sumps for commercial pools are constructed of reinforced fiberglass with frame and grates made from the highest quality PVC materials tested to ANSI/NSF/CAN 50 2020 and are tested and certified as a SOFA to ANSI/APSP/ICC 16-2017. With a large open area of 62%, DalMAX is the clear choice for every new commercial pool construction or large area main drain replacement (frame and grate). Daldorado main drain sumps are provided a warranty for the life of the facility.

- Open area ~ 62%
- Floor or wall installation
- Customizable to different piping schematics
- Threaded, flanged or coupled connections
- Specify outlet location
- Can be customized to different piping schematics. Connections can be threaded, flanged or slip couplings.
- FRP 3" water stop, 5" from edge of sump
- continuous around perimeter
- Recommended to use a 2" non-separation rope around the sump perimeter
- 1½" x 1½" FRP brace around outside perimeter for additional strength
- **Grate Service Life: 25 Years under VGB**
- **Sumps Service Life: Life of the Aquatic Facility**
- Colors available: White

DalMAX The BEAST

The BEAST is the ultimate solution for aquatic consultants and contractors seeking a reliable, unblockable, affordable, and easy-to-install main drain sump system.

- Plug & Play installation – built-in pressure test plate & 10" slip coupling
- No obstructions from domed grate – seamless pool vacuum operations
- Toe-friendly design – eliminates the hazard of domed grate stub risks
- 10" port can be bushed down to 8" or 6"
- 10 year warranty
- 25 year certified service life for the grate
- Sump service life is the life of the aquatic facility
- ANSI/APSP/ICC-16-2017 and NSF/ANSI/CAN-50 2020 certified

DALDORADO

Daldorado DalMAX Frame & Grate

Daldorado DalMAX series replacement Frame and Grates for 18" x 36", 18" x 54", 24" x 24" unblockable large area main drains are safety tested and certified to ANSI/APSP/ICC 16-2017 and are molded with quality PVC materials tested to ANSI/NSF/CAN 50 2020.

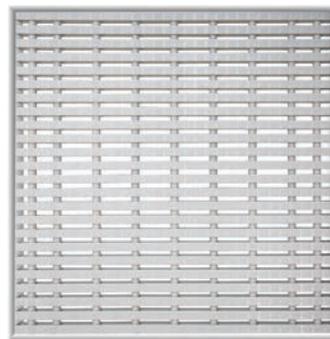

Daldorado manufactures, tests and certifies its ANSI/APSP/ICC 16-2017 Frame and Grates whether for new construction or replacement, to provide a 25-year service life.

Features:

- Floor or wall installation
- Can be customized to different piping schematics
- Connections can be threaded, flanged or couplings
- Specify outlet location
- FRP 3" water stop, 5" from edge of sump continuous around perimeter
- Recommended to use a 2" non-separation rope around the sump perimeter
- Shipped with removable internal strength support, which remains throughout construction
- **25 Year Service Life under VGB**
- **10 Year Warranty**
- Colors Available: White

Item Number	Dimensions	Floor GPM	Wall GPM	Open Area

NNDF42450	24" x 24"	N/A	N/A	62%

Features

- Certified for ANSI/APSP/ICC 16-2017 use for | new and replacement
- Virtually any size or shape can be constructed from design specifications
- Open area ~ 37½%
- Frame and grate certified to ANSI/NSF/CAN 50 2020
- Floor or wall installation
- Available in white, bone, and gray
- 316 Stainless Steel screws and instructions included
- 25 Year Service Life under VGB

Daldorado Custom Main Drain

Daldorado custom large area main drain grates are IAPMO and NSF certified APSP-16-2017. Whether you need a 24" x 124" size or 72" x 72" size with custom rounded corners, Daldorado will construct your drain grate to fit any commercial swimming pool project. For aquatic designers here's your chance to get creative, the possibilities are endless!* Daldorado is the ONLY American company to design & engineer its APSP-16-2017 Main Drain grates, whether new or VGB replacement, to give a 25 year service life.

Contact us for specification assistance and pricing.

*Calculated using "Q" formula per the APSP-16 Standard Examples of Custom Sizes, available in 1" increments in width with no more than 24" unsupported. Some restrictions may apply. Please contact us for more information.

DRAIN COVERS & SUCTION OUTLETS

Hayward Frames and Grates

For residential and commercial concrete pools, Hayward square drain covers are available in a wide range of sizes and flow designs to satisfy any installation requirement. Whether the application demands frames and covers for new construction or replacement cover assemblies for existing installations, Hayward suction outlets set the standard for quality and value.

Hayward's High Flow covers have some of the industry's highest approved flow rates. Each size and flow design cover retrofit to existing Hayward frames and are designed for an extensive 7 year life span. All Hayward WG Series suction outlets and replacement covers have been tested to ANSI/APSP/ICC-16 2017 standards, are VGB compliant, and meet CPSC requirements.

Installation of anything other than the recommended Hayward drain cover on a Hayward frame or Hayward sump may not be AANSI/APSP/ICC-16 2017 compliant. Likewise, the installation of a Hayward drain cover on a non-Hayward frame may not be compliant. Replace grates after **7 years of installed life**.

StarGuard Main Drains

StarGuard drains comply with provisions of the ANSI/APSP/ICC-16 2017 standard as required by the Virginia Graeme Baker Pool & Spa Safety Act. High-quality StarGuard drains are available in white, black, gray and dark gray, as well as a variety of configurations to fit any inground pool or spa installation. Review the specifications to find the right StarGuard drain model for your application. StarGuard drains have 15.35 square inches of open area for water flow. If you are in an area where water velocity through the grate is limited to 1.5 feet/second, the StarGuard covers allow flow rates up to 72 GPM.

Replace after **7 years of installed life**.

Color: **White**

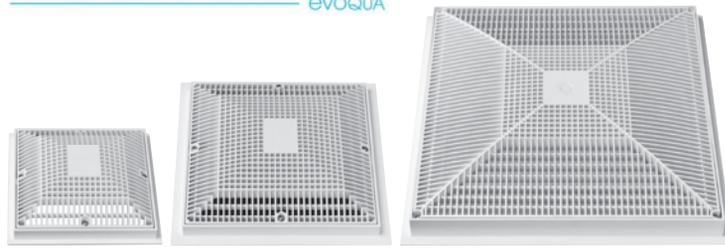

Other colors and sizes are available on request.

Lawson Aquatics SuperFlow™ Drains

The only VGBA-2017 and NSF Listed main drain that is easy to replace and doesn't require any complicated retrofitting that might delay opening a facility.

The Virginia Graeme Baker Pool and Spa Safety Act (VGBA) was passed to protect and save lives, and we understood it was imperative to engineer a new certified main drain that was inexpensive, easy to install, and yet maintain a high flow rate. The result was the SuperFlow domed main drain/grate. NSF and IAPMO certified as well as ASME LISTED, SuperFlow grates are the leading choice for retrofitting your main drains or constructing your new pool.

Our main drains meet the industry's most stringent testing requirements. Dual certified by both NSF and IAPMO R&T to current SOFA/VGBA compliance, our main drains ensure both quality and enhanced safety for your aquatics facility.

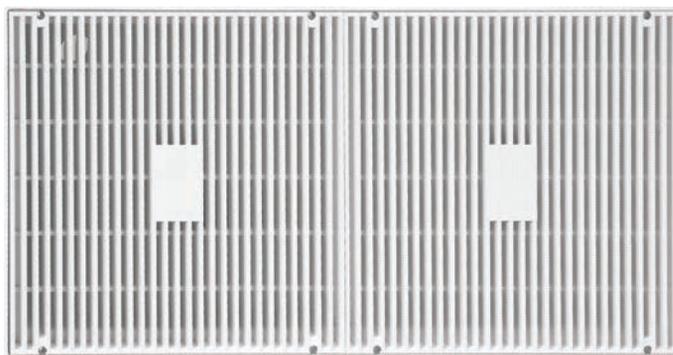

Features include:

- Tested to ANSI/ASME A112.19.8.2017 per section 1404 of the VGBA Pool and Spa Safety Act
- Certified to NSF 50
- A raised, cross-ridged profile gives non-slip surface that allows water penetration if blocked
- Color: White
- Ten year warranty
- Replace after **10 years of installed life**
- Sold in a pack of 2

Certified to NSF/ANSI/CAN 50

Item Number	Dimensions	Flow GPM	Wall GPM	Open Area

Lawson SuperFlow Large Area Drain Grates

Large area SuperFlow main drain grates begin at 18" x 36" and larger in 18" increments. SuperFlow capacity starting at 2080 GPM is unmatched. Install end-to-end to accommodate higher flow rates—no additional support required.

Each 18" x 18" grate tile offers a 54% open area with the highest flow rate of 1040 GPM (SuperFlow Frame and Grate). Flexible plumbing locations and sizes configured and customized to your piping schematics. Connections can either be threaded, flanged or couplings. Custom framing available to fit any length.

Features include:

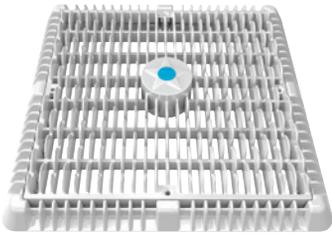

- Tested to ANSI/ASME A112.19.8.2017 per section 1404 of the VGBA Pool and Spa Safety Act
- Certified to NSF 50
- A raised, cross-ridged profile gives non-slip surface that allows water penetration if blocked
- For multiple drain use
- Wall or floor installation

AQUASTAR DRAIN COVERS & SUCTION OUTLETS

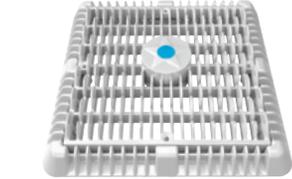

AquaStar Wave VGBA Series

Anti-Entrapment Suction Outlet Cover

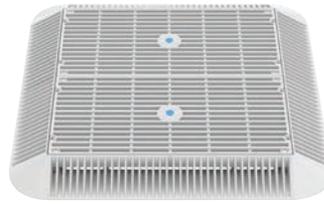

AquaStar's 12" Wave Series covers easily and safely retrofit most brands' existing 12" square 3/4" deep frames. Other colors and sizes are available. Call for assistance.

- Fits most popular Pentair frames
- Manufactured from superior UV-resistant engineered polymers
- Trademarked VGB compliance button easily identifies VGB compliant cover from on deck and underwater
- Includes #316 stainless steel screws, vented riser ring and mud frame
- Replace after **5 years of installed life**.

Stock color: **White**.

Item Number	Size	Open Area (sq. in.)

AquaStar MAHC-I Series

Anti-Entrapment Suction Outlet Cover and Expandable Frame

The MAHC-I Series are VGB Unblockable drains for replacement and new construction. The MACH-I Series Click-It™ modular grates and supports are a direct replacement for existing 18" x 36", 54", and 72" drain grates. The series consists of a base kit 18" wide x 36" long that is expandable in 9" increments to accommodate even larger sizes.

Features:

- Certified to ANSI/APSP/ICC-16-2017
- Certified to NSF 50
- Designed for new construction and remodel applications
- Manufactured from superior UV-resistant PVC polymer
- Includes #316 Stainless steel screws with brass inserts
- Trademarked VGBA compliance button easily identifies VGBA 2017 compliant cover from deck and underwater
- Color: White
- Replace 9" x 18" grates and supports after **10 years of installed life**

MACH-I Series Expansion Kit

For use only with AquaStar MACH-I 18" x 36" base kit. Use this expansion kit to increase drain size to 18" x 54", 18" x 72" or any drain size larger than 18" x 36" in 9" increments.

ELC-800r Water Level Controller

The ELC-800r uses proximity sensing technology, which helps it stand apart from other water level controllers that use floats or introduce electrical currents to the water. Easily programmable, it has the ability to sense dangerously low water conditions and deactivate circulation pumps, protecting them from damage. Available in various configurations to match your application:

- **Standard Well** – designed for mounting at static water levels, usually in a pump pit in the equipment room. For bodies of water with skimmers.
- **Sight Glass** – for bodies of water with balance tanks
- **Surge Tank** – allows mounting in a surge tank to control pool and spa levels. For bodies of water with overflow gutters
- **Wet Well** – this design allows water level sensing in a 2" static well, usually in the equipment room. For bodies of water with skimmers

25' cable length is standard. Additional cable may be added for an additional charge. Solenoid valve purchased separately.

SIGNET FLOW INDICATORS

+GF+ SIGNET Flow Indicator Systems

Signet flow meters can help take the guesswork out of flow monitoring by producing accurate, easy-to-understand information. For restricted space areas, a self-powered analog flowmeter provides installation versatility in one self-contained unit. A digital readout capability is offered in a battery-operated flowmeter. Operated from a signal that is generated by the paddle-wheel flow sensor. A typical system will include a flow sensor, flow rate indicator, and a matched installation fitting.

Flow Rate Indicator

The +GF+ SIGNET 9900 SmartPro Transmitter is a precision instrument that connects with a SIGNET flow sensor and provides digital readings. The bar graph and units of measure can be customized to the application. The SmartPro Transmitter is versatile. It can also be used with several other SIGNET sensors (sold separately) to display readings of pH, ORP, Conductivity/Resistivity, Salinity, Temperature, Pressure, and more. The SmartPro is highly illuminated with an auto-sensing backlit display, making it viewable from 4 to 5 times the distance over traditional transmitters.

Transmitter Number	Description
II990052	3-9900-1 SmartPro Digital Transmitter, Field Mount
II9900P52	3-9900-1P Smart Pro Digital Transmitter, Panel Mount

Battery Powered Flow Totalizer

The +GF+ SIGNET 8150 Battery Powered Flow Totalizer is compatible with the Signet 515 and 525 Flow Sensors, and will provide years of dependable operation. The large digital display indicates flow rate and totalized flow volume simultaneously. Our intuitive software design and four-button keypad provide for simple operation while setting screen displays and programming the system. Calibration can be easily performed by entering the AutoCal feature and entering a value to match an external reference. Screen displays can be modified to suit the user's needs; along with the flow rate, any of the three totalizers can be selected as

the displayed totalizer. Users can quickly scroll through the totalizers simply by pressing any key on the keypad. A display averaging feature is included for applications where the flow in the pipe fluctuates. For applications where flow stops and starts due to production needs, a no-flow indicator will display the hours of non-flow.

Transmitter Number	Description
II8150152	8150 Battery Powered Flow Totalizer

Magmeter Flow Sensor

The Signet 2551 Series Magmeter is an insertion-style magnetic flow sensor that features no moving parts. Use with the SmartPro Digital Transmitter.

Flow Sensor Number	Pipe Size Range	Used With
II551P052	1/2" to 4"	Programmable open collector for use with any older GF Flow Instrument or the 9900, 9950 Instruments
II551P152	5" to 8"	
II551P252	10" to 36"	
II1P01252	1/2" to 4"	4 to 20 mA output for use with PLC, PC or similar equipment
II1P11252	5" to 8"	
II1P21252	10" to 36"	

Paddle Wheel Flow Sensor

The 515 paddle-wheel flow sensor is designed to measure flow at the specific local velocity of your pipe. It features a unique open-cell design that provides a repeatable, linear $\pm 1.0\%$ output over the full range. Made of corrosion-resistant materials.

Flow Sensor Number	Pipe Size Range
II515P052	1/2" to 4"
II515P152	5" to 8"
II515P252	10"+

Paddle Wheel Flow Sensor

The 2536 paddle-wheel flow sensor can be mounted nearby on a pipe or wall or in a remote location up to 305 m (1000 ft) by connecting the sensor through a standard 3-8050-1 universal junction box. Standard cable length is 7.6 m (25 ft).

Flow Sensor Number	Pipe Size Range

Blue-White®

Blue-White Flo-King™ F-300 Series Flow Meter for horizontal pipe

F-300 series flow meters utilize a Pitot tube pick up and a hard edged float design to provide a convenient and economic means of measuring water flow in a closed pipe system. The F-300 impact tube flow meter features a tough, one-piece machined acrylic meter body, corrosion resistant internal parts, and permanent screen-printed scale. You get all the strength and long service life required in most commercial and industrial applications.

Each F-300 series is individually packaged with gasket seal and mounting clamps.

Models listed are Top Mount. Side Mount available special order only.

IIF300839	300-2200	8"

F-300S Flow Switch

Are you certain your circulation pump is working properly? Is your filter clogged? F-300S takes the guesswork out. When the new F-300 flowmeters' magnetized PVDF float enters the Alarm Trigger Zone of the F-300S Sensor, the built-in dry contact switch closes, providing a trigger to external devices.

It's a switch, or a sensor, or both!

- Set up as a **Flow Switch**: The F-300S detects if the flow rate is at the desired level
- Set up as a **Flow Sensor**: The F-300S detects whether the water is flowing through the pipe, or if there is a 'no flow' environment
- Set up as a **Flow Switch & Sensor**: Two F-300S Switches can be placed onto one meter to enable both features!

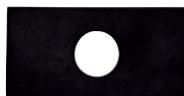

Kit includes magnetized float and flow switch. Flowmeter purchased separately.

F-1000 DIGI-METER® Digital Flow Meter by Blue-White

Blue-White's BW DIGI-METER® F-1000 series requires no electrical connection, is easy to install, and is ideal for those who require clear, easy-to-read flow rates. The F-1000 is shipped pre-programmed, all you need to do is install it. The meter is powered with two (2) (AAA) batteries which are supplied with the unit.

- Easy to read 6 digit LCD, up to 4 decimal positions
- Battery Operated (2 AAA batteries included)
- Acceptable for Vertical or Horizontal installation
- Total Reset function can be disabled
- Display update time: Rate 1.5 sec., Total 0.5 sec.
- Factory calibrated – Nothing to program
- NEMA 4X weather resistant enclosure
- Standard Models ship with pipe fitting included.

F-2000 DIGI-METER® Digital Flow Meter by Blue-White

The BW DIGI-METER® F-2000 Paddlewheel Flow Meter features a digital readout on an LCD screen, displaying flow rate and total flow. Water range is between 0.4 and 8000 GPM, and it can fit 3/8" to 12" pipe sizes. Every F-2000 flow meter is easy-to-read and easy to use, operating on either an AC/DC transformer or 4 AA batteries (which vary by model).

- Easy to read 8 digit LCD, up to 4 decimal positions
- AC/DC transformer or battery operated (RT models only). 4 AA batteries
- Factory programmed with calibration certificate
- Front panel security lockout
- Total reset function can be disabled
- Weather resistant ABS enclosure. NEMA 4X
- Standard models ship with pipe fitting
- 4-20 mA output (AO option)

FlowVis® Flow Meter

FlowVis® is the most advanced, affordable, and reliable precision flow meter designed specifically for pools, spas, fountains, and water features. Ingenious in concept and flawless in operation, FlowVis® is a revolution in reliable flow measurement.

Features:

- Installation flexibility; installs horizontally, vertically, or even upside-down
- Can be installed right next to other plumbing fittings such as elbows with no effect on accuracy
- ≥97.9% accuracy across the entire model range
- Working pressure: 50 psi
- NSF 50 Certified Level 1 for listed models/configurations
- 1½", 2" & 2½" models also serve as check valves
- Clear, easy-to-read scale in GPM
- Installs quickly with no calibration required
- Manufactured in the USA
- 15-year design life, **3-year warranty**

IIFVD50	FlowVis Digital Display

PSP20 Anti-Entrapment Device

The PSP20 is the only device available for pool & spa anti-entrapment that comes with a no-nuisance trip guarantee! With over 350,000 units installed on pumps worldwide, it's easy to see why the PSP20 is the pool contractor's solution of choice when it comes to safety.

The PSP20 uses the existing pump motor as a sensor to protect swimmers from the horrific injuries and loss of life caused by pool & spa drain entrapment. The PSP20 is simple to install and simple to setup. The unit is supplied as a fully-assembled control panel designed to be installed between an existing pump control panel and the pump motor. Installation typically takes less than one hour.

Features:

- CPSC recognized VGB secondary anti-entrapment method
- Technology based on 350,000+ pump monitors installed worldwide
- Simple installation, setup, and calibration
- No plumbing required = no future leak issues
- No false tripping - guaranteed!
- Models for all voltage supplies
- No additional control or wiring for large 208/230V or --phase pumps
- Compatible with residential pool/spa combos and in-floor cleaners
- No bypass required for filter backwash or vacuuming
- UL approved - required in many jurisdictions
- Alarm output
- No winterizing required
- Unaffected by hydrostatic relief valves
- Lowest overall cost of ownership

Call 1-800-437-8072 for a Price Quote

Vac-Alert SVRS

The Vac-Alert Model VA-2000 SVRS (Safety Vacuum Release System) reacts in less than a second to quickly release dangerous pump suction vacuum, a critical layer of protection against body or limb drain suction entrapment.

A totally mechanical, non-electric safety system, the VA-2000 SVRS is easy to install, adjust, and test. Vac-Alert's fail safe design is manufactured with only engineered plastics and type 316 stainless steel for long life and reliable service.

Features:

- Easy to install
- Self monitoring, low maintenance
- Won't damage pump when activated
- Meets or exceeds all ANSI/ASME performance standards for SVRS
- Constructed of noncorroding parts to ensure long life and superior performance
- **Three year limited warranty**

Spring Wound Timer

Intermatic's commercial 15 minute timer switch. Installs in single 2½" deep junction box.

Item Number	Description
SSTIMER50	15 Minute Timer

Fuji Air Blower For Commercial Spas

Medium pressure regenerative blower. Compact design, oil free, non-pulsating air. 50/60Hz motors are standard. UL Recognized, CSA Certified and CE Compliant. 200-230V/460V, 3 phase.

The optional inlet filter/silencer is designed to protect the Fuji Ring Compressor by filtering the inlet air and quieting the blower. The filter has a pleated paper inner filter element rated at 10 microns. A metal outer cover is easily removable when servicing the unit.

Item Number	Fuji Model Number	Description

Trerice Adjustable Angle Industrial Thermometer

The Trerice BX Industrial Thermometer is an instrument of extreme accuracy and rugged dependability. 9" tall with a durable cast aluminum case, this universally adjustable, liquid-in-glass thermometer is the most widely specified instrument of its kind. Thermowell required, purchased separately. Temperature range: 30–240°F.

Item Number	Description
II4030750	Thermometer with 9" Scale, 3-1/2" Stem
II4060750	Thermometer with 9" Scale, 6" Stem
IIE34F250	Test Well for 3-1/2"
IIE4FA250	Test Well with Lagging Extension for 3-1/2"
IIE34J250	Test Well for 6"

In-Line Thermometers

Small diameter stem and powerful low mass temperature element provides fast response to any temperature change. A stainless steel case, stem and connection, hermetically sealed, climate-proof instrument. Outside temperature will not affect the performance of these thermometers. Face: 3" diameter.

Item Number	Description
JJSL150	3-1/2" Stem, 1/2" NPT Nylon well. Dual Scale 30–130°F, 0–55°C
JJSL-2D50	2-3/4" Stem, 1/2" NPT Brass. Dual Scale 50–220°F, 10–100°C
JPSWN50	Well for JJ-SL-150 Thermometer

Tube Thermometers

A. ABS Plastic

Molded ABS plastic tube body. Thermometer has F° and C° scale in sealed glass tube. 3' polyethylene cord.

B. Chrome Plated Brass

Chrome plated brass case with thermometer sealed in blown glass tube. F° and C° scales. 3' poly cord.

C. E-Z Read Combo Sink/Float

ABS construction with shatterproof magnifying lens. Includes snap on/off flotation tube and 3' rope leash with anchor plate. F° and C° scales.

A	CC12704	Plastic Tube Thermometer
B	CC13004	Brass Tube Thermometer
C	CC13604	E-Z Read Thermometer

Sta-Rite Max-E-Therm® Pool and Spa Heater

Features:

- Lightweight – Lightest heater in its class
- Best-in-class – energy efficiency*
- Compact Design – Ideal for retro-fit installations
- Easy to Switch – Change gas sources with installation of separate orifice
- Environmentally Friendly – All units are low NOx
- Rustproof Housing – Sleek, matte black enclosure is made of Dura-Glas™ – an exclusive Sta-Rite material that handles the heat and weathers the elements
- Lower Operating Costs – 84% efficiency rating – rated 1st in its class for highest energy efficiency

Custom or Retrofit – Direct-connects to Sta-Rite System 3 Mod Media™ filter or easily fits other systems For indoor or outdoor installations on pools and spas. Features include an LED temperature readout with dual thermostat controls, temperature safety lockout, and 6-position control panel. PMG burner technology requires no outdoor draft hood. Proven Dura-Glas™ rust-proof construction with plastic manifold and PVC union connections. Heavy-duty (HD) unit with cupro-nickel exchanger stands up to the harshest of applications, like low pH, high flow or heavy use.

Coates Electric Heaters

These pool and spa heaters feature a built-in flow switch to prevent operation when there is no water flow. An all stainless steel tank ensures corrosion resistance and a long service life.

Model CE: 19" L × 10" W × 11" H, 1½" male NPT connections

Model CPH: 24" L × 12" W × 13" H, 1½" male NPT connections

Model PHS: 28" L × 15" W × 15" H, 2" male NPT connections

Standard Features:

- Stainless steel tank
- Digital thermostat
- Incoloy heating element
- Manual reset high-limit
- Flow switch
- Element, flow and high temp 'on' lights
- Element fusing on units over 48 amps
- U.L. listed for indoor/outdoor installation
- PHS-CN models specifically designed for salt water systems are also available

Raypak XTherm Professional Condensing Heaters

Raypak's XTherm product packs everything you need into one cabinet – a vertical heat exchanger, ultra-high efficiency (up to 97%), a heater pumping package, easy-to-understand diagnostics, low emissions, even a built-in multi-unit controller. The result is a pool heater that is practically plug-and-play.

Options:

- BACnet IP, BACnet MS/TP, Modbus TCP/N2 Metasys (B-85)
- Lonworks (B-86)
- PVC Vent – Factory-Installed ONLY (D-32)
- Alarm with 4" Bell (E-5)
- Centrotherm® Polypropylene Vent Adapter (D-33)
- Low Water Cutoff (F-10)
- Condensate Neutralizer (Z-12)

Features:

- 97% Thermal Efficiency at Full Rate
- Positive vent pressure, Condensing Appliance - Cat IV Vent Required
- Bronze Headers with Cupro-Nickel Finned-Tube Primary Heat Exchanger. 316L Stainless Steel Condensing Heat Exchanger. ASME Section IV constructed and stamped, National Board registered
- CSA Low-Lead certified, less than 0.25% Lead.
- Certified to ANSI Z21.56
- Minimum Continuous Inlet Water Temperature: 50°F
- Maximum Setpoint: 106°F
- On/Off Operation with Soft Start
- VERSA IC® Control Package with LCD Display
- Status Display Lights
- Available for natural gas or propane
- Cascade control of up to 8 units, no external sequencer required
- Diagnostics Center with History, English, no codes
- Modbus RTU BMS port (RS485)
- 0-10 VDC BMS Interface (Setpoint or Direct Drive)
- All models indoor/outdoor construction
- Engineered with precisely matched system components
- 100% Factory Fire Tested
- Complete cabinet protects all controls and wiring. Tough, rust-resistant powder-coat finish
- Suitable for altitudes up to 10,000 ft. (derate above 5,000 ft.)
- Integral Combustion Air Filter (MERV8)
- Quiet Operation
- Proudly Assembled in the USA

Raypak XTherm Professional Indirect Heaters

The Professional Indirect Pool Heater, utilizes Raypak's ultra-high-efficiency XTherm boiler which drives a highly efficient indirect heat exchanger. The Professional Indirect is corrosion resistant and comes as a factory built skid system, so no set-up is required. It is easy to install and commission. The Professional Indirect provides high-efficiency heating with minimal maintenance, perfect for heavy commercial usage, such as competition pools.

- 96% thermal efficiency
- Condensate treatment kit
- VERSA IC® with Raymote™
- Reversible PVC venting
- Pre-plumbed boiler loop with system pump and expansion tank
- Corrosion-resistant cupronickel or titanium indirect heat exchanger

Call 1-800-437-8072 for Pricing, Specifications or Replacement Parts.

Raypak MVB Vertical Pool Heaters

Time-honored technologies unite with cutting-edge advancements in Raypak's MVB modulating vertical pool heater. Small space is no longer a problem, and our compact design fits through a 32" door opening to make it the perfect choice for those hard-to-reach retrofit projects.

Options:

- BACnet IP, BACnet MS/TP, Modbus TCP, N2 Metasys (B-85)
- Lonworks (B-86)
- Alarm with 4" Bell (E-5)
- Low Water Cutoff (F-10)
- Cold Water Run
- Condensate Neutralizer (Z-12)

Bypass Options:

- Standard external bypass uses a user adjustable valve to adjust bypass flow and achieve cold-water protection.
- The Cold-Water Run option provides electronic control of a variable-speed pump to continuously adjust bypass flow, achieving real-time cold-water protection.

Features:

- 83 to 83.3% Thermal Efficiency at Full Rate
- Negative vent pressure, Non-condensing Appliance - Cat I Vent Required
- Bronze headers with Cupro-Nickel finned tube heat exchanger standard. ASME Section IV constructed and stamped, National Board registered
- CSA Low-Lead certified, less than 0.25% Lead
- Certified to ANSI Z21.56
- Minimum Continuous Inlet Water Temperature: 105°F
- Maximum Setpoint: 106°F
- On/Off Operation with Soft Start
- VERSA IC® Control Package with LCD Display
- Status Display Lights
- Cascade control of up to 8 units, no external sequencer required
- Diagnostics Center with History, English, no codes
- Modbus RTU BMS port (RS485)
- 0-10 VDC BMS Interface (Setpoint or Direct Drive)
- All models indoor/outdoor construction
- Certified under SCAQMD Rule 1146.2. Meets all Low NOx regulations
- Engineered with precisely matched system components
- Smallest installed footprint (5.4 square feet) design fits tight spaces and easily replaces larger boilers
- 100% Factory Fire Tested
- Complete cabinet protects all controls and wiring. Tough, rust-resistant powder-coat finish
- Suitable for altitudes up to 10,000 ft. (derate above 2,000 ft.)
- No boiler condensate drain required
- Available for natural gas or propane
- Integral Combustion Air Filter (MERV8)
- Multiple Pump Outputs – Boiler Pump, System Pump
- Whisper-Quiet Operation
- Proudly Assembled in the USA
- Certified to the ANSI Z21.56 pool heater standard

Raypak Hi-Delta Heaters

Raypak's Hi Delta is easy to install, operate and service. The Hi Delta has a patented burner with an innovative design that provides an optimized air-gas pathway for complete combustion. This makes the Hi Delta the most adaptable sealed-combustion boiler on the market today. The touch panel display on the HI-Delta includes onboard diagnostics. In the event of any system problems, technicians can quickly review the fault history of the unit.

The Hi Delta product family covers the full spectrum of both indoor and outdoor applications including space heating, process heating, pool heating and domestic hot water heating. When installed indoors, the Hi Delta's versatility is revealed via smaller vent diameters, direct-venting capability, and the convenience of stacking to decrease the footprint for multiple appliances.

- 83.1% efficiency
- Multiple vertical venting and sidewall venting options. No extractor required for sidewall applications up to 70ft on room air
- All models indoor/outdoor certified
- Patented burner "security blanket" enhances staged combustion, minimizes installation/start-up issues, and protects burners from metal fatigue
- 105°F minimum inlet water temperature
- Cupro-nickel finned-tube heat exchanger with brass headers. AB 1953 compliant
- VERSA IC® control package with LCD display
- Status display lights
- Cascade control of up to 8 units, no external sequencer required
- Diagnostics center
- Modbus RTU BMS port (RS485)
- 0-10 VDC BMS Interface (set point or direct drive)
- Ducted combustion air capable. TruSeal® CSA-Certified direct-vent available
- Models 992C-2002C certified to SCAQMD Rule 1146.2. Meets all Low NOx regulations
- All models except 2002C available for natural gas and propane. Model 2002C available for natural gas only
- Certified to the ANSI Z21.56 pool heater standard

Raypak Professional Series Gas Heater

Designed specifically for commercial properties such as HMCAC, schools, parks, community and high-end private pools. The Raypak Professional series pool heater provides a digital, low NOx, condensing pool heater.

- Engineered for corrosion-resistance
- Can be installed indoors or outdoors
- 399,000 BTU output
- 94% efficiency
- Stainless steel heat exchangers and headers
- Available in natural gas or propane
- ASME compliant
- 3 year warranty

Model Number	BTU/Hour Input	Gas
S-R410	399,000	Natural or Propane

Raypak Professional Series Digital Gas Heater

Designed specifically for commercial properties such as apartments, condos, hotels, motels, schools, parks, community and high-end private pools. It is also perfect for tough coastal weather conditions where salt air challenges durability.

- Microprocessor-controlled Thermostat
- Self-diagnostic
- Remote-compatible
- Stainless steel burners
- Liberal use of stainless steel materials throughout for maximum durability
- Brass headers and cupro-nickel tubes are standard
- ASME compliant
- 3 year warranty

Model Number	BTU/Hour Input	Gas
R268	266,000	Natural or Propane
R408	399,000	Natural or Propane

Raypak Digital ASME Heater

- Digital LCD for temperature control and heater settings
- Bronze headers
- Microprocessor controls diagnostic readout and continuously monitors operational status
- Unitherm governor eliminates condensation
- Small footprint
- High-wind reliability
- Stainless steel burners
- 125# pressure relief valve
- ANSI Z21.56 design certified
- Outdoor top is standard; indoor top may be added for slight additional charge
- Copper exchanger is standard; cupro-nickel exchanger option is available
- Specify installation elevation when ordering.

Raypak E3T 3-Phase Electric Heaters

- Titanium heating elements
- 80-character display; more operational and diagnostic data at a glance
- Easy to understand codes; no blinking lights or abbreviated fault codes
- Flow Protection; prevents the unit from dry firing
- Low-Temp Operating Mode; prevents unit damage due to sharp drops in system water temperature
- Load Detection; prevents the unit from unwanted heating when there is no "Call for Heat"
- Patent pending 50/50 Mode; operates at 50% capacity to help prevent downtime and reduce energy costs

MERLIN PROFESSIONAL SAFETY COVERS

Merlin Professional Safety Covers

Merlin Professional Safety Covers keep your pool secure and help reduce spring maintenance costs and times. Have your pool ready for business sooner and with less hassle than ever before.

Quality American-made materials and expert craftsmanship make up every Merlin cover!

ASTM Safety Standards

All Merlin Professional Safety Covers are designed and manufactured to meet or exceed the safety standards set forth by the American Society of Testing and Materials in their written standard ASTM F1346-91 when properly installed.

Materials

Merlin Professional Safety Covers feature many different material types and choices, including Mesh materials with burst strengths as high as 720 PSI and yarn deniers as high as 3000. Ask your Merlin dealer which material best suits your needs and budget.

Your cover's strength and durability is determined by the materials and parts that make it up. That is why Merlin uses quality materials like 135 pound bonded polyester twisted multifilament thread and 1" wide polypropylene webbing which is doubled on the perimeter of the cover for added strength.

Hardware

To support weight loads such as snow and ice, Merlin's proprietary hardware features all brass concrete anchors with Silt Gap technology to avoid binding and our combination 302/304 stainless steel springs are the strongest on the market with a compression rating of 368.93 pounds.

Design

The design of your Merlin Professional Safety Cover will account for all obstacles, angles and unique features of your pool. With over 20 years of manufacturing experience and with our proprietary cover design software, your cover will be designed, cut and assembled using the latest technology for a perfect fit and long lasting durability.

Why cover, why Merlin?

From offering a cool retreat, to providing excellent low impact exercise, to just promoting good old fashion fun, commercial swimming pools continue to be a vital part of our lives for many. Unfortunately, in many areas, the "swimming season" comes to an end and requires a shut down of these oases. When that shut down occurs, the attractiveness of your pool doesn't necessarily go away with the cooler temperatures. Limiting access to the pool area via fences and gates isn't always enough. Extend the use of your pool deck area and keep unwanted guests out of your pool during shutdown. Protect your pool and the people around it, with a Merlin Professional Safety Cover.

You can rest assured that your Merlin Professional Safety Cover is manufactured with the latest innovation in materials, hardware, and design and will fit and protect your pool for years to come.

Merlin Professional Safety Covers are an attractive investment that will benefit your organization through decreased liabilities, reduced start-up and operating costs, and increased site values.

Spring clean-up made easy!

Do you want to open to *Green or Clean?* Stop dreading your spring pool opening. Uncovered pools collect all sorts of debris and allow algae to flourish in the spring when there is no chemical residual left in the pool. This translates to either a complete drain and refill or a lengthy and costly clean up process, including expensive chemical and electric costs. Neither of these options are good for the environment or your organization's bottom line. Install a Merlin Professional Safety Cover and get ride of those hassles from now on.

Safety covers save lives!

The photo below was not staged. The driver of this car walked off the cover after an accidental ride in reverse onto a Merlin 40' x 80' Dura-Mesh Safety Cover. After removal of the car, the cover kept protecting the pool that winter, required only minor repairs the following spring. Safety covers make commercial pools safer!

MERLIN PROFESSIONAL SAFETY COVERS

Smart Mesh

The Ultimate Mesh Cover!

Merlin's exclusive patented mesh lets water through while providing 100% shade to significantly reduce algae growth and provide unmatched debris filtration. SmartMesh offers the highest abrasion resistance, tear strength, burst strength, and sunlight shading around! Merlin backs SmartMesh with a **15-year limited warranty**.

- Shade protection — only mesh cover on the market offering 100% shade protection
- Filtration — filters debris down to 40 microns
- Lightweight — 40% lighter than solid material
- Protection — 105% higher tear strength than the average mesh cover

Dura-Mesh II

The New Standard In Standard Mesh!

When it comes to standard mesh covers, Dura-Mesh II has the industry's best combination of abrasion resistance, tear strength, burst strength and sunlight shading. It is 68% stronger than other standard mesh and provides 95% shade. Merlin backs SmartMesh with a **15-year limited warranty**.

Advanced Grade Mesh

Featuring Industrial Strength Material!

Great for commercial or high-load, high-stress, high wind applications, Advanced Grade Mesh provides a burst strength nearly double that of our competitor's standard mesh.

Safety Solid XLS

Extra Light & Extra Strong!

Merlin's Safety Solid cover offers security plus a barrier to water, dirt, dust, and sunlight. Choice of Automatic pump or mesh drain panel. Backed by a **10-year limited warranty**.

Kaleidoscapes!

11 Color Options!

All the benefits of our Safety Solid covers, plus a choice of 11 colors. 15-ounce material construction with increased U.V. inhibitors keeps your cover looking better longer. Backed by a **10-year limited warranty**.

We're here to help!

THERMGARD COVERS & COVER STORAGE REELS

ThermGard® Insulated Swimming Pool Cover

ThermGard Standard and Deluxe Insulated Swimming Pool Covers are the culmination of over 20 years of pool cover manufacturing experience. The heart of a pool cover system is the fabric. ThermGard uses a seven-layer, custom-laminated polyethylene to provide the optimum in insulation and durability. Over a dozen different materials are used to construct a single cover. Each raw material is of the highest quality available.

Covers are custom made to insure fits. Cutouts for ladders, handrails, slides, and other water features are included. A choice of edging is available to offer wind resistance, if necessary. Lock stitching is used throughout each cover. ThermGard covers are backed by a factory warranty.

Contact us for material selection and pricing information.

Thermal Cover Storage Reel

Our Thermal Cover Storage Reels are designed for cover handling ease and durability, with aesthetics in mind. Each reel is constructed entirely of grade 304 stainless steel. Round tubing is used to blend with other deck equipment and all visible tubing is mill polished to a mirrorlike finish. Easily the best looking storage reels available, they are also the strongest. The reel frames are the only all-welded units in the industry. Heavy duty .120" tubing offers capacity of 150 lineal feet of cover per winding tube. Reels are available in single, double, and triple winding tube configurations. Our storage reels are the perfect complement to ThermGard covers for a total pool cover system.

Features:

- Frame, tube, and hardware constructed of grade 304 stainless steel mill polished to a mirrorlike finish
- Casters featuring urethane wheels for easy mobility and Screw Jack brakes stabilize the reel during use
- .120" tubing holds 150 lineal feet of cover per tube
- Available in single, double, and triple winding tube configurations
- Length configurations between 10' to 20' (one foot increments)

Visit RecSupply.com or contact us today to configure your storage reel.

Cover for Thermal Cover Storage Reel

Whether to protect your thermal covers and/or reels from the elements or simply to hide them from view, these covers are ideal complements to your thermal cover system.

Item Number	Reel Width	Reel Type
JJR911053	10' to 13'	Single
JJR911553	14' to 17'	Single
JJR912053	18' to 20'	Single
JJR931053	10' to 13'	Double or Triple
JJR931553	14' to 17'	Double or Triple
JJR932053	18' to 20'	Double or Triple

Automated Wall-Mount Pool Cover Reel

No need to mount a separate device to control movement of your thermal cover - instead, the motor is concealed within the tubing and only requires a standard power cord be plugged into a 110V outlet.

Easier Installation

No need to mount a separate device to control movement of your thermal covers - instead, the motor is concealed within the tubing and only requires a standard power cord be plugged into a 110V outlet.

Automated Operation

With the touch of a button, staff can easily cover and uncover the pool using a handheld remote.

Keep the Deck Clear

Remove the reel from the deck and make more room for swimmers by installing the cover system on the wall instead.

Specifications:

- Anodized aluminum frames and tubing
- 316 stainless-steel hardware
- Motor and controls completely contained within tubing
- Pillow block bearings for smooth operation
- 9' long electrical cord for use with 120VAC 15A GFCI protected outlet
- Over five channel wireless remote controls
- Maximum cover width: 16'6"
- Maximum cover length: 82'

Call 1-800-437-8072 for a Price Quote

Underseat Pool Cover Reel

A discreet and durable design, the underseat reel is a one-of-a-kind reel system that enables facilities to conceal the pool cover while providing convenient stainless steel seating for spectators.

Easy-to-Operate

With minimal effort staff can easily cover and uncover the pool manually or with automation using a simple remote.

Unexposed Engineering

The automated model features a hidden motor within the tubing and only requires a standard power cord be plugged into a 110V outlet.

Unique Design

The only underseat reel on the market.

Specifications:

- Powder-coated stainless-steel frames with anodized aluminum bench planks
- 316 stainless steel hardware
- 25-yard or 50M (manual only) configurations
- Maximum cover width: 16'6"
- Max cover length: 82' (automated)/50M (manual)
- Pillow block bearings for smooth operation
- 3M electrical cord for use with 120VAC 15A GFCI protected outlet (automated version)
- One or five channel wireless remote controls (automated version)

Pentair IntelliBrite® Architectural Series Pool & Spa Lighting

Introducing the next generation of pool illumination.

Help your customers rediscover the magic of the nighttime pool experience – in a whole new light. Presenting IntelliBrite Architectural Series Pool and Spa Lighting. This significant innovation helps you deliver a more dazzling and dynamic LED pool lighting experience using an advanced proprietary design from a trusted pool lighting leader.

Features:

- More light, more energy efficient – now 60% brighter and 50% more energy efficient*
- Spreads light widely and evenly in all directions using a 3D light engine and convex lens
- Provides cleaner white light with no color separation thanks to improved optics
- Color for every mood with five color lights and seven dynamic color-changing light shows
- Compatibility with Pentair 10" and 6" niches enables an ideal upgrade from incandescent or first-generation LED lights
- Adds instant ambiance with easy customer pool control through a Pentair automation system, if available, or a Color Sync Controller for Pentair Color LED Lights

*Compared to Pentair IntelliBrite 5G Color LED Pool Light in white color mode only.

Models listed include 50' cord. Additional cord lengths are available. Contact us for pricing.

Pentair Color Sync™ Controller with Bluetooth®

Give your customers the power to automate their pool experience with color schemes and schedules, easily controlled through the Pentair Home app. Compatible with IntelliBrite Architectural Series Pool & Spa Lights.

Features:

- Universally compatible with all Pentair color-changing LED Lights
- Convenient control with the Pentair Home app
- Select from seven dazzling color-changing light shows or five vibrant colors
- Set automated schedules through the app
- Easily save favorite color to recall at the touch of a button
- Weatherproof design for outdoor installation
- GPS enabled to automatically turn on at twilight
- Weekday vs. weekend options, with multiple runtime options

Technical Features:

- Suitable for use with 120V, 12 VC Pentair LED Color Pool Lights
- Operating Voltage: 120V, AC, 60Hz, input and output
- Power Rating: Up to 300W continuous usage - can control up to 300W of LED Color Pool Lights
- Wire Size: 12 AWG
- UL/CSA listing
- Bluetooth wireless technology and WiFi connection/communication
- Environment: Outdoor rated - must use provided gasket and wet location rated junction box

PureWhite® LED Pool Light

PureWhite LED Pool Light Fixtures provide an LED lighting alternative to inefficient incandescent lamps. For installations requiring a wet niche fixture. They significantly reduce energy consumption and maintenance costs. Plus, all PureWhite LED Pool Light Fixtures feature a superior rugged construction that is unmatched in the industry.

Features:

- \$33 a year to operate
- Uses less energy – up to 90%*
- Lasts up to 50,000 hours – 20x longer life**
- Enhances pool water appearance – looks clearer and cleaner
- Enhances dark finish pools
- Installs easily – compact fixture depth allows bottom catch visibility from pool deck

*58W equivalent lights, compared to incandescent lamps

**Compared to incandescent lamps

Compatible with select Pentair, Hayward, and Jandy Niches. Visit RecSupply.com for more information.

ColorSplash® Lights

J & J Electronics' ColorSplash Series of in-ground pool and spa fixtures and lamps offer a variety of lighting colors and shows. With five solid color and seven lights shows, instantly transform any pool or spa into a custom illuminated paradise. ColorSplash Series fixtures and lamps operate with a standard pool light switch, J & J Electronics' XG Controller can be integrated into most Pentair and Jandy automation systems; enabling a "one touch" color show selection.

Features:

- RGB and RGB-W models available
- Operates with most manufacturers' automation systems
- Zero Pixelation Lens provides fuller, richer color
- Heavy Duty 316 Stainless Steel Construction
- Advanced processor delivers seamless color transitions
- Industry leading 3-year limited warranty
- Designed, engineered and assembled in the USA

Fountain Fixture

Brighten up your water features' appearance with the cleaner and clearer look of our PureWhite warm white or cool white LED fountain lights. Or perhaps create a more custom color-rich appeal with the multiple colors and shows of our Color Splash color changing LED luminaires. Our LED Underwater and Wet/Dry Fountain Luminaires create the ideal setting for any water feature environment while significantly reducing energy consumption and maintenance costs, compared to traditional light sources.

Advantages:

- High lumen output
- Wet/Dry or Underwater options
- Reduces energy usage by 90%
- Highly corrosion resistant bronze and 316 S/S
- Industry leading 3-year limited warranty
- Designed, engineered and assembled in the USA

Pool Lamp

PureWhite LED Pool Replacement Lamps

PureWhite LED replacement lamps are the standard in all white lighting for pools and spas. Even and smooth LED light distribution is ensured with a proprietary Zero-Pixilation lens system.

PureWhite White LED lamps retrofit most popular light fixtures on the market including, Pentair, Jandy and Hayward. Every PureWhite LED lamp comes with a Guardian Silicone Lens Gasket. Included gasket model is for the Pentair Amerlite, SpaBrite or Aqualight pool and spa. Purchaser must buy a separate gasket for installation into Hayward or Jandy pool/spa lights.

Spa Lamp

Features:

- Up to 90% reduction in energy costs*
 - Energy efficient, 21 watts; 300 watt equivalent
- *Compared to incandescent lamps

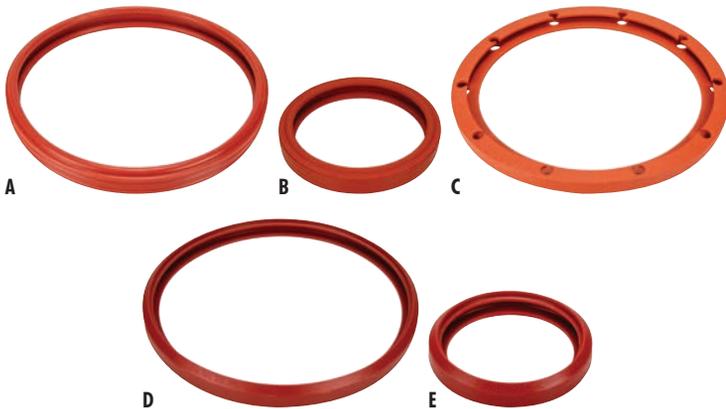

- Fully dimmable
- Lasts up to 50,000 hours - 20x longer life*
- UL Listed
- 3-year limited warranty

Guardian® Silicone Lens Gasket

Standard gaskets are only designed to last the 2,500 hour life of an incandescent bulb. So, how do you protect your LED lamp installations that have an average life of 50,000 hours? Guardian Silicone Lens Gaskets provide premium performance designed for use with any LED or incandescent lamp.

Features:

- Designed to last the life of an LED lamp
- Superior chemical and weather resistance
- Available to fit Pentair®, SwimQuip™ and Hayward® housings

EELST3050	120 VAC, 3 A Max	12/13/14 VAC, 300 W

Pentair EQ Series® Commercial Plastic Pump

- Designed in every detail for maximum efficiency
- The only non-corrosive, all-plastic pump designed exclusively for commercial applications
- Exclusive impeller design that provides true breakthrough performance and longer motor life
- Cam and Ramp™ see-thru lid for added service convenience

EQ Series pumps are the high-performance plastic injection molded pumps suited for a wide range of commercial applications. They're built to last, and are incredibly efficient, quiet, lightweight and corrosion resistant. The EQ's unique impeller design moves more water more quickly than comparable pumps. As a result, the pump's motor doesn't have to work as hard, resulting in cooler operation and longer life.

The EQ has been subjected to a rigorous design, development, and testing program to ensure that it will handle the toughest commercial applications for years to come.

Also available without strainer with pricing on request.

Pentair EQ Series Commercial Plastic Pump with Totally Enclosed Fan Cooled (TEFC) Motor

The new EQ Series 3-phase pool pumps with TEFC motors are a true commercial-duty swimming pool pump. The TEFC (Totally Enclosed Fan Cooled) motor is much more robust and corrosion proof than standard ODP (Open Drip Proof) motors. This commercial-duty motor construction does not allow ambient air to enter the motor; preventing corrosion from the inside out. The motor design features heavy-duty sealed bearings and an ultra-strong aluminum fan for superior cooling; along with Class F insulation for compatibility with Pentair Commercial Aquatics' Acu-Drive Variable Frequency Drives.

Pentair WhisperFlo XF® High Performance Pump

The WhisperFloXF pool pump was developed using the most advanced engineering tools available – CFD (Computational Fluid Dynamics) and FEA (Finite Element Analysis). The proprietary impeller design delivers a higher level of precision concentricity for increased efficiency. The proprietary hydraulic isolator smooths the water flow inside the volute, raising the efficiency even higher. With capabilities in excess of 200 GPM, WhisperFlo XF is an ideal choice for many commercial applications; especially those involving water features, negative edges and slides.

- New upgraded dual-compartment motor for simplified field wiring
- New hydraulic isolator separates priming water from pumping water for faster priming, more turbulence-free flow and increased efficiency
- New union connectors included for connecting directly to 2½" or 3" plumbing
- Diamond seals made of oxidation-resistant, self-retaining EPDM rubber for increased durability and tighter seal
- Extra-large, robust basket with smooth surface for easy debris removal
- Drop-in replacement for original WhisperFlo; optional 400012 XF Riser Base enables easy Challenger replacement
- Modular plumbing system means less need to cut and glue pipe
- External port threading and tool-free union nuts need only hand-tightening
- Easy-carry handle; Easily removable, ergonomic lock ring; and see-through lid for easy basket inspection
- Compatible with Pentair's Acu Drive XS VFDs

Please visit RecSupply.com for pump curves.

WhisperFloXF VS Commercial Variable Speed Pump

- Integrated motor/drive; no expensive external drive required
- Versatile power input capability; runs off a wide range of single- or three-phase power
- Speed or flow control for maximum efficiency and pool performance*
- External control capability through automation systems or relays
- Intuitive programming and operation
- Meets commercial codes and agency requirements

The WhisperFloXF VS Commercial Pump is an economical, combined motor/drive solution for HMAc (hotel, motel, apartment, condominium) installations, providing sophisticated, energy-saving pump technology without the high costs typically associated with independent pump/external drive setups.

The WhisperFloXF VS Commercial Pump features variable speed capability, along with digital controls and proprietary software that allow for custom programming of optimum pump speeds for specific tasks such as filtering, heating, cleaning, and spa jets.

Item Number	Description	HP	Phase
GG2203503	WhisperFloXF VS	5	1 or 3

IntelliFlo3® VSF Variable Speed and Flow Pump

- Proprietary flow technology maintains the pool's optimal flow
- Easy control via the Pentair Home app or optional touchscreen
- New motor, drive, and hydraulics
- Includes relay board — optional onboard automation
- Easy setup and remote updates with the Pentair Pro app
- Up to 90%* energy savings
- Precisely maintains system flow requirements
- Compatible with Pentair Automation

The IntelliFlo3 VSF pool pump sets the new bar for performance. With flow so steady and smart, your customers will wonder how they ever used anything else. The proprietary combination of variable speed plus auto-regulated flow means all good things flow from the IntelliFlo3—for your customers and for your business. Small pool or big, this pump is the simplest, smartest, most worry-free way to give pool owners the effortless, inviting pool experience they expect.

Pentair IntelliFlo VS+SVRS Pump

IntelliFlo Variable Speed pumps combine variable drive speed technology, onboard digital intelligence, and permanent magnet motors (used in hybrid cars) to reduce pump-related energy costs by up to 90%. The IntelliFlo VS+SVRS model features a built-in Safety Vacuum Release System that detects drain blockage and automatically shuts the pump off. ENERGY STAR® Certified.

Feature Highlights:

- Ability to program exact pump speeds for specific operations – filtering, heating, cleaning, spa jets, water features and more – reduces energy costs up to 90%
- SVRS complies with Virginia Graeme Baker Safety Act
- Built-in diagnostics protect the IntelliFlo pump from the most common causes of premature failure – overheating, freezing, and voltage irregularities
- Includes priming protection. No SVRS calibrations needed. Built-in SVRS cannot be turned off
- Safety lock-out feature (password protected) prevents pump speed settings from being changed by unauthorized personnel
- Ability to set minimum and maximum speeds so pump will only operate within the ranges set to help assure safe operation and long life
- Compatible with IntelliTouch®, EasyTouch®, and SunTouch® Pool Control Systems
- Compliant with the current ASME A1125.19.17 Standard for Safety Vacuum Release Systems (SVRS)
- Operates seamlessly on 50 Hz or 60 Hz input power. Flow/speed are constant when operating on 50 Hz or 60 Hz

Pentair WhisperFlo® Pump

- Oversized strainer basket and volute – industry standard in pool pumps
- Compatible with all cleaning systems, various filters and jet action spas
- Heavy duty construction is designed for long life
- Cam & Ramp™ see-thru lid design
- Self-priming, high flow with patented Funnel-Flo™ diffusers
- 2" suction and discharge ports

The Pentair WhisperFlo pump is designed specifically to circulate more water in less time, using less energy and creating less noise. WhisperFlo Pumps come with a one year limited warranty.

WhisperFlo High Performance Pump

Under new Department of Energy regulations, most single speed pumps will fall out of compliance with low performance, greater wear and tear, and constant cleanliness worries. But for some small pools, pumped water features, and other situations, single speed pumps still make sense. So Pentair has adjusted, by making our single speed pumps the first and only to use NEMA Premium® Efficient motors for pool applications—to save the most electricity possible and optimize hydraulic horsepower without sacrificing performance. Which means you can offer your customers a single speed solution that fits their needs and keeps them compliant.

- High-quality proprietary Totally Enclosed Fan-Cooled (TEFC) motor for a long, worry-free life
- 2" NPT suction and discharge ports
- Heavy-duty/durable construction is designed for long life
- Cam and Ramp Lid permits easy inspection of the strainer basket and locks in place with a quarter turn for cleaning that is fast and easy
- Meets DOE minimum efficiency requirements

Pentair Pump Seal Quick Kits

Pentair's Pump Seal Quick Kits include the exact same parts used in production of Pentair equipment. Genuine Pentair seals have been factory tested to provide extreme quality and superior performance compared to generic options. Every seal kit includes a QR code that will take you to a video showing you how to correctly install the replacement parts.

COMMERCIAL PUMPS

WhisperFlo VST Commercial Variable Speed Pump

- Variable speed technology reduces energy costs by up to 90%
- Improved mechanical seal and totally enclosed fan-cooled (TEFC) motor help withstand harsh temperatures and chemicals
- RS-485 connectivity for improved interface with automation systems and IoT devices for more flexibility
- Advanced onboard digital display and real-time, 24-hour clock. Select from three programmable speeds plus an override to meet your specific needs
- Ideal for new and standard pool pump replacement for pools requiring up to a 2.0 HP pump for filtration, water features, and higher head applications
- Adapts to 115V to 230V and 50hz or 60hz power with no special wiring or switching

Introducing WhisperFlo VST. Innovation for pools that need more power than our SuperFlo® VST pool pump. We made a dependable, energy-efficient pump that's available and just what you're looking for.

Pentair C Series® Brass Self-Priming Commercial Pump

The Pentair C Series heavy duty commercial pump is specifically designed for commercial, public or other large swimming pools, fountains and water features where high flow rates and continuous operation are desired.

C Series pumps come with a **one year limited warranty**.

Features:

- Large commercial pump with stainless steel basket
- Easy serviceability
- High performance motor for maximum flow
- All-bronze construction for strength and durability
- 6" suction and 4" discharge for maximum capabilities
- Heavy-gauge stainless steel strainer basket with an open area 5 times the area of the suction port
- Closed impeller for longer motor bearing life
- Heat-resistant seal capable of operation at up to 150°
- Available in single and three-phase models

Sta-Rite CCSP™ Series Cast Iron Self-Priming Pumps

For commercial and public swimming pools and spas, aquatic facilities, water parks and fountain applications where high performance and self-priming characteristics are desired. Rugged, self-priming CCSP Series commercial pumps feature an enclosed bronze impeller, standard 6" x 4" flange connections, plus a 1,100 cubic inch capacity hair and lint strainer. Motors are standard JM type, NEMA® Rated "C" flange design with a stainless steel shaft sleeve. These cast iron pumps are available in 7½, 10, 15 and 20 HP, and feature corrosion-preventing epoxy coating on all wetted surfaces. Pump and strainer sold separately.

Features:

- Cast iron construction, enclosed bronze impeller and bronze wear rings for long lasting reliability
- Nationally recognized NEMA standard motors offer high performance under continuous operation
- Back pullout design enables servicing of normal wearing parts without disconnecting piping
- Exceptional self-priming design with hair and lint strainer installed; allows pump to be installed above or below water level
- Dimensionally compatible with most installations for easier initial hookup or retrofit
- Integral design base is slotted for ease of mounting

Aurora 3800 Series Single Stage End Suction Centrifugal Pumps

Liquid handling requirements have evolved over the years and have increased along with temperatures and pressures. Today's installations demand sturdy but quiet, smooth running pumps with longer life cycles. These modern pumps with a clean, straightforward and updated design were developed with upgraded materials of construction and a simplified offering without limiting ranges and keeping maximum interchangeability in mind. These pumps not only feature shared hydraulics and premium materials as standard offering, but also offer industry leading durability.

Contact us for selection assistance and pricing.

Features:

- Sturdiest power frames in the industry
- Foot mounted and double volute
- Standard back pullout
- Direct replacement to the largest installed base
- Exceeds U.S. Department of Energy (DOE) pump efficiency standards
- Redesigned pumps provide higher efficiencies
- Shared features and standard upgrades

Shown with optional Strainer Tank

Speck Normblock Multi Series Pump

The Normblock Multi Series is redefining the limits of plastic pumps. The Normblock Multi takes the non-corrosive and lightweight benefits for plastic higher than any other American manufacturer. This pump is ideally suited for aquatic facilities, fountains, water parks, aquaculture, and pools with elevated salt concentration.

- Available in 7.5, 10, 15, 20, 25 and 30 HP models
- The Normblock Multi has a robust horizontal single stage design
- Superior slow (1750 rpm) running design reduces vibrations resulting in quiet operation
- The housing is made of high performance plastic (THK), corrosion resistant without elaborate internal coating and can be used with higher salt concentrations
- Heavy duty energy efficient totally enclosed fan cooled (TEFC) motor, Class F insulation, protection class IP 55. Sealed ball bearings need no lubrication
- Shaft coupling allows the motor to be replaced without replacing the mechanical seal
- A high wear, rugged Carbon/SiC – EPDM mechanical seal allows for a long life and long maintenance intervals. (Special application seals are available upon request.)
- Equipped with stainless steel shaft extension
- Optional all plastic strainer tank for horizontal flooded suction applications
- Every pump is tested to factory & customer's specifications before leaving the Speck factory

Speck BADU® Block Multi Series Vertical Pump

When space is of the essence, the BADU Block Multi is the perfect fit. Vertical design and adjustable discharge allow the tightest possible fit.

- Available in 7.5, 10, 15, 20, 25, & 30 HP models
- This pump has a vertical design that creates impressive performance while saving space thereby reducing construction costs
- Superior slow (1750 rpm) running design reduces vibrations, resulting in quiet operation
- Before installation, the discharge connection can be rotated freely
- The housing is made of high performance, corrosion resistant polyurethane
- Heavy duty, energy efficient, totally enclosed fan cooled (TEFC) motor, Class F insulation, protection class IP 55. Sealed ball bearings need no lubrication
- Shaft coupling allows motor to be replaced without replacing mechanical seal
- A high wear Carbon/SiC - EPDM mechanical seal allows for long life and long maintenance intervals
- SiC/SiC seals available for marine applications
- Polyurethane strainer tank with stainless steel basket (optional PVC basket available)
- Each pump is equipped with outside circulation and air bleed line that extends the life of the seal
- Optional integrated NEMA 4X Speck / Vacon VFD
- Every pump is tested to factory & customer specifications, with comprehensive individualized test results

COMMERCIAL PUMPS

Speck BADU Pro UVS Series Pump

Speck's flagship pump, the BADU® Pro was designed with pool service pros in mind. A drop-in replacement for both the Hayward® Super Pump® and Pentair® SuperFlo®, it directly replaces the majority of pumps on the market.

- The BADU Pro pump series saves you time & money while making your life simpler
- Easily serviceable 4-bolt design & handle
- Lid lock ring that incorporates handles, a convenient way to remove the lid
- Suction and discharge comes equipped with quick disconnect unions as well as internal threads for easy installation and maintenance
- Every pump is wet tested before leaving the Speck factory
- All variable speed models are equipped with an LED light in the basket lid for ease of maintenance
- Most models are Energy Star compliant and qualify for all applicable utility rebates
- Variable speed motors also come with digital inputs for easy connection to automation
- All models are additionally available with Speck's Universal Automation Control Board, allowing for seamless communication with all major equipment manufacturers
- Most models can be ordered with 1½" or 2" fittings

Speck Pumps Model 95 High Performance Plastic Commercial Pool Pump

The ultimate in small commercial design, the Model 95 achieves the performance of much larger, complicated, ANSI flanged pumps in a simple, unionized, one-piece housing.

- Large one-piece housing design with integrated strainer basket and easy on/off two-piece lid
- Quiet and efficient pump performance
- This high-performance pump comes complete with Speck's unique mechanical shaft seal that allows the pump, if mistreated, to run dry for up to one hour
- The pump can be used for pool water with a salt concentration of up to 5000 ppm
- Equipped with 4" quick disconnect unions for easy installation and maintenance. A wrench for unions and lid is included with each pump. Flanges are available on request
- Heavy-duty energy efficient totally enclosed fan cooled (TEFC) motor designs
- Every pump is performance tested before leaving the Speck factory

Waterco Hydrostar Plus Pumps

Hydrostar Plus Pumps deliver high performance, self-priming operation by incorporating the latest design and construction technology. The pump body is crafted from injection-molded, glass-reinforced thermoplastic for superior strength and corrosion resistance. Featuring a clear polycarbonate strainer lid for instant basket inspection and a grip handled lock ring for easy removal, maintenance is quick and convenient. The volute-type, back pull-out design and glass fiber reinforced polypropylene components maximize hydraulic performance. The 6061 aluminum slotted base simplifies mounting. Ports include a 6" ANSI-rated 125 bolted flange suction and 4" ANSI-rated 125 bolted flange discharge. The standard TEFC, JMZ-type motor is premium efficient and Class "F" insulated. NSF/ANSI/CAN 50 Listed.

Jandy JCP Series Pumps

The Jandy JCP Series Commercial Polymer Pumps deliver reliable, high-flow performance for demanding aquatic facilities. Built with a durable, corrosion-resistant polymer housing and NEMA Premium Efficiency TEFC motors, these 5–15 HP, 3-phase models provide strong hydraulic capability through 6" suction and 4" discharge ports. JCP pumps are a direct drop-in replacement for Pentair® EQ Series® and C Series® pumps, simplifying upgrades and retrofits. Features include an oversized basket with a tool-free lid and an integrated relief valve for easy maintenance. The JCP Series is compatible with most VFDs and incorporates Aegis® Ring technology for enhanced motor protection. Replacement motors that match OEM electrical specs can be used, helping reduce service downtime. Also available without a strainer. NSF listed.

Jandy Stealth™ Series Pumps

The Jandy Stealth™ Series delivers powerful, energy-efficient performance for commercial facilities requiring dependable, high-flow circulation. As Jandy's most efficient single-speed pump line, Stealth combines strong hydraulic output with durable construction suited for continuous operation. Its oversized, smooth-surface trap basket—the largest in its class—reduces maintenance by improving debris handling, while the ergonomic carry handle, tool-free lid, and accessible drain plugs simplify routine service. Stealth pumps also incorporate "Quiet Technology," providing high performance with whisper-soft operation ideal for noise-sensitive environments.

Installation is streamlined with versatile 2" x 21/2" unions on standard models and upgraded 21/2" x 3" unions on the 3 HP and 5 HP 3 Phase units for higher flow demands. The 5 HP 3 Phase pump features a TEFC motor for added protection in demanding mechanical room conditions. NSF Listed.

Acu Drive XS™

Features:

- Save up to 60% or more on pump's electricity usage
- "Right-size" your pump to the exact flow required
- Saves energy with constant flow as the filters gets dirty (with optional flow sensor)
- Off-hour flow management capability
- Does not blow corrosive filter-room air across the circuitry
- High efficiency up to 98% - adjusts drive input voltage for best efficiency point
- Eliminates need for motor starters
- Integrated disconnects, fusing and optional bypasses
- 2-step ramps (Soft Start Feature)
- Real-time clock for time based functions
- Overload trip protection protects motor and Acu Drive from Voltage Spikes and phase unbalance
- Can connect to an IntelliTouch system
- Up to a 6 year on-site warranty available
- Start-up included with every drive (technical training option available)
- Indoor & Outdoor-rated enclosures
- One drive type for the full power range
- For use with 3 phase pumps only

The Acu Drive XS offers built-in intelligence for increased performance in all aquatic pump applications. Specified to save energy, space, costs and time, the Acu Drive XS is built to be the heart of the pump room. With minimal payback time due to energy savings and equipped with a unique feature which continuously displays the time remaining until the drive pays for itself. Built with powerful standard and optional features specifically designed for energy optimization, the Acu Drive XS is perfectly matched with the full line of Pentair Water Commercial Pool and Aquatics® pumps.

Eco-Flow-C® Aquatic Variable Speed Drives

The Eco-Flow-C® Aquatic Variable Frequency Drive from H2flow is ideal for the hostile environment of a pool equipment room. Its standard rugged NEMA 12 configuration and Aquatic Controller make it a durable and user-friendly solution for even the most unforgiving commercial pool room environments.

Features:

- Rugged ¾ die cast aluminum body with NEMA 12 construction for durability
- Aquatic Controller for simple operation yet sophisticated capability
- Multiple programming options for optimal energy & system efficiency
- BMS (Building Management System) capable for monitoring and control
- Optional Bypass Control with integrated Aquatic Controller
- Patented Load Curve Monitoring protects the pump and system from inadvertent events, i.e., power fluctuations, loss of prime, closed suction / discharge valves, dead heading, worn impeller detection, over load, under load conditions
- I/O capacity for integration with other mechanical room equipment
- Live local and national support for prompt assistance if needed

STRAINERS & BASKETS

Fiberglass Strainer

FPT SW Series basket strainers are designed specifically for aquatic applications. These strainers offer the corrosion resistance of PVC combined with the mechanical strength of fiberglass plus the durability of stainless steel baskets. The SW Series strainers are hydrostatically tested at 100 PSI and are rated for 75 PSI working pressure. They are available in pipe sizes 3" through 24" for flow rates of up to 15,000 GPM. Drawings and dimension information are available on request. Stainless steel basket included.

Stainless Steel Strainer

FPT SW Series stainless steel strainers are manufactured from Schedule 10, 316 stainless steel pipe. Van Stone type flanges are 316 SS stub ends with 304 SS back up rings.

The cover flange is 1" thick acrylic sheet, secured with 304 SS eyebolts and tee handles. A 1/4" thick neoprene gasket is standard (Viton or EPDM materials are options).

Baskets are 316 stainless with 1/8" perforations on 3/16" centers, producing 40% open area. Larger or smaller perforations are available. Please call for details.

Flanged Concentric Reducers

Our flanged concentric and eccentric reducers and designed specifically for aquatic piping systems where maximum resistance to corrosion, pressure, and temperature is required. Our reducers are available in Fiberglass Reinforced Plastic (FRP)/PVC or high-grade T304 stainless steel in sizes ranging from 2" to 16". Concentric reducers are designed for pump discharge and eccentric reducers are designed for pump suction. Eccentric reducer configurations are available at the same prices as the concentric configurations. Additional size configurations are available with pricing on request.

Hair and Lint Strainer Baskets

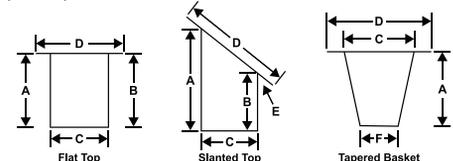

Recreation Supply Company supplies a complete line of strainer baskets. If your basket is not a standard item, our facilities and equipment are geared to produce professional quality stainless steel baskets. An actual sample of your old basket is preferred. Please call for pricing information.

How to Order a Strainer Basket

Please provide the following information:

1. The pump manufacturer's name
2. The make and model number on the pump or complete dimensions of the basket
3. Style: Slant top - Flat top or Tapered

- A. Height of tall side - under the lip
- B. Height of short side - under the lip
- C. Outside diameter of the basket
- D. Width of basket including the lip
- E. Width of the lip
- F. Outside diameter on bottom of tapered basket

Eureka Manufacturing Co. Commercial Hi-Rate Permanent Media Filter Systems

The Hi-Rate Filter concept employed in Eureka Manufacturing Company's HRL, HRL2C, and HRG Hi-Rate Permanent Media Filters has been refined and tested with thousands of systems successfully installed and operating throughout the world. This experience has tested the original premise of the design, making the Hi-Rate an effective, proven method of water filtration.

These filters are designed for and installed in large, commercial aquatic centers, public swimming pools, and commercial water parks.

Our Hi-Rate Permanent Media Filters are manufactured in sizes from 30 inches diameter up to 120 inches diameter. The filters are available in single and multi-vessel configurations, as well as with multiple cells inside a single vessel.

Our filters, in single or dual vessel configurations will service pools with total volumes ranging from 50,000 gallons up to 550,000 gallons. Flow ranges can be accommodated from 142 gpm up to 2,086 gpm. Larger pools or higher flow rates are also readily available.

Eureka Commercial Hi-Rate Permanent Media Filter Systems

Features:

- Tested and Certified by NSF International
- Flow rates of up to 20 gpm per sq. ft. of filter area
- Standard models filter from 26,640 gallons per six hours to 565,200 gallons per six hours
- Low maintenance, easy to operate
- High backwash rates without loss of media
- Automated Backwash Control available

Eureka Commercial Dual Cell Hi-Rate Sand Filters

HRL Dual Cell Hi-Rate Sand Filters are single vessels that contain two separate permanent media filter cells inside. HRL Filters have high filter capacity, but take up relatively little square footage in an equipment room. HRL Filters share all the same great features as the classic SwimQuip Hi-Rate Filters, including ease of use, low maintenance requirements, and optional Automatic Backwash Control Systems.

Eureka/SwimQuip Filter Parts

We stock a complete line of filter parts for Eureka and SwimQuip HRG and HRL series Hi-Rate Sand Filters and SwimQuip HB/F D.E. Filters

HRL/HRG Hi-Rate Permanent Media Filters

For decades, the HRG and HRL Series Hi-Rate Permanent Media Filters have been widely used throughout the world. Today, thousands of commercial aquatics facilities employ these easy to operate, reliable commercial water filters. If you are faced with the failure of your commercial filtration system due to aging parts, contact our sales engineers for our complete selection of replacement components.

A complete catalog of parts for your older HRG or HRL system is available. Call 1-800-437-8072 for your free copy today!

HB/F D.E. Filters

The HB/F diatomaceous earth filter system is no longer in production. However, we do carry a number of replacement parts for these popular systems. To extend the useful life of your trusted equipment, call us at 1-800-437-8072 for specifications or to have a list of available parts faxed immediately to you!

Please call our sales engineers for information on multiple cell or multiple tank systems, to receive a brochure about these filters, or to compare our competitive prices.

Pentair THS Series® Horizontal Sand Filter

The Pentair THS Series horizontal sand filter is a 50 psi rated commercial filter. The filter shell is constructed from a durable composite laminate. A specialized external coating provides a smooth finish, while an interior coating protects wetted surfaces. Standard features include a front manway for access and a reduced footprint. 34" diameter tanks fit through standard doorways. The influent manifold distribution design reduces clogging, and single-bolt saddles allow for easy leveling. Choose a manual, semi-automatic, or automatic backwash kit. Controllers are sold separately. Sand must only be replaced once every five years with proper maintenance, and each THS filter comes with a **10-year tank warranty. NSF Listed.**

Waterco Commercial Fiberglass Sidemount Deep Bed Filters

Micron fiberglass filters embody the latest in fiberglass winding technology. Waterco's computer controlled filament winding machine faultlessly winds continuous strands of high quality fiberglass filament under controlled tension to create a seamless one-piece vessel with refined consistency and superior quality. There are no welds or seams or special tank linings which can corrode or electrolyze.

Manufactured from the highest grade of non corrosive materials and employing the latest in fiberglass winding technology, Micron fiberglass filters are designed and built for many years of trouble free operation.

- Available in top mount, side mount and horizontal configurations from filter areas of 0.87 sq m/9.3 sq ft to 10.0 sq m/110 sq ft Pressure rated at 400 kPa (58 psi) and up to 800 kPa (118 psi)
- Optional sight glasses and lateral man holes
- Optional fiberglass reinforced vinyl ester for improved chemical resistance and compliance with NSF61

Micron "Fish Bone" laterals

Conventional laterals are not suitable for larger sized commercial filters. "Dead legs" exist between the laterals and water flow is not optimized through the filter bed. Waterco's "Fish Bone" lateral configuration eliminates any "dead legs" by improving water flow distribution through the filter bed.

Deep Bed

The effect of deep media bed improves the filtration efficiency over standard High-rate filters by providing enhanced in-depth filtration and increased dirt capacity. In addition, the greater bed depth permits efficient use of mixed bed filter media and water treatment media such as granular activated carbon.

The filter's 1000 mm (39") media bed ensures that finer dirt particles and colloidal substances are retained to a far greater level than a filter with a shallower bed depth. Also available with flanges.

Pentair Triton II® Sand Filter

Triton II features the patented Glas-Lok one-piece reinforced tank with UV-resistant finish for years of unequalled strength and durability. The slotted lateral design provides superior flow characteristics and long filter cycles for economical operation and backwashing. The heavy-duty closure provides easy inspection, and features an easy-to-read pressure gauge and air relief valve. Triton II's swing-away diffuser allows instant access to sand and all internal parts. All internal parts are threaded for ease of service. Bulkhead connectors are threaded for easy installation and service. Combination sand and water drain makes servicing and winterizing fast and easy. Maximum operating pressure is 50 psi. Order Triton II valve separately. Models TR100C-3 and TR140C-3 feature standard 3" flange connections.

Pentair Triton Valve

Efficient Hi-flow 2" multiport valve directs system operator through filter backwash, rinse, waste, recirculate, closed and winterize functions.

Fiber Clear®

Pure Cellulose Filtration Media

- Environmentally friendly - non-toxic, biodegradable
- Cost effective - use approx. 1/3 amount of DE (by volume)
- Finer, more effective filtration
- Saves water - Fast, complete backwashes
- Effective on vacuum & pressure filters designed for DE
- Effective filter aid for sand & cartridge filters
- Reduces algae, suspended metals, phosphates, and oils

Item Number	Description
AACF13850	Fiber Clear Filtration Media, 25 lb bag

Diatomaceous Earth

- Provides a sparkling pool day and night
- Filters out particles associated with recreational water illness
- Enhances filter productivity reducing chlorine & shock use
- NSF certified

Item Number	Description
AA9032050	Diatomaceous Earth, 50 lb bag

Zeobrite™ Sand Filter Media

Naturally formed Zeolite mineral improves sand filter performance and provides superior water clarity. Lowers total operating costs by reducing backwashing up to 50%. Filters particles down to 3 microns. Absorbs ammonia ions which reduces chloramine formation. Reduces costly pool chemicals required to meet your pool's demand by 30-40%. Contains thousands of micropores which hold 300-400% more dirt than sand. Effective size: .45 mm.

Item Number	Description
FF0610098	Zeobrite Sand Filter Media, 50 lb bag

AquaStar Pipeline Cartridge Filters

Filtration Performance

Pipeline Filters passed the NSF water clarity (turbidity reduction) test with just 1 turnover, similar to DE filters. Other cartridge filters typically take up to 5 turnovers to pass the same test. Engineered pleat spacing, 64% larger core openings, and patented uniform tank design allow for more uniform flow from bottom to top, providing best-in-class filtration.

Safety and Ease-of-Access

Pipeline Filter's patented double-locking system allows for safe, quick, and easy depressurization. This makes Pipeline Filters extremely easy to access compared to filters that use a traditional clamp.

Hydraulic Performance

Pipeline Filters provide top-tier hydraulic performance. These filters continue to outperform even after the first cleaning of the filter and cartridge element. Head loss in a Pipeline Filter only increases by 2% after cleaning according to instructions (up to 50% is allowed for NSF certification). Less head loss at the filter provides less stress on the pump, saving energy and money.

Patented double-locking system

Item Number	Max. Flow Rate	Filter Area	Pool Size
FF2700050	75 GPM	200 sq ft	27,000 Gallons
FF3500050	99 GPM	250 sq ft	33,000 Gallons

Harmsco® Single Cartridge Filter

A tough, high-performance single cartridge unit. Each filter includes Harmsco's patented up-flow design and is built of corrosion-resistant 304 stainless steel.

Harmsco's single cartridge Betterfilters install quickly and easily. Comes ready for use with a single Harmsco SuperTuf reusable cartridge.

Item Number	Max. Flow Rate	Filter Area (sq. ft.)	Pool Size

Harmsco Cluster Cartridge Filters

Harmsco filters come complete with durable polyester cartridges that filter particles from 20 microns in size and smaller. (Sand filters, by comparison, filter to approximately 50 microns.) An excellent replacement for worn out systems. Harmsco filters can be installed in difficult locations. These compact, efficient filters will fit through standard doorways. Proven in service for over 25 years, Harmsco filters now provide sparkling clear, beautiful water in thousands of public pools nationwide.

Call for assistance in selecting the proper model for your facility, and for an immediate quotation on the equipment required to fill your specific needs.

Cartridges for Cluster Style Filters - SuperTuf 6

Each SuperTuf/6 polyester plus cartridge has 6 square feet of filtering area which filters from 20 microns down. This superior cartridge lasts longer and is more chemical-resistant as its fibers won't swell or delaminate. The SuperTuf/6 features a rugged PVC center tube and welded end caps which keeps pleats and tube permanently sealed for maximum structural strength and long life. Its corrugated construction keeps pleats separated providing clear channels for maximum flow under all conditions.

STA-RITE CARTRIDGE FILTER & GAUGES

Simply Smarter.

Sta-Rite System 3® Cartridge Filters

Sta-Rite's advanced technology has brought an entirely new class of filtration to the industry. Sta-Rite's modular media concept incorporates the latest in media science, perfectly balanced flow, and an integral manifold design. Split-tank design opens easily to allow convenient access for cleaning or changing filtration media. Posi-Lok™ clamping system is safe and easy for adult access, yet tamper resistant for kids. Dura-Glas® exterior is durable, lightweight and corrosion resistant for years of trouble-free operation, regardless of temperature extremes. Sleek black tank profile blends well into any landscape design.

Infrequent cleanings are a snap; simply remove the tank top and rinse the filtration modules with ease. Their removal is not necessary for normal maintenance. Through-tank bulkhead fittings feature full 2" diameter clear flow. Hand secured against o-ring seals, the bulkhead fittings allow for union style connection to any of the Sta-Rite slide or multi-position valves.

Item Number	Range	Connection	Face
FF3024L20	30" Hg-0	1/4" lower	2"

Gauge Accessories

A. Brass Gauge Cock

Quarter-turn gauge cock provides an economical way to shut off flow to gauges.

B. Brass Snubber

Designed to improve readability and prevent wear on delicate gauge mechanisms by slowing rapid pressure changes and reducing shock and chattering.

#	Item Number	Description
A	FF865MF50	Brass Gauge Cock M x F
B	FF872250	Brass Snubber

Lever-Style Operator

Gear-Style Operator

Asahi Pool-Pro® Butterfly Valves

- PVC/PVC/EPDM construction: Ideal for chlorinated water applications. Submersible valve body
- Blue handle design: Blue handle designates the proper valve is in place for chlorinated water applications.
- Stainless steel stem: Stem does not come in contact with the media, but is still compatible in direct contact.
- Thermoplastic material: Lightweight construction allows for easy installation.
- ISO mounting pad: Allows for field mounting of accessories including stem extensions, gear operators & automation.
- 18 position throttle plate: For lever handle style

Harvard PVC True Union Ball Valve

- Heavy duty thermoplastic grey Sch. 80 PVC
- Full port design
- Unique double union/ double block design permits in-line maintenance without disconnecting pipe and with no special tools
- Teflon® seats resistant to chemical corrosion
- 150 PSI working pressure at 73° water, non-shock
- External adjustment for seat wear
- Both ends are blocked with bayonet-style locks which prevents the ball from being blown out. Ball remains in place upon removal of valve

Asahi PVC True Union Ball Valves

- Corrosion-resistant plastic Type-21/21a manual true-union ball valves
- Quarter-turn operation with hyperbolic flow characteristics and low pressure drop
- Reliable sealing; typically used for on/off applications
- Limited flow-control capability
- Suitable for a wide range of fluid flow applications
- Ideal for clean fluid service with little to no suspended solids
- True-union design allows valve removal without moving piping by loosening union nuts
- Valves can be disassembled for maintenance and part replacement
- Compatible w/ pneumatic or electric actuation

Cla-Val Float Valve

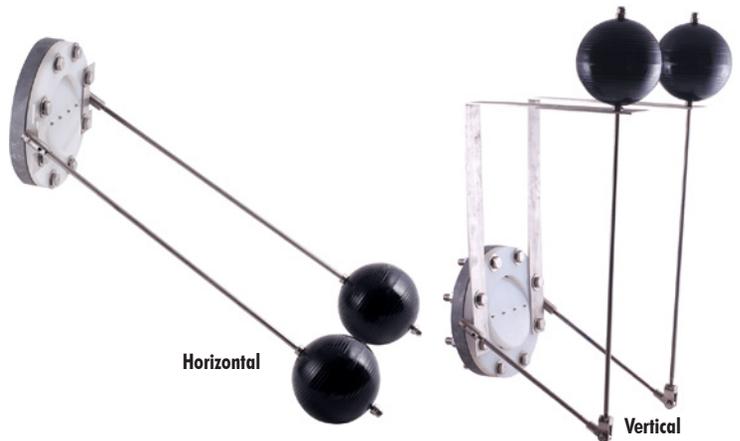

The Cla-Val Model 624-01 Float Valve is a non-modulating valve that accurately controls the liquid level in tanks. This valve is designed to open fully when the liquid level reaches a pre-set low point and close drip-tight when the level reaches a preset high point.

Standard model includes two feet of PVC rod and a plastic float ball. Also available with epoxy coating, flanged connections, stainless steel rod and/or stainless steel float ball with pricing on request.

- Accurate and repeatable level control
- On-off of non-modulating action
- Fully adjustable high and low level settings
- Simple design, proven reliable
- Easy installation and maintenance

Please specify valve type when ordering: Globe or Angle

Modulating Float Valves

Fluidrol Modulating Float Valves come standard with two butyrate float balls, polypropylene valve construction with stainless brackets and hardware. They operate at 20% Open to 80% Open Range and are designed particularly for aquatic surge tanks.

WAREHOUSE LOCATIONS

RecSupply has primary distribution centers in **Bismarck, ND** and **Cinnaminson, NJ**. We also are part of a network of hundreds of pool supply distribution warehouses nationwide. We have far more products in stock and near you than ever before!

FedEx is our primary ground and air shipping carrier.

We also use **USPS First Class** or **Priority Mail** for shipment of smaller packages.

If you have time-critical needs, please contact us to discuss available options and costs. We will do our best to get you what you need, when you need it, and at the least cost to you.

TERMS AND CONDITIONS OF SALE

Payment Methods:

Upon review of a properly completed credit application, credit may be established with Net 30 terms. A service charge of 1½% per month is charged on invoices over 30 days old. Alternate methods of payment include payment in advance by check or money order (please allow up to 2 weeks for personal checks to clear) or payment in advance by credit card (Visa, Master Card, Discover).

If it is one of your first times ordering from us and you are paying by credit card, your order must ship to the billing address of your chosen payment method. We will contact you if we are unable to ship to the address you provided. This policy exists to reduce fraudulent orders and protect our customers. If you prefer not to pay for an item until after it ships, or if your order must ship to a different address than your billing address, consider applying for Net 30 payment terms by submitting a completed credit application.

Additional Charges for Premium Truck Delivery Services:

- Expedited services such as Next Day and Second Day service – Quote on Request
- Truck Shipments to addresses designated residential or limited access (military, school, etc.) – varies, approximately \$40 to \$125
- Truck Shipments requiring inside delivery or a lift gate – varies, approximately \$75 to \$125

Prices and Freight:

All prices are stated in US Dollars. Where quantity price breaks are given, prices are per unit. **Due to market conditions, prices are subject to change without notice.** Current prices are published online at RecSupply.com.

Next Day, Second Day, or other special handling for rush shipments is available on request at the purchaser's expense.

Taxes:

Sales tax will be collected in states in which we are required to collect it. Shipments to those states will be charged applicable Sales Tax unless purchaser furnishes acceptable tax exempt certification prior to purchase. No item prices include sales tax.

Freight and Freight Claims:

Standard shipping terms are FOB Origin. Our primary carriers are FedEx and USPS. Truck shipments may require assistance unloading and will require a signature. It is your responsibility to inspect your goods immediately upon receipt. Freight companies have strict policies regarding damaged freight. Recovery claims must be filed with the carrier by the purchaser within the time limit allowed by such carrier.

The loss or damage claim should be noted on the original copy of the freight bill by the receiver. If you sign for a damaged package without noting the damage at the time of delivery, they will often not allow the claim. Please make sure you inspect your packages before accepting them. RecSupply is not responsible for goods damaged or lost in transit. We will gladly help customers establish any just claim for damaged goods. Contact us immediately for assistance with damaged shipments.

Returns:

Products being returned for credit must be accompanied by a Return Authorization Number and proof of purchase (e.g., an invoice or packing slip). A Return Authorization Number may be obtained by calling customer service at (800) 437-8072. The Return Authorization Number must be written on the outside of each package of goods being returned. Returns must be sent freight prepaid. All returned merchandise must be in original packaging and in new condition. Returns must pass inspection at our facilities prior to issuance or credit. Authorized returns in original condition may be subject to a restocking fee. Shipping and handling charges are not eligible for credit. Orders for custom merchandise or special orders cannot be canceled once processed. Certain items may not be returned for credit. This list includes, but is not limited to: inflatables that have been inflated, special-ordered sizes or colors, unusually large quantities of any item, and paint types or colors that are not commonly stocked by RecSupply. Merchandise will no longer be considered for return 30 days after the invoice date for the product. Many item-specific return policy details are now published on product pages at RecSupply.com.

Warranty:

All products are covered by manufacturers' warranties and are the sole responsibility of the manufacturers. No warranties, express or implied, are made by RecSupply or any of our agents.

Hours:

Monday through Friday 8:00 a.m. to 6:00 p.m. Eastern Time
